SUBJECT: Service Agreement Amendment I – TargetSolutions Learning LLC

The Dayton Fire Department (DFD) requests the acceptance of its recommendation of TargetSolutions Learning LLC (TargetSolutions) for online training of DFD personnel. This is the first amendment to this agreement and will increase the encumbrance from $28,386.28 by $28,863.54 for a total of $57,249.82 and provide DFD with these services through June 1, 2021.

TargetSolutions is essential to the department to quickly disseminate information, including Covid-19 policy and procedure updates, to all DFD personnel as well as provide department employees with access to an extensive library of online fire, EMS and fire safety inspection classes. The TargetSolutions system also provides electronic document acknowledgement confirmation, decreasing organizational liability exposure following the issuance of new policy to department members.

TargetSolutions provides the classes needed to meet CEU requirements for state and locally mandated certifications, tracks CEU requirements and progress, and sends certification renewal notifications. TargetSolutions has allowed DFD to develop its own courses to be added to the library or use courses developed by other departments that already use TargetSolutions (e.g., the Cincinnati and Columbus Fire Departments).

Payment shall be based on the rate of two hundred dollars ($200.00) per mediation referral. The Mediation Center expects to receive approximately four hundred twenty-five (425) referrals during the 2020-2021 Contract.

WHEREAS, the Provider is uniquely qualified, experienced, and willing to perform said work, when there is a Contract specifying the rights and duties of each party.

NOW, THEREFORE, in consideration of the mutual promises, covenants and agreements hereinafter set forth, the parties to this Contract, with intent to be legally bound, agree as follows:

ARTICLE ONE: SCOPE OF SERVICE

If youth are denied service by their third party insurance providers or their co-pays and/or deductible amounts are higher than the maximum allowable rate for service, Court management staff will determine whether to approve or deny payment authorization. 2.4 The Provider will secure proper authorization for release of records from the client’s parent or guardian prior to release of records to the Court. If unable to secure proper authorization for release of records, the Court will not be billed for the services provided by the Provider.

2.5 Payment(s) to the Provider will be made after the Court has received and approved the invoice denoting the provision of the service rendered, which must include a breakdown of all expenditures on a Court approved financial expenditure report. Invoices shall be submitted to the Court within 10 days after the first of each month. EXHIBIT A
SCOPE OF SERVICES

MEDIATION SERVICES

The PROVIDER’s Dayton Mediation Center will provide mediation services to the COURT for the following youths who will be screened by the COURT for eligibility based upon their prior court involvement and the nature of the charge:

- Non-adjudicated youth who have been referred to the COURT’s Intervention Center on an unruly or delinquent misdemeanor offense. These referrals may be unofficial dispositions through or as alternatives to the Intervention Center’s (IC’s) administrative hearings; or

- Adjudicated youth with official cases who have been referred for victim/offender mediation services by Magistrates or Probation Services.

The mediation services for non-adjudicated youth referred by IC will provide an alternative to formal intervention procedures in that youth, along with their families, will be given the opportunity to talk about the charge and possibly the relationship between the complainant and the defendant. This program will afford the youth and their families the opportunity to take responsibility for determining the outcome of their actions, i.e. modeling a dialogue process that keeps decision making in their control, and if they are in agreement, to keep the situation out of the court and preventing another youth from court intervention and the possibility of the establishment of an official record for the youth.

The victim/offender mediation services for adjudicated offenders will offer a process where the offender has an opportunity to be accountable to the victim. It also provides a process where the victim and offender meet together in a controlled environment to air feelings and discuss losses and may develop a mutually agreeable restitution plan.

Community Impact Panel (CIP) may be an option for non-adjudicated and adjudicated youth. CIP can help referred youth understand the impact of their actions on the community by allowing volunteer citizens (who can serve in the role of “victim” where the actual victim does not wish to confront the offender) to express the human effects of misbehavior and personally restore offenders to citizenship in the community.

A letter is mailed to the appropriate parties stating that mediation is scheduled and that their attendance is requested. The case will be referred back to the COURT if the defendant refuses to attend. Upon scheduling of mediation, the COURT makes case information available to the Dayton Mediation Center. The Mediation Specialist attempts to contact the parties to explain the process of mediation, answer questions and confirm their appointment. Mediators are assigned to the cases. Through this process, the defendant is able to take responsibility for his/her actions in an appropriate way as determined by the mediation dialogue.

