EXHIBIT B
COVID-19 Grant Proposal

The City of Dayton Human Relations Council (HRC), a Fair Housing Assistance Program (FHAP) is submitting a request in the amount of $25,000 to develop a comprehensive strategy to effectively carry out the provisions of the HRC’s substantially equivalent fair housing law and improve the quality of life for Dayton residents by affirmatively furthering fair housing issues related to COVID-19. HRC believes that these vulnerable communities need to have necessary information from trusted and reliable sources to make informed decisions to protect their civil rights. As we have moved further into the COVID-19 pandemic, the HRC will utilize established partnerships to effectively convey information in a multi-pronged way to identify necessary steps to prevent housing discrimination and unfair housing practices to all protected classes including special underserved populations such as new immigrant populations, LGBT persons, people with disabilities, and communities of color.

We are now at a critical juncture in which vulnerable residents from underserved communities are experiencing a more disparate impact of COVID-19 related health issues. For instance, in Montgomery County, there have been 320 confirmed cases of COVID-19, resulting in 104 hospitalizations and 10 deaths. Of those 320 cases, 100 (83.9%) were African American (AA) and 181 (45.8%) were White. More importantly, while AA’s make up 22% of the population in Montgomery County, they account for 31.5% of confirmed COVID cases. On the other hand, Whites make up 74.3% of the population in Montgomery County, and account for 56% of the confirmed COVID cases. The above data, which is still in the preliminary stages, is a stark reminder that vulnerable communities will experience this pandemic in more impactful ways such as greater unemployment, food insecurity, lack of access to technology which will deepen the digital divide, lack of access to educational resources, and structural inequities along racial lines that will have profound long-term implications through multiple sectors in our communities.

More importantly however, while current cases do not reflect a significant uptick in COVID-19 related complaints, we are unable to gauge with accuracy the immediate impact of COVID-19 on issues such as evictions, unfair housing practices, etc. For instance, according to the Dayton Public School leadership, over 22,000 Dayton public school students who have been at home due to COVID-19 since early March 2020, do not have access to internet and about 1,000 do not have computers in their homes. Additionally, government offices, including the HRC, have been closed to the public and residents have been unable to physically come in and file complaints. Further, all libraries have been closed, so residents who may have wanted to file a complaint, do not have access to internet and computers at the libraries. Therefore, we can reasonably assume that when the Governor orders the reopening of all government offices, we may potentially see an uptick in cases that are COVID-19 related, and we want to be strategically positioned to respond utilizing a multi-pronged engagement response.

To that end, HRC will enter into a one (1) year contractual agreement and hire a part time COVID-19 Coordinator to develop a comprehensive, multi-pronged strategy and partner with Access to Basic Legal Equality (ABLE), Miami Valley Fair Housing Center (MVFHC), Welcoming America, and other grass roots organizations that are aligned with HRC’s mission of eliminating unfair housing practices to mitigate the effects of COVID-19 in our most vulnerable communities. This multi-pronged approach will include: 1) Partnering with grassroots, faith-based, and community organizations to provide outreach and education activities and 2) Developing a free interactive phone app which will allow residents to file complaints as well as launch a Fair Housing advertisement campaign in current popular phone apps featuring informative web-based video on-demand promoting Fair Housing resources. The proposed activities, descriptions, and budget are outlined below and timelines can be found in Appendix A.
1. **Proposed Activity: Partnering with grassroots, faith-based, and community organizations to provide outreach and education**

The HRC will contract with Miami Valley Fair Housing Center, Inc. (MVFHC), to assume the position of the part-time **COVID-19 Coordinator**. MVFHC has agreed to undertake the following activities in collaboration with the HRC and implement the comprehensive strategy for outreach and education over a 12-month project throughout the City of Dayton.

As we move through the continuum of the COVID-19 pandemic, the City of Dayton’s vulnerable populations need reliable information that enable informed decisions to protect individual civil rights. The Fair Housing Center is uniquely qualified to serve as the COVID-19 Coordinator on this project. The Fair Housing Center has extensive experience in fair housing education and outreach activities, and consistently scores “excellent” for its performance on Fair Housing Initiative Program (FHIP) Education & Outreach grants. In addition, MVFHC has two (2) FTE Information Technology (IT) professionals on staff with a wide range of skills working with online social media platforms, interactive webinars, videos, and continuing education classes.

Moreover, MVFHC utilizes a proprietary web-enabled fair housing case management database to record all activities (complaint intakes, referrals, participation in education, etc.) This allows MVFHC ready real-time access to outcomes achieved on projects as well as easier analysis of demographic information (addresses, ages, protected classes, etc.) for various indicators and trends. MVFHC’s database combines case information with Census and other data sets to provide insights for targeted investigations and/or education & outreach activities. MVFHC will utilize this powerful tool to facilitate, track, and report on the work accomplished under the project. To that end, MVFHC will engage in the following tasks:

**TASKS:**

- Develop and create content, plan, and coordinate an Outreach and Education Campaign to the residents of the City of Dayton about their rights and obligations under the FHAA and the City of Dayton’s substantially equivalent fair housing law.
  
  a) Convene educational symposia, workshops, and lunch & learn webinars on various media platforms.

  **Deliverable(s):**
  Create and produce four (4) lunch & learn webinars of between 10-15 minutes in length during the grant period

  b) As state and local health guidelines permit, conduct face-to-face educational events at schools, community centers, churches, and municipal buildings.

  **Deliverable(s):**
  Schedule of all meetings, including the date, time, location, number of participants, meeting materials (to be created), and agenda for each meeting

- Convene periodic meetings of the collaborating organizations to ensure all participating agencies understand and support the project, then monitor accomplishments and challenges throughout the grant period and work with HRC to resolve any encountered challenges.
**Deliverable(s):**

a) Initial convening of meeting potential collaborative organizations within 30 days after execution of contract with HRC. MVFHC will provide a copy of the meeting agenda, and a list of all meeting participants, meeting materials, with date and times.

b) Convene additional meetings on a quarterly schedule throughout the grant period of all collaborating organizations. MVFHC will provide a copy of each meeting agenda, meeting materials, and a list of all participants in each meeting.

- Serve as subject matter expert to collaborating partners on comprehensive fair housing education, outreach, and enforcement skills to provide housing providers with guidance necessary to achieve voluntary compliance and residents with information and support that encourages individuals to file complaints through the administrative process to address violations of their civil rights.

**Deliverable(s):**

a) Document all inquiries/requests for education, outreach, or technical assistance provided to collaborating partners within the City of Dayton on fair housing education, outreach, and enforcement during the grant period. MVFHC will provide a list of all inquiries and/or requests for guidance received from collaborating partner agencies during the grant period. The list will include the date, requesting agency, and the subject matter, and any resolution to issues.

b) Document all inquiries/requests for technical assistance provided to housing providers within the City of Dayton during the grant period.] MVFHC will provide a list of all inquiries received during the grant period. The list will include the date, the housing provider requesting assistance, and a brief summary of the guidance shared with the housing provider.

- Make appropriate referrals to the Dayton Human Relations Council, the Ohio Civil Rights Commission, and/or HUD of meritorious complaints of housing discrimination identified through the work of this project. MVFHC will provide a list of any meritorious referrals made.

Currently, the HRC is working with community partners to ensure Dayton's ongoing emergency operations planning includes a coordinated approach for getting accessible information to our vulnerable communities before, during, and after COVID-19. HRC is leading an effort with the Mayor's Offices, Advocates for Basic Legal Equality (ABLE), and Miami Valley Fair Housing Center (MVFHC) to coordinate critical work being done around the City to ensure that immigrants, refugees, and other vulnerable groups have access to information and resources they need regarding discrimination, housing, evictions, and legal services through the development of a trusted Website. It is particularly important that our limited English Proficient populations have access to the same or similar resources and information as their English counterparts. Further, HRC will ensure that any information conveyed is translated into the 4 most common languages in the Dayton area (as the city of Dayton has experienced an increase in its foreign born population by nearly 60% between 2009 and 2014): Spanish, Arabic, Russian, and Turkish. To that end, HRC will utilize data collected from this established partnership to track and guide the outreach and education efforts.

**2. Developing a free interactive phone app which will allow residents to file complaints as well as launch a Fair Housing advertisement campaign in current popular phone apps featuring informative web-based video on-demand promoting Fair Housing resources.**

The COVID-19 Coordinator will work with a skilled web developer to launch a free interactive app in both the Google Play store and Apple App store which will allow the Senior Civil Rights
investigator and COVID-19 Coordinator to connect with underserved populations who have limited access to high speed internet and household computers. The phone app will be designed to allow the user to connect with HRC's office, file Fair Housing complaints, and view On-Demand Fair Housing Resource Videos. In addition to launching the Fair Housing resource phone app, HRC's staff will also be able to advertise other HRC initiatives related to diversity, inclusion, and equity, on current popular apps, which will provide access to a wider audience at lower costs. Most importantly however, placing ads on popular and frequently used apps, will steer new users to HRC's platforms and increase the amount of reported Fair Housing/COVID-19 complainants.

HRC's newly added Americorp Vista employee will help track new cases and analyze referrals for trends regarding COVID-19 that may be related to housing complaints, such as an increase in domestic violence, Section 8 housing, utilization of food pantries, or increases in rental evictions. By comprehensively addressing equitable access to services and building inclusive communities, HRC is better able to identify systematic barriers, discriminatory practices, and impediments to fair housing that can be addressed through cross-sector collaboration, multi-jurisdictional approaches, and policy changes.

**Expected Impact on how the proposed activities will benefit the HRC's fair housing mission:**
Overall, the HRC is strategically prepared to partner with agencies that are similarly concerned with outreach and educational efforts to effectively assist our community, especially immigrant, refugee, and vulnerable populations, that may be most impacted by the unprecedented health event of COVID-19. We know that many segments of the community may not be aware of resources due to issues such as language barriers, poverty, fear of reporting discriminatory practices, and unfair housing practices. The FHAP COVID-19 Grant therefore, will allow the HRC to support enhanced efforts to conduct education and outreach to mitigate the effects of COVID-19 in the most vulnerable communities and ensure that they are aware of their rights and discourage discrimination of any form.

Moving beyond the immediate circumstances surrounding COVID 19, the HRC will expand upon the work completed with previous FHAP Partnership funds to build trust in the community with a targeted lens on immigrant, refugee, and high poverty communities by providing a host of community engagement activities to effectively carry out the provisions of the HRC's substantially equivalent fair housing law, conduct effective and comprehensive fair housing education and outreach to special populations, and improve the quality of life for Dayton residents by affirmatively furthering fair housing. Through past FHAP Partnership projects, the HRC has quantitatively and qualitatively assessed the greatest challenge to protected classes exercising their rights under the fair housing law was lack of trusting relationships that make residents feel safe to report instances of crime and discrimination. The interventions proposed include community engagement activities to build relationships and empower communities to assist in reducing racially and ethnically concentrated areas of poverty and provide outcomes that benefit both the residents and the community by reducing opportunities for heightened levels of crime and environmental health.

The Bidder/Proposer's documentation of Good Faith Efforts to meet the participation goal(s) checked above must be submitted to the HRC within two (2) business days of the Bid Opening / Proposal Due Date. The Bidder/Proposer will receive no further reminders about this deadline.