The case is completed when complainants and defendants have completed their dialogue, or the defendant has completed the CIP, and decided what needs to happen with the charge. Their options include complainants dropping the charge, or complainants and/or defendants having the case sent to the Court for further actions.

The entire mediation intervention process can include case management, pre-mediation sessions and the mediation session(s) itself, and can average between 4-5 hours.
Monitoring and Evaluation Requirements

The PROVIDER, through its Dayton Mediation Center, will:

- Provide training to the Court staff on the Dayton Mediation Center’s programs and practices;
- Provide progress reports on the youth being referred by the COURT to the Dayton Mediation Center;
- Submit the prescribed youth tracking forms;
- Submit the prescribed annual report at the end of the grant year.

The Dayton Mediation Center will also be required to measure the following objectives in the delivery of these services:

- 70% of adjudicated youth will successfully complete the program. (This figure includes the number of adjudicated youth who successfully complete the program divided by the total number of adjudicated youth terminated from the program.)

- 70% of the non-adjudicated youth will have no further involvement with the Court within 60 days of a successful mediation. (This figure includes the number of non-adjudicated youth who have no further involvement within 60 days after a successful mediation divided by the total number of non-adjudicated youth within 60 days after a successful mediation.)
EXHIBIT B

In the event the Provider fails to promptly furnish the Court with acceptable Certificates of Insurance, the Court shall have the right to suspend payments until acceptable certificates (including renewals, if appropriate) are received by the Court, or to declare a default under this Agreement.

No option, right, power, remedy or privilege of either party shall be construed as being exhausted or discharged by the exercise thereof in one or more instances. It is agreed that each and all of the rights, powers, options or remedies given to each party by this Lease are cumulative and no one of them shall be exclusive of the other or exclusive of any remedies provided by law except as specifically provided herein and that the exercise of one right, power, option or remedy by either party shall not impair its right or any other right, power, option or remedy, except as specifically provided herein.

M. This Agreement merges all prior negotiations and understandings and there are no other agreements and understandings, oral or otherwise, between the parties pertaining to the contents of this Agreement. This Agreement and any written agreement hereafter made between the parties hereto shall be binding upon the parties only when fully executed by an officer or authorized representative of both parties, and if necessary approved by the Commission of the City of Dayton. Description:

Dayton Economic Attraction Program (DEAP): Annual Payments

The Department of Economic Development is requesting approval to disburse the annual DEAP grants based on income tax withholdings for net new jobs created. On February 25, 2009 the Dayton City Commission approved DEAP and its policies, eligibility criteria and administrative guidelines by Ordinance No. 30837-09. On November 30, 2016 the Dayton City Commission amended the administrative guidelines by Ordinance No. 31538-16.

DEAP provides an annual grant for three years to companies that create new full-time jobs/payroll in the Downtown area or within one of Dayton’s targeted industry sectors. The annual grant is calculated as a percentage of income tax from new job/payroll creation; 100% for first, 75% for second and 50% for third year for businesses located in downtown Dayton and 50% for three years for businesses within the targeted industry sectors that are not located downtown. The grant is based on a 2.25% tax rate because the Issue 9 funds are earmarked for specific uses. Based on the new employment and payroll information submitted by the companies and verified by the City’s financial records, these four companies met the requirements for DEAP and will receive grants:

- Acadia Lead Management
- CareSource Management Group Co.
- RSM US, LLP.
- Shops by Todd

A Certificate of Funds is attached for each company.

Department of Economic Development
Dayton Economic Attraction Program (DEAP) Guidelines

PURPOSE: The purpose of the DEAP (the "Program") is to provide an incentive for the attraction and growth of businesses in Downtown Dayton and key industry sectors. This Program may be used in conjunction with other financing and incentive programs available through the City of Dayton as well as the federal government, the State of Ohio, and the Dayton-Montgomery County Port Authority as provided herein.