A waiver will be granted based on a Bidder/Proposer's documented Good Faith Efforts, and only when the HRC determines that the Bidder/Proposer has completed all of the following activities:

1. Solicited the interest of all PEP-Certified Firms having the capability to perform the work of the contract. The Bidder/Proposer must solicit this interest at least ten (10) business days before the Bid Opening / Proposal Due Date in order to allow the PEP-Certified Firm sufficient time to respond to the solicitation. Electronic communication will not be deemed as sufficient Good Faith Efforts, if it is the sole method of communication used.
2. Divided contract work items into economically feasible units to facilitate PEP participation, even when the Bidder/Proposer might otherwise prefer to perform these work items with its own forces.
3. Negotiated in good faith with PEP-Certified Firms, and considered the firms' prices and capabilities as well as the contract goals. Rejected PEP-Certified Firms as being unqualified only for reasons based on a diligent investigation of their capabilities. The Bidder/Proposer's standing within its industry; membership in specific groups, organizations, or associations; and political or social affiliations (for example, union vs. non-union employee status) are not legitimate causes to reject or not solicit bids from particular PEP-Certified Firms.
4. Provided interested PEP-Certified Firms with plans and specifications at no cost, or directed them to the Greater Dayton Minority Business Assistance Center (Dayton MBAC) for information about the project's plans, specifications, and requirements at least ten (10) business days prior to the Bid Opening / Proposal Due Date in order to assist them in responding to a solicitation.
5. Sought the Dayton MBAC's assistance or used the services of community organizations; contractors' groups; local, state or federal business assistance offices; or similar organizations to find PEP-Certified Firms. Contacting the HRC for a list of certified companies will not be deemed as sufficient Good Faith Efforts.

NOTE: In determining whether a Bidder/Proposer has made Good Faith Efforts, the HRC may take into account the performance of other Bidders/Proposers in meeting the goal(s). For example, when the apparent low bidder fails to meet a participation goal but others meet it, the HRC may reasonably raise the question of whether, with additional reasonable efforts, the apparent low bidder could have met the goal.

7. **CONTRIBUTIONS AND DIVISION OF PROFITS**

Separate capital accounts shall be maintained for each Joint Venturer and shall consist of the sum of its contributions to the capital of the Joint Venture plus its share of the profits of the Joint Venture, less its share of any losses of the Joint Venture, and less any distributions made by or attributed to it from the Joint Venture.

8. **INDEMNITY AGREEMENTS; SURETY BONDS**
Each of the parties agrees to execute all applications and indemnity agreements required by the sureties on any bond or bonds required in connection with the bid and Construction Contract. All financial obligations assumed by the parties, or any of them, in connection with the performance of the Construction Contract, all liabilities assumed by or charged to them, or any of them, as contractors, guarantors, or indemnitors, in connection with any surety bond or other bonds which may be given or executed in connection with the Construction Contract, and all other obligations and liabilities of any kind or character which are assumed
or undertaken by the parties, or any of them, in connection with and for the benefit of the performance of the Construction Contract shall be shared by the parties proportionately and in accordance with their respective interest as set forth in Article (7).

9. CONTRIBUTION OF WORKING CAPITAL
   All necessary working capital when and as required for the performance and prosecution of the Construction Contract shall be furnished by the parties proportionately in accordance with their respective interests as set forth in Article (7).

10. ADDITIONAL CAPITAL
    Subject to the consent of the joint venturers, additional capital needed by the joint venture to meet its operating needs from time to time during the term of the joint venture shall be obtained from loans to the joint venture or, if such loans are not available, from additional capital contributions from the joint ventures, which shall be made by the parties proportionately in accordance with their respective interests as set forth in Article (7) or as the Joint Venturers may mutually agree upon.

11. WithDRAWAL OF CAPITAL
    Capital contributed to the joint venture by a joint venturer may not be withdrawn without the consent of the joint venturers.

12. INTEREST ON CAPITAL
    No interest shall be paid on any capital contributed to the Joint Venture by a Joint Venturer.

13. BORROWING MONEY; LOAN TO JOINT VENTURE
    Neither Joint Venturer shall have the right to borrow money on behalf of the other Joint Venturer or to use the credit of the other Joint Venturer for any purpose. All loans to the Joint Venture shall be approved by the Joint Venturer.

The Joint Venturers shall arrange for or provide any financing as may be required by the Joint Venture for carrying out the purposes of the Joint Venture.

   a) The terms and conditions of all such loans shall be subject to prior approval of the Joint Venturers. The Joint Venturers shall endorse, assume, or guarantee such obligations of the Joint Venture as the Joint Venturers may mutually agree upon.

   b) A loan by a Joint Venturer (or an affiliate of a Joint Venturer) to the Joint Venture shall not be regarded as an increase in such Joint Venturer's capital nor entitle such Joint Venturer to any increase of the profits or losses of the Joint Venture.

14. AUTHORIZED REPRESENTATIVES
    To facilitate the handling of all matters and questions in connection with the performance of the Construction Contract, each of the Joint Venturers appoints the following representatives to act for it in all such matters, with full and complete authority to act on its behalf in relation
to any matters or things in connection with, arising out of, or relative to the Joint Venture and in relation to any matters or things involving the performance of the Construction Contract.

a) Authorized Representatives of CARDINAL:
   Chandra Blackwell

b) Authorized Representative of SATURN:
   Doug Kash

Either Joint Venturer may at any time and from time to time change its representative by filing with the other a notice and duly executed appointment of a new representative or alternate, but until the appointment and filing of such notice the actions of the representative or alternate hereby appointed shall be conclusively binding on such Joint Venturer.

15. MANAGEMENT OF JOINT VENTURE
The representatives of the Joint Venturers shall meet from time to time as required to act on necessary matters pertaining to the Construction Contract. All decisions, commitments, agreements, undertakings, understandings, or other matters pertaining to the performance of the Construction Contract shall be mutually agreed upon by such representatives. No representative shall be liable to the Joint Venturers by reason of his acts as such, except in the case of its gross negligence or actual fraudulent or dishonest conduct. In the event the representatives cannot agree on a matter of Joint Venture policy, the matter shall be submitted to informal, but binding, arbitration to a mutually acceptable third party. If the Joint Venturers cannot agree on an arbitrator, then the matter shall be resolved by binding commercial arbitration as provided in Article (40) below.