INCENTIVE: The City of Dayton may at the discretion of the City Manager provide, as an incentive, an annual grant for up to three years at the following percentages:

- Downtown Dayton – Accelerated incentive schedule, i.e. 100-75-50 of income tax withholding from new job creation.
- Key industry sectors – 50% of income tax withholding from new job creation.
- $1,000,000 cap on the total three-year benefit per company

ELIGIBILITY: To qualify for the Program, an enterprise must be currently located in or planning to locate in Downtown Dayton. (Downtown Dayton is illustrated on the attached zoning map.) Or, an enterprise must be currently located in or planning to locate anywhere in the City of Dayton and fit within one of the following key industry sectors:

- Advanced Materials & Manufacturing
- Aerospace Research and Development
- IT, Data Management & Sensors Technologies
- Health Care & Human Services

In addition, an entity must intend to create and maintain no less than five net new full-time-equivalent (FTE) jobs or no less than $200,000 net new payroll (as a result of net new jobs). The grant will only be for net new jobs created, not existing positions with new employees. NOTE: If an enterprise has received City funds within three years prior to application, the enterprise might be disqualified from the Program.

"Net New Job" means a full-time employee first employed by an enterprise after the enterprise is approved for the program. "Net New Job" does not include an employee if, immediately prior to being employed by the enterprise, the employee was employed by another enterprise that is a related member or predecessor enterprise of that enterprise. "Net New Job" does not include an employee who was previously employed by the enterprise within the last 6 months. This means an employee who was laid off within the last six months will not be considered a net new job.

APPLICATION: In order to be considered for the Program, an enterprise must submit a completed application. An application will not be complete until all of the following items are received by the Department of Economic Development.

1. An application to the Department of Economic Development;
2. A $250.00 non-refundable application fee with the application; and
3. All required documentation (as set forth on the DEAP Application).
Applications are available at the City of Dayton, Department of Economic Development, 101 West Third St., Dayton, Ohio 45402, or on the City's website at www.DaytonOhio.gov.

If all eligibility requirements are met and a completed application and application fee have been received by the Department of Economic Development, the application will be forwarded to the Development Fund Allocation Committee for approval. A determination letter will be provided within 30 days of receipt of a completed application.

**Grant Amount:** The actual amount of the grant will be based on the actual new income tax withholding compared to a baseline determined at the time of application.

**Payment:** The DEAP grant payment will be made in the second half of the following year after the enterprise files an annual DEAP year-end report in the calendar year following and then the succeeding two years if the enterprise remains qualified.

**Additional Requirements:***

1. Applicant must submit all documentation as required by the City of Dayton’s Department of Economic and the Development Fund Allocation Committee.
2. Approved applicants must submit an annual DEAP year-end report certifying the number of net new jobs.

Planning District: Edgemont
Decision: Recommended Approval

Staff Comments

Tony Kroeger presented the staff report. He said staff believed the determinations and findings could be made and recommended approval. A work session on this project was held on March 10, 2020. To recap, this is a proposed redevelopment of the Whittier School site for a Five Rivers Health Center at 721 Miami Chapel Street within the Edgemont Planning District. A Planned Development is proposed, which will change the zoning from MR-5 Mature Single-family Residential to T Transitional with a PD overlay. The Health Center will serve the Dayton region, and the site was chosen based on its proximity to residents who will benefit from the Health Center, accessibility from I-75 and SR-35, lot size and price.

The site is 4.4245-acres of vacant land. Although it consists of mostly grass, the site will need some additional prep work due to the presence of the previous school structure. Upon completion of site borings, it was determined that the foundation and basement of the school is buried underground. Excavation of the structure, grading and extra-deep footing with be required for the new structure construction.

The site is currently zoned MR-5, which doesn’t allow for medical offices. The architects have met with planning and zoning staff to determine the path forward. It was determined that a planned development and change of the underlying zoning to Transitional would best suit the needs of the medical use. A site nearby was recently rezoned to Transitional for medical uses and amending the zoning on this site will allow for consistent zoning within the area. Although the Transitional district allows for medical office, there are still some aspects of the design and proposed use that do not comply with the proposed zoning district. Thus, a planned development will also allow the redevelopment of the site to be flexible and in line with the goals of Five Rivers Health Centers.

The flexibility of a planned development will allow for an increased front building setback, an increase in allowable height and scale, use of a drive-thru for a proposed pharmacy, and parking in the front yard. Planning, zoning, and CityWide have been in discussions with the Elevar Group, the architecture firm responsible for the design. Elevar has submitted the current plan based on feedback from the City in terms of site design and Five Rivers Health Centers need for specific interior layout and parking requirements. Also, the design of the building will follow sustainability practices and be LEED certified.