16. COST OF CONSTRUCTION
Cost of construction shall consist of the costs of all subcontracts, labor, material, plant, and equipment purchased or rented, bonds, insurance, taxes on labor and material, imports, charges, legal fees, liabilities not secured by insurance, and all other expenses and obligations incurred or suffered in and about the performance of the Construction Contract of a nature which under sound accounting practices would be properly charged as a cost of the performance of the Construction Contract. Such costs shall not include any charges against the Joint Venture for any overhead expenses or charges of the main or branch offices of the Joint Venturers or for the time which may be expended in connection with the work by any of the Joint Venturers or their officers or employees, except as may be approved by the Joint Venturers and except as provided for by this agreement. Equipment rented from either of the Joint Venturers shall be charged as a construction cost at a rate mutually agreed on by the representatives of the parties.

17. RECORDS
a) Separate books of account for the performance of the Construction Contract and all matters pertaining thereto shall be kept and maintained at the main office of the Joint Venture. All records of the Joint Venture shall be open for inspection of either Joint Venturer at all reasonable times.
b) A periodic audit of such books shall be made by an independent firm of accountants or by such individuals as may be mutually agreed upon by the Joint Venturers, and a like audit shall be made upon completion of the Construction Contract. With respect to the periodic audits there shall be included, if requested by the Joint Venturers, a periodic comparison between the items of cost and the items set up in the estimate of cost. The cost of any such audits shall be a part of the cost of construction.

c) Upon the completion of the Construction Contract a true and correct accounting shall be had of all costs and expenses and all accounts, vouchers, and other data relating to the Construction Contract and its performance.

d) To the extent that the records of the Joint Venture must be kept subsequent to the completion of the Construction Contract, pursuant to the provisions of law, the same shall be kept at such place or places as the Joint Venturers may from time to time determine, and the cost thereof shall be borne equally by the Joint Venturers.

18. PROFITS
Upon the completion of the Construction Contract, after providing for and paying (a) all costs disbursed or incurred in the performance of the Construction Contract; (b) all other costs and charges ordinarily and usually charged as costs in the performance of such a contract; (c) any and all claims not secured by insurance; (d) proper reserves for any claims which shall have either been brought against the Joint Venturers or which the Joint Venturers may reasonably anticipate will be brought against them; and (e) reserves for contingencies, if any, that shall be determined by the Joint Venturers in their discretion to be necessary, and after repaying all sums advanced by the Joint Venturers for working capital, any profits thereafter remaining, resulting from the performance of the Construction Contract, shall be distributed and shared by the parties proportionately and in accordance with their respective interest as set forth in Article (7). Any reserves, when no longer required, or so much thereof as shall remain, shall be similarly distributed.

19. LOSSES
If the performance of the Construction Contract results in a loss, the Joint Venturers shall be obligated proportionately, and in accordance with their respective interest as set forth in Article (7), for any such loss. Such proportionate liability of the Joint Venturers for the bearing of losses shall continue with respect to any claims which at any time, either before or after the completion of the Construction Contract, shall be made against them or either of them by reason of this Joint Venture or any matter or thing in connection therewith.

20. METHOD OF ACCOUNTING
The books of account of the Joint Venture shall be kept in accordance with generally accepted accounting principles which shall be applied on a consistent basis.

21. ACCOUNTING YEAR
The accounting year of the Joint Venture shall end on the 31st day of October of each year.

22. TAX RETURNS
The Joint Venture shall prepare and file all required income tax returns for the Joint Venture on a timely basis. SATURN shall be the "Partnership Representative".

23. BANK ACCOUNTS
All funds of the Joint Venture shall be deposited in accounts in the name of the Joint Venture at such bank or banks as may be selected by the Joint Venturers. All withdrawals therefrom or drafts written thereon in excess of $5,000.00 shall be signed by a signatory/representative of each of the Joint Venturers. The aggregate monthly withdrawals or drafts by anyone of Joint Venturers, shall not exceed $10,000.00.

24. TIME/EFFORTS DEVOTED TO JOINT VENTURE
In general, each Joint Venturer shall cooperate in whatever manner is reasonably necessary to carry out the purposes of the Joint Venture, including, but not limited, to making joint applications (with the other Joint Venturer) for and obtaining construction related bonds. Neither of the Joint Venturers shall be required to spend any fixed amount of time in Joint Venture business, and each of the Joint Venturers may engage in any other outside business or activity of any type, including, but not limited to, the business regularly conducted by it apart from this Joint Venture; provided, however, that each of the Joint Venturers shall spend a sufficient amount of time to adequately perform such Joint Venturer's respective duties and obligations under this Agreement.

Neither of the Joint Venturers shall have the duty to disclose to the other Joint Venturer or the Joint Venture any business opportunities of which it becomes aware, and either Joint Venturer may take such opportunities for itself without being in breach of its duties or obligations hereunder.

25. SALARIES
Salaries shall be paid to the Joint Venture representatives as agreed between the Joint Venturers from time to time.

26. PAYMENT OF JOINT VENTURE EXPENSES
The Joint Venture shall pay all reasonable and necessary expenses of the Joint Venture, including, but not limited to, reasonable rent for tools, machinery, personnel, etc., provided by one of the Joint Venturers to the Joint Venture, as agreed by the Joint Venturers in advance. In addition, the Joint Venture shall reimburse each Joint Venturer for other reasonable and necessary expenses incurred by it in the ordinary and proper conduct of the Joint Venture business and/or for the preservation of the Joint Venture business or property.

27. DRAW
Neither Joint Venturer shall be entitled to withdraw funds of the Joint Venture for its own use, without the consent of the other Joint Venturer.