The facility will include medical offices for women’s health, family health and dentistry, as well as a pharmacy and administration. A portion of the second floor will be a 10,000-sf shell space for future expansion. The submitted site plan includes a building footprint of 38,000-sf for two-stories and an 11,000-sf third story set on the back half to the building to visually lessen the height of the building from the street. The proposed building will total 85,000-sf. Each floor is designed at 14-ft, with a building height around 45-ft total.
The building’s entrance is situated along Miami Chapel Road and includes a prominent portico and vehicular drop-off area. Also, the proposed pedestrian access from the street mimics that of the previous school, with a separated, straight, tree-lined walk from the street. The site holds 225 parking spaces and has been laid out to allow for patient parking nearest to the entrance. Parking at the back will be for employees and ambulances/shuttles for incarcerated patients.

Ample setbacks are proposed along Miami Chapel and Campbell allowing for both street trees and landscaped bio swales. Also, at the intersection, a large 9,000-sf detention area will provide attractive green space for passersby. Three new curb cuts will be added to the site, two off of Campbell, and one on Miami Chapel. The northern-most curb-cut will ease the circulation of the proposed pharmacy drive-thru, as users can enter and exit there without circling the entire site.

The design of the site has examined a number of possible layouts and the submitted layout has been determined to best meet the needs of Five Rivers Health Centers and also take the City’s zoning code requirements into consideration.

Public Hearing Comments
The applicants, Kimberly Patton, Elevar Design Group, 555 Carr Street, Cincinnati, OH and Gina McFarlane-El, CEO, Five Rivers Health Centers, 2261 Philadelphia Drive, Dayton, OH, described the project and answered questions from the Plan Board.

Board Discussion
The Plan Board discussed the project. Ms. Pegues asked if staff from the Philadelphia Drive location will be moved to this new location. Ms. McFarlane-El said some staff will be moved but many will remain on Philadelphia Drive. Mr. Payne asked about the status of additional parking that is needed north of the location. Ms. McFarlane-El said they are waiting to hear back from the landlord of the additional property they wish to use for parking. Mr. Kroeger noted that the project meets Zoning Code parking requirements; no parking variance is needed for the project. Mr. Patton said Five Rivers is looking to add parking beyond what the Zoning Code requires. Ms. Pegues asked if meeting space will be provided in the building; Ms. McFarlane-El said each floor contains meeting space. Mr. Scott noted that the landscape plan does not include all needed landscaping. Staff, the applicants, and Plan Board members agreed that a sentence will be added to the PD requirements stating that “Vegetation between the proposed parking lot and Miami Chapel Road shall be installed and densely planted to soften the visual impact of the parking lot and obstruct the impact of automobile headlights.”

Board Action
A motion was made by Mr. Payne, seconded by Mr. Sauer and carried to recommend City Commission approval of Case PLN2020-00077 based on the Plan Board’s ability to make the determinations specified in R.C.G.O. Section 150.125.7 as outlined in the staff report. A sentence will be added to the Planned Development requirements stating that “Vegetation between the proposed parking lot and Miami Chapel Road shall be installed and densely planted to soften the visual impact of the parking lot and obstruct the impact of automobile headlights.”

The regulations imposed and the districts created under this Zoning Code may be amended from time to time by ordinance duly enacted by the City Commission. No such amendment shall be adopted except in accordance with the procedure specified in sub-sections 150.125.2 to 150.125.11, inclusive, of this Zoning Code. (Ord. 30515-05, passed 12-28-05)

CURRENT CONDITIONS

Existing Land Use: Vacant land

Existing Zoning: MR-5
STAFF ANALYSIS

Case Background:

The applicant requests a zoning map amendment from single-family residential to Transitional, with a Planned Development overlay. The Transitional zoning classification will accommodate the proposed use (a 84,176 square foot medical office building) while the PD overlay will accommodate those features of the plan that deviate from the typical regulations/uses of the underlying zoning classification (particularly, the allowance of a drive-thru pharmacy, which is typically conditional use).