28. PROHIBITED ACTS
Neither Joint Venturer shall take any action in the name of the Joint Venture except in the ordinary course of the Joint Venture business, without the consent of the other Joint Venturer.
29. LIMITATION OF JOINT VENTURE
It is specifically understood and agreed between the parties that this Joint Venture agreement extends only to the performance of the Construction Contract, together with any changes or additions to this agreement or extra work under it, and in no event shall this agreement extend to or cover any different work. The term "Construction Contract" as used in this agreement is intended to and shall include the changes, additions, or extra work in this agreement mentioned.

30. LEASING OF MACHINERY AND EQUIPMENT
The parties shall lease to the joint venture, and the Joint Venture shall lease from the parties, for the terms respectively commencing when the Joint Venture shall require them for use in performing the Construction Contract without delay and continuing subsequently whenever and for as long as the same shall be required in such performance, such machinery and equipment as the parties may have available for use on the project, at and for the unit rental rates mutually agreed on by the representatives of the parties. Schedules of the mutually agreed rental rates shall be signed by each Venturer and attached to this agreement. The sponsoring Joint Venturer will consult with the other Venturers before committing the Joint Venture to a purchase agreement or lease with option agreement for the acquisition or leasing of major equipment items, such as: truck cranes, side boom cats, trucks, welding machines, compressors, tractors and loaders.

31. PURCHASE OF EQUIPMENT ON COMPLETION
On completion of the Construction Contract, the parties will secure a bona fide bid for each item or group of items of equipment purchased by the Joint Venture, or held by it under a lease with option agreement, from one or more reputable equipment dealers. Each of the parties shall have the right to purchase any item or group of items, at the highest price bid for such item or items, by such dealers, provided that no party shall be entitled to purchase a greater percentage of the equipment than the percentage of its interest in the Joint Venture. If more than one party shall desire to purchase the same items or items of equipment, at a price or prices so determined, and mutually satisfactory adjustment is not effected by agreement between or among them, then such item or items of equipment, in like manner as items not desired by the parties, shall be disposed of by sale, for the best price obtainable, to outsiders. All hand tools will be purchased for the Construction Contract from suppliers or from members of the Joint Venture, provided their prices are considered equitable by the Joint Venture participants. At the completion of the Construction Contract the tools shall be divided by value according to each Joint Venturer's participation.

32. BANKRUPTCY OR DISSOLUTION OF PARTY
In the event of the bankruptcy or dissolution of any of the parties, this Joint Venture shall immediately cease and terminate on its occurrence. Then, the successors, receivers, trustees, or other legal representatives, in this agreement called "representatives" of any party so affected shall cease to have any interest in the performance of the Construction Contract and shall cease to have any interest in and to the Joint Venture or its assets. In any such case the remaining party shall have the right to wind up the affairs of the joint venture and to carry out and complete the performance of the Construction Contract. On such completion or sooner
termination and receipt of payment of all amounts due under the Construction Contract, the remaining Joint Venturer shall account to the representatives of the party or parties so affected and such representative shall then be entitled to receive from the remaining Joint Venturer an amount equal to the sums advanced by the party represented, plus such party's proportionate share of the profits, or less such party's proportionate share of the losses resulting from the performance of the Construction Contract to the date of the termination of the Joint Venture. Provided, however, that the profit or loss computed as of the day of the termination shall be in the same proportion to the whole profit or loss resulting from the performance of the Construction Contract as the amount of work done under it at such time bears to all of the work which is done under it. In the event the share of the losses chargeable to the parties so represented exceeds the sum advanced by such party, the representative shall promptly pay to the remaining Joint Venturer any such excess. The books of the Joint Venture shall be conclusive in establishing whether a profit has been realized or a loss sustained, the amount, and the proportionate amount of work done as of any given time or date.

33. ASSIGNMENTS AND TRANSFERS
Neither this agreement nor the interest of the parties or any of them in this agreement, including its respective interest in any moneys belonging to or which may accrue to the Joint Venture in connection with the Construction Contract, may be assigned, pledged, transferred or hypothecated, except that in the event a party desires to obtain banking accommodations, such party may assign, pledge, or hypothecate to the lending institution as security for such banking accommodation, its interest in the moneys to be received by such party under this agreement when distributed to it in accordance with its terms, if the other parties to this agreement give their written consent to it in advance.

34. NO LIABILITY TO THIRD PARTIES
The debts, obligations and liabilities of either Joint Venturer, whether arising in contract, tort or otherwise, shall be solely the debts, obligations and liabilities of such Joint Venturer, and no other Party shall be obligated for any such debt, obligation or liability of such Joint Venturer solely by reason of being a party to this Agreement or an equity holder of a Joint Venture Company.

35. ADJUSTMENT OF ACCOUNTS
On completion of the performance of the Construction Contract, the parties shall render a true and correct account, each to the others, of all expenses incurred on account of and all moneys received as result of, such performance. The parties mutually agree, on completion of the performance of the Construction Contract, to settle and adjust all accounts in connection with the performance of the Construction Contract, and to pay, each to the others, such sums as well result in reach of the parties receiving that portion of all profits arising from the performance of the Construction Contract, or bearing that proportion of all losses arising from it in accordance with Articles (7), and (32).

36. TRUST FUNDS
All moneys contributed by the Joint Venturers to this Joint Venture and all moneys received as payments under the Construction Contract or otherwise received shall be treated and
regarded as, and are hereby declared to be, trust funds for the performance of the
Construction Contract and for no other purpose until the Construction Contract shall have
been fully completed and accepted by owner and until all obligations of the Joint Venturers
hereto shall have been paid, otherwise discharged, or provided for adequate reserves such
reserves shall likewise be treated as trust funds until they shall have served the purposes for
which they were created. Proper fidelity bond coverage shall be maintained on all persons
who are directly connected with performance of the Construction Contract, and the cost of
such fidelity bond premiums shall be part of the construction cost.

37. DISSOLUTION OF JOINT VENTURE
Upon dissolution of the Joint Venture, except as otherwise provided herein, the operation of
the Joint Venture's business shall be confined to those activities necessary to wind up the
Joint Venture's affairs, discharge its obligations, and preserve and distribute its assets. Any
gains or losses of the Joint Venture arising out of the liquidation of the Joint Venture's assets
shall be allocated, and the cash and other property of the Joint Venture remaining after
satisfaction of Joint Venture obligations shall be distributed, to the Joint Venturers in
accordance with the provisions of Article (7) above.