Project Setting:

To the east, south, and north, the property is near single-family residential homes, and as such the zoning of these areas is single family residential. To the west is a large industrial use, Apex Tool Group. Its zoning is General Industrial (I-2).

The subject property is the former site of a Dayton public school, Whittier School. It has been a vacant site since that structure was demolished several years ago.

Proposed Use:

Per the plans submitted, the principal use of will be a medical office building for Five Rivers Health Centers. The building will be 84,176 sq. ft. It will include a drive-thru pharmacy on the northeast corner of the building. There is to be a dedicated main entrance for the general public located on the southeast corner of the building, and another entrance for employees on the west face of the building. That entrance would also be used by ambulances and clients who come assisted via a referral from the jail. Most of the building is two stories in height, although there is a partial third floor. The area of each floor is as follows: Basement: 2,304 GSF; First Floor: 36,150 GSF; Second Floor: 34,842 GSF; Third Floor: 10,880 GSF.

Traffic and Pedestrian Access:

There are three proposed points of vehicular access – two on Campbell Street and one on Miami Chapel. These access points are largely determined by the need to accommodate RTA project mobility buses, as well as to ensure proper vehicular circulation to the various points of building entry. One of the primary discussion points between the project architect and city staff was pedestrian access. Too often, buildings are not adequately connected to the right-of-way via an exclusive pedestrian path. The design incorporates a focused-effort to accomplish this, which in some ways helps mitigate the larger setback of the building – both from an access and visual perspective. Therefore, you will see a dedicated path leading from Miami Chapel to the front door.

Off-Street Parking:

The parking layout, and consequently the site layout, was in many ways driven by the multiple entrance points into the building, and the associated need to provide access and security for them. So, you will see that the southeast part of the parking area is designed to serve the closest entrance, which is the public entrance at the southeast corner of the building. Parking on the western side if the site serves the western
employee entrance, and the southern face of the building will accommodate RTA access. The number of parking spaces provided would been typical requirements of the underlying zoning district. That being said, the needs of the institution may prompt the use of remote parking lots.

**Off-Street Bicycle Parking Regulations:**

Bicycle parking has been accommodated with rack to the east of the building.

**Trees and Landscaping:**

Trees and landscaping will exceed typical code requirements, including canopy trees around the site perimeter and various areas of smaller ornamental vegetation.

**Signage:**

A detailed sign plan has not been submitted, although the primary signage area is depicted in the renderings. Signage shall comply with all underlying code requirements.

**Waste Receptacles:**

**Lighting:**

Exterior lighting shall comply with 150.420.3 (Exterior lighting standards). Per the plans submitted,  

**STAFF RECOMMENDATION**

Staff recommends **APPROVAL** of the proposed rezoning and the Final Plan for the medical office building with the attached Planned Development Standards.

The architect and city staff have had extensive interaction to get to this point. There has been flexibility shown throughout, with a shared desire to bring Plan Board a complete and approvable plan.

**150.125.7 Amendments to Change Zoning Districts or Zoning Classifications of Properties**

(A) When a proposed amendment would result in a change of zoning classification of any property, the Plan Board and City Commission should consider whether:

1. The change in classification would be consistent with the Comprehensive Plan of the City or other adopted plans and policies.

This zoning map amendment would fulfill a number of objectives related to the Comprehensive Plan. It would allow for infill redevelopment of a vacant site; it would apply a Planned Development to allow flexibility; and it would apply a high design standard. It advances the Carillon-Edgemont Plan (2018) where this site was explicitly designated as a redevelopment site.

2. The change in classification would be consistent with the intent and purpose of this Zoning Code. The proposed amendment complies with the code by allowing site redevelopment in a way that will improve the area and not create any external hardship or detriment.
(3) The proposed amendment is made necessary because of changed or changing conditions in the area affected, and if so, the nature of such changed or changing conditions. There have been a number of changes leading to this request, including the demolition of the school at this site, the potential of the property for redevelopment, and the acquisition by Five Rivers Health Centers.

(4) The uses that would be permitted on the property if it were reclassified would be compatible with the uses permitted on other property in the immediate vicinity. Staff believes that the use will not only be compatible, but beneficial.

(5) The uses that would be permitted on the property if it were reclassified would have an adverse environmental or health impact on the immediate surrounding area in terms of acceptable air, noise, light, or water quality standards. Negative impacts of this nature will be avoided by the applicant through a thoughtful site design that meets city requirements.