38. BINDING EFFECT
Except as otherwise provided in this agreement, this agreement shall inure to the benefit of,
and be binding on the parties, their successors, trustees, assigns, receivers and legal
representatives, but shall not inure to the benefit of any other person, firm, or corporation.

39. GOVERNING LAW
All questions relative to the execution, validity, interpretation, and performance of this
agreement shall be governed by the laws of the State of Ohio.

40. DISPUTE RESOLUTION
If a dispute arises that cannot be resolved through direct discussions, Joint Venturers shall
participate in mediation before recourse to any other form of binding dispute resolution. The
location of the mediation shall be Montgomery County, Ohio. The Joint Venturers will
resolve the dispute using the below Alternative Dispute Resolution (ADR) procedure.

Any controversies or disputes arising out of or relating to this Agreement will be submitted
to mediation in accordance with any statutory rules of mediation. If mediation is not
successful in resolving the entire dispute or is unavailable, any outstanding issues will be
submitted to binding arbitration under the rules of the American Arbitration Association. The
arbitrator's award will be final, and judgment may be entered upon it by any court having
proper jurisdiction.

41. WAIVER
Failure on the part of either Joint Venturer to complain of any act of the other Joint Venturer
or to declare the other Joint Venturer in default, irrespective of how long such failure
continues, shall not constitute a waiver by such Joint Venturer of its rights hereunder. No
waiver of, or consent to, any breach or default shall be deemed or construed to be a waiver
of, or consent to, any future breach or default.
42. ATTORNEY’S FEES
Should any litigation or arbitration be commenced between the parties concerning any provision of this Agreement, the party prevailing in such litigation shall be granted, to recover their costs and reasonable attorney's fees incurred in such litigation.

43. NOTICE
Any notices to be given under this Agreement by either party to the other may be effected either by personal delivery in writing or by mail, registered or certified, postage prepaid with return receipt requested. Mailed notices must be addressed to the addresses of the parties as they appear in the introductory paragraph of this Agreement. Each party may change its address by written notice in accordance with this paragraph. Notices delivered personally will be deemed communicated as of actual receipt; mailed notices will be deemed communicated as of 15 calendar days after mailing.

44. SEVERIBILITY
If any provision of this Agreement or the application thereof shall be determined by a court of competent jurisdiction to be invalid and unenforceable, the remainder of this Agreement and the application of the other provisions herein contained shall not be affected thereby, and all such other provisions shall remain effective and in force and shall be enforced to the fullest extent permitted by law.

45. ENTIRE AGREEMENT
This agreement contains the sole and only agreement of the parties hereto relating to the Joint Venture. Any prior agreement, promises, negotiations or representations not expressly set forth in this Agreement are of no force and effect.

46. AMENDMENTS
This Agreement may be amended by the Parties hereto at any time prior; provided, however, that any amendment must be by an instrument or instruments in writing signed and delivered on behalf of each of the Parties hereto.

IN WITNESS WHEREOF, the undersigned have executed this Joint Venture Agreement as of the day and year set forth above.

TITLE
AFFIRMATIVE ACTION PROGRAM
EQUAL EMPLOYMENT OPPORTUNITY

PROJECT: Dayton Safety Building Chiller Replacement 335 W Third St.

During the performance of this contract:

CWM Mechanical Services 5931 Wolf Creek PK 877-859-4022
CONTRACTOR ADDRESS TELEPHONE / FAX

being the general contractor, assumes the responsibility and obligation to institute an Affirmative Action Program which complies with revised City Ordinances 24059 and 26090 and Executive Order 11246 on any city, federal or federally-assisted construction project, to insure Equal Employment Opportunity regardless of race, color, religion, sex, national origin, ancestry, place of birth, age, or marital status.

The successful contractor using one or more trades of construction employees must comply with Part I of these Affirmative Actions Program conditions to each such trade.

Part I: Requirements. To be eligible for award of a contract under this Invitation to Bid, contractors must certify as prescribed in Paragraph 1a, of the certification specified in Part II hereto that it adopts the minimum goals and timetables of minority and female worker utilization, and specific Affirmative Action steps set forth in Sections 1 and 2 of this Part I.

1.) Goals & Timetables. The goals of minority and female worker utilization required of the contractor are applicable to each trade which will be used on any project in Greene, Miami, Montgomery, and Preble Counties, OH (hereinafter the Economic Area).

The required goals and timetables are as follows:

<table>
<thead>
<tr>
<th>Goals of Minority Worker Utilization Expressed in Percentage Terms</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>From 1/1/2000 to Present</td>
<td>11.5%</td>
</tr>
<tr>
<td>Goals of Female Worker Utilization Expressed in Percentage Terms</td>
<td></td>
</tr>
<tr>
<td>From 4/1/80 to Present</td>
<td>6.9%</td>
</tr>
</tbody>
</table>
The percentage goals of minority and female worker utilization are expressed in terms of working hours of training and employment as a proportion of the total working hours to be worked by the contractor's entire work force in that trade on all projects (both federal and non-federal) in the Economic Area during the performance of this contract. The working hours for minority and female work and training must be uniform throughout the length of this contract, on all projects and for each of the trades. Further, the transfer of minority and/or female or trainee from employer-to-employer or from project-to-project for the sole purpose of meeting the contractor's goals shall be a violation of this Affirmative Action Program.

In reaching the goals for minority and female utilization, every effort shall be made to find and employ qualified journey-persons. Provided, however, and pursuant to the requirements of the Department of Labor Regulations, 29 CFR 5a.3, twenty-five percent (25%) of apprentices or trainees shall be employed on all projects and shall be in their first year of training, where feasible.

In order for the nonworking training hours of apprentices and trainees to be counted in meeting the goals, such apprentices and trainees must be employed by the contractor during the training period, and the contractor must have made a commitment to employ the apprentices and/or trainees at the completion of the training subject to the availability of employment opportunities. Apprentices and trainees must be trained pursuant to programs which have been approved by The U.S. Department of Labor and/or The State of Ohio.

A contractor shall be deemed to be in compliance with the terms and requirements of this Part I by the employment and training of minorities and females in the appropriate percentage of the contractor's aggregate work force in the Economic Area for each trade for which it is committed to the goals under Part I.

However, no contractor shall be found to be in noncompliance solely on account of the contractor's failure to meet the goals and timetables, but such contractor shall be given the opportunity to demonstrate that all of the specific Affirmative Action steps specified in Part I have been instituted and has made every "good faith" effort to make these steps work towards the attainment of the goals and timetables.

2.) **Specific Affirmative Action Steps.** A contractor subject to Part I, must engage in Affirmative Action directed at increasing minority and female utilization, which is at least as extensive and as specific as the following steps:

a) The contractor shall notify community organizations that the contractor has employment opportunities available and shall maintain records of the organizations' responses.

b) The contractor shall maintain a file of the names and addresses of each minority and female referred and what action was taken with respect to each referred worker. If the worker was not employed, the reason therefor. If the worker was not sent to the union hiring hall for referral, the contractor's file shall document this and the reasons therefore.

c) The contractor shall promptly notify the Dayton Human Relations Council (HRC) when the union or unions with which the contractor has a collective bargaining agreement has not referred to the contractor a minority and/or female, or when the contractor has other information that the union referral process has impeded the contractor's efforts to meet its obligations.

d) The contractor should participate in training programs in the area; especially those approved by the U.S. Department of Labor and/or the State of Ohio.
e) The contractor shall disseminate the EEO Policy within the organization by including it in any policy manual, by publicizing it in company newspapers, annual reports, etc.; by conducting staff, employee and union representatives' meetings to explain and discuss the policy; by posting of the policy; and by specific review of the policy with minority and female employees.

f) The contractor shall ensure and maintain a working environment free of harassment, intimidation, and coercion at all sites and in all facilities at which the contractor's employees are assigned to work. The contractor, where possible, will assign two or more women to all projects (both federal and non-federal) in the Economic Area during the performance of its contract or subcontract.

g) The contractor shall make specific and constant personal (both written and oral) recruitment efforts directed at all minority and female organizations, schools, minority and female recruitment training organizations with the Dayton Economic Area.

h) The contractor shall make specific efforts to encourage present minority and female employees to recruit other minorities and females.

i) The contractor shall validate all tests and other selection requirements.

j) The contractor should develop on-the-job training opportunities; participate and assist in any association or employer-group training programs relevant to the contractor's employees needs consistent with its obligations under Part I.

k) The contractor shall evaluate all minority and female personnel for promotional opportunities and encourage employees to seek such opportunities.

l) The contractor shall ensure that seniority practices, job classifications, etc., do not have a discriminatory effect.

m) The contractor shall make certain that all facilities and company activities are nonsegregated except that separate or single-user toilet and necessary changing facilities shall be provided to assure privacy between the sexes.

n) The contractor will monitor all personnel activities to ensure that its EEO Policy is being carried out.

o) The successful contractor shall solicit bids for work to be performed on this project under a subcontract from minority and female contractors and other business associations.

3.) Nothing herein is intended to relieve any contractor during the term of this project from compliance with any other local bid requirements. Further, it shall be the responsibility of each contractor to comply with all terms, conditions, and provisions of the Affirmative Action Programs.
Part II: Contractor's Certification. A contractor will not be eligible for award of a contract under this Invitation to Bid, unless such contractor has submitted as a part of the bid the following certification, which will be deemed a part of the resulting contract:

CONTRACTOR'S CERTIFICATION

__________________________ (Contractor) certifies that:

1. The following listed construction trades will be used in performance of this project.

   Electrical
   HVAC
   Plumbing

a) as to those trades set forth in the preceding paragraph one hereof, it adopts the minimum minority and female utilization goals and the specific Affirmative Action steps contained in this Affirmative Action Program. Compliance is measured in each trade of the contractor's aggregate work force for all construction work (both federal and non-federal) in the four Counties (Greene, Miami, Montgomery and Preble) subject to this Affirmative Action Program; and

b) the successful contractor will obtain from each subcontractor and submit to the contracting or administering agency prior to the award of any subcontract under this contract, the subcontractor certification required by the Affirmative Action Program.

participation on this contract, as detailed on the executed PEP-Certified SBE/MBE/WBE/DLSB Participation Form(s) submitted with this Bid/Proposal.

☐ Option 2 (WAIVER REQUEST). The Bidder/Proposer is unable to meet the project’s PEP participation goal(s) and requests that the following goal(s) be waived: (Check all that apply.)

☐ SBE  ☐ MBE  ☐ WBE  ☐ DLSB

The Bidder/Proposer’s documentation of Good Faith Efforts to meet the participation goal(s) checked above must be submitted to the HRC within two (2) business days of the Bid Opening / Proposal Due Date. The Bidder/Proposer will receive no further reminders about this deadline.

A waiver will be granted based on a Bidder/Proposer’s documented Good Faith Efforts, and only when the HRC determines that the Bidder/Proposer has completed all of the following activities:

1. Solicited the interest of all PEP-Certified Firms having the capability to perform the work of the contract. The Bidder/Proposer must solicit this interest at least ten (10) business days before the Bid Opening / Proposal Due Date in order to allow the PEP-Certified Firm sufficient time to respond to the solicitation. Electronic communication will not be deemed as sufficient Good Faith Efforts, if it is the sole method of communication used.

2. Divided contract work items into economically feasible units to facilitate PEP participation, even when the Bidder/Proposer might otherwise prefer to perform these work items with its own forces.