(6) Adequate utility, sewer, and water facilities, and all other needed public services exist or can be provided to serve the uses that would be permitted on a property if it were reclassified. These services can be accommodated by available infrastructure.

(7) The amount of vacant land with the same zoning classification as proposed for the subject property, particularly in the vicinity of the subject property, and any special circumstances, if any, make a substantial part of such vacant land unavailable for development. This is a unique property in that it is a large, redevelopable area that is geographically situated to meet the needs of its clients.

(8) The proposed amendment would correct an error in the application of this Zoning Code as applied to the subject property. (Ord. 30515-05, passed 12-28-05) There is no error in the zoning code, although the conditions have changed as noted above.

150.350.8 Final Plan Review Criteria

The Plan Board shall review a Final Plan and determine if it is consistent with the overall intent and purposes of the approved Planned Development. The Plan Board will also review the details of the proposed Final Plan to ensure compliance with all applicable City codes and regulations including:

(A) Preliminary utility easements including fire hydrants, sanitary sewers, and preliminary grading, drainage, and storm water management;

Utility easements have been evaluated and incorporated into the site design.

(B) Roadway systems, circulation areas, service areas, parking areas, entrance, exits, and pedestrian walkways within the development and access to public streets that minimize traffic hazards or congestion;

These elements have been thoughtfully accommodated.

(C) The general location of buildings depicting bulk, height, and spatial relationships of proposed building masses with adjacent development;
This is a rather unique site that is adjacent to a large industrial use. While taller than most of the surrounding area, staff finds that it will not create a negative impact.

(D) The number and location of access drives limited to reduce curb-cuts, cut-through traffic, incidence of left turns, and adverse impact upon adjacent uses;

Given the complexity of the traffic pattern on site, this has been accommodated to highest possible degree.

(E) The location of parking areas, including circulation routes designed to service front parcels and main, rear, or additional parking areas and to permit travel between all parking areas;

Yes, this too has been considered and addressed as required.

(F) Internal directional traffic signage required to assure safe and orderly vehicular and pedestrian traffic;

Extensive signage will be installed to ensure proper circulation. This is a major priority for the health service provider.

(G) Parking lot lighting, including, style, and height that directs lighting to access drives, pedestrian walkways, parking lots, and buildings and not to adjacent residential areas;

These must all comply with the underlying zoning code. Particularly, pedestrian walkways have been well considered.

(H) A signage plan indicating consistent use of materials, colors, lettering, etc., in compliance with Section 150.900, Sign Regulations;

While not completely finalized, the signage plan shall conform to the zoning code.

(I) Intended measures to screen rooftop mechanical equipment from view from the public right-of-way and adjoining residential properties. Where necessary because of sight lines, such screening may be accomplished through the use of parapet walls, roof mounted screens or other devices approved by the City;

This is a requirement of the Planned Development standards.

(J) Accommodation and access for emergency and firefighting apparatus;

This has played a major role in the site layout.

(K) Screening and enclosure of trash, recycling, and grease containers, as required by subsection 150.800.10, Screening of Accessory Uses, so as not to be visible from the public right-of-way or adjoining properties;

This is a requirement of the Planned Development standards.

(L) Location of landscaped or screened buffer areas as required within front, side, and rear setbacks and significant buffers with adequate landscaping and screening between the proposed development and adjacent residential areas. (amend Ord. 31752-19, passed 9-419)
Proper screening and landscaping are indicated in the site plan.

ALTERNATIVES

1. Approve the zoning map amendment application, Final Plan, and Planned Development Standards finding that it is consistent with the City’s comprehensive plan, CitiPlan 20/20, Focus 2010, and the City of Dayton Zoning Code.

2. Approve with modifications the zoning map amendment application, Final Plan, and/or Planned Development Standards finding that it is consistent with the City’s comprehensive plan, CitiPlan 20/20, Focus 2010, and the City of Dayton Zoning Code.

3. Deny the zoning map amendment application, finding that it is not consistent with the City’s comprehensive plan, CitiPlan 20/20, Focus 2010, and the City of Dayton Zoning Code.

FUTURE ACTIONS

If approved, the proposed zoning map amendment would go to City Commission.