3. Negotiated in good faith with PEP-Certified Firms, and considered the firms’ prices and capabilities as well as the contract goals. Rejected PEP-Certified Firms as being unqualified only for reasons based on a diligent investigation of their capabilities. The Bidder/Proposer’s standing within its industry; membership in specific groups, organizations, or associations; and political or social affiliations (for example, union vs. non-union employee status) are not legitimate causes to reject or not solicit bids from particular PEP-Certified Firms.

4. Provided interested PEP-Certified Firms with plans and specifications at no cost, or directed them to the Greater Dayton Minority Business Assistance Center (Dayton MBAC) for information about the project’s plans, specifications, and requirements at least ten (10) business days prior to the Bid Opening / Proposal Due Date in order to assist them in responding to a solicitation.

5. Sought the Dayton MBAC’s assistance or used the services of community organizations; contractors’ groups; local, state or federal business assistance offices; or similar organizations to find PEP-Certified Firms. Contacting the HRC for a list of certified companies will not be deemed as sufficient Good Faith Efforts.

NOTE: In determining whether a Bidder/Proposer has made Good Faith Efforts, the HRC may take into account the performance of other Bidders/Proposers in meeting the goal(s). For example, when the apparent low bidder fails to meet a participation goal but others meet it, the HRC may reasonably raise the question of whether, with additional reasonable efforts, the apparent low bidder could have met the goal.

CONTRACTOR  ADDRESS  TELEPHONE / FAX

being the general contractor, assumes the responsibility and obligation to institute an Affirmative Action Program which complies with revised City Ordinances 24059 and 26090 and Executive Order 11246 on any city, federal or federally-assisted construction project, to insure Equal Employment Opportunity regardless of race, color, religion, sex, national origin, ancestry, place of birth, age, or marital status.

The successful contractor using one or more trades of construction employees must comply with Part I of these Affirmative Actions Program conditions to each such trade.

Part I: Requirements. To be eligible for award of a contract under this Invitation to Bid, contractors must certify as prescribed in Paragraph 1a, of the certification specified in Part II hereof that it adopts the minimum goals and timetables of minority and female worker utilization, and specific Affirmative Action steps set forth in Sections 1 and 2 of this Part I.

1.) Goals & Timetables. The goals of minority and female worker utilization required of the contractor are applicable to each trade which will be used on any project in Greene, Miami, Montgomery, and Preble Counties, OH (hereinafter the Economic Area).

The required goals and timetables are as follows:

<table>
<thead>
<tr>
<th>From 1/1/2000 to Present</th>
<th>11.5%</th>
</tr>
</thead>
</table>

Goals of Minority Worker Utilization Expressed in Percentage Terms

<table>
<thead>
<tr>
<th>From 4/1/80 to Present</th>
<th>6.9%</th>
</tr>
</thead>
</table>

Goals of Female Worker Utilization Expressed in Percentage Terms
The percentage goals of minority and female worker utilization are expressed in terms of working hours of training and employment as a proportion of the total working hours to be worked by the contractor's entire work force in that trade on all projects (both federal and non-federal) in the Economic Area during the performance of this contract. The working hours for minority and female work and training must be uniform throughout the length of this contract, on all projects and for each of the trades. Further, the transfer of minority and/or female or trainee from employer-to-employer or from project-to-project for the sole purpose of meeting the contractor's goals shall be a violation of this Affirmative Action Program.

In reaching the goals for minority and female utilization, every effort shall be made to find and employ qualified journey-persons. Provided, however, and pursuant to the requirements of the Department of Labor Regulations, 29 CFR 5a.3, twenty-five percent (25%) of apprentices or trainees shall be employed on all projects and shall be in their first year of training, where feasible.

In order for the nonworking training hours of apprentices and trainees to be counted in meeting the goals, such apprentices and trainees must be employed by the contractor during the training period, and the contractor must have made a commitment to employ the apprentices and/or trainees at the completion of the training subject to the availability of employment opportunities. Apprentices and trainees must be trained pursuant to programs which have been approved by The U.S. Department of Labor and/or The State of Ohio.

A contractor shall be deemed to be in compliance with the terms and requirements of this Part I by the employment and training of minorities and females in the appropriate percentage of the contractor's aggregate work force in the Economic Area for each trade for which it is committed to the goals under Part I.

However, no contractor shall be found to be in noncompliance solely on account of the contractor's failure to meet the goals and timetables, but such contractor shall be given the opportunity to demonstrate that all of the specific Affirmative Action steps specified in Part I have been instituted and has made every "good faith" effort to make these steps work towards the attainment of the goals and timetables.

2.) **Specific Affirmative Action Steps.** A contractor subject to Part I, must engage in Affirmative Action directed at increasing minority and female utilization, which is at least as extensive and as specific as the following steps:

a) The contractor shall notify community organizations that the contractor has employment opportunities available and shall maintain records of the organizations' responses.

b) The contractor shall maintain a file of the names and addresses of each minority and female referred and what action was taken with respect to each referred worker. If the worker was not employed, the reason thereof. If the worker was not sent to the union hiring hall for referral, the contractor's file shall document this and the reasons therefore.

c) The contractor shall promptly notify the Dayton Human Relations Council (HRC) when the union or unions with which the contractor has a collective bargaining agreement has not referred to the contractor a minority and/or female, or when the contractor has other information that the union referral process has impeded the contractor's efforts to meet its obligations.

d) The contractor should participate in training programs in the area; especially those approved by the U.S. Department of Labor and/or the State of Ohio.
e) The contractor shall disseminate the EEO Policy within the organization by including it in any policy manual, by publicizing it in company newspapers, annual reports, etc.; by conducting staff, employee and union representatives' meetings to explain and discuss the policy; by posting of the policy; and by specific review of the policy with minority and female employees.

f) The contractor shall ensure and maintain a working environment free of harassment, intimidation, and coercion at all sites and in all facilities at which the contractor's employees are assigned to work. The contractor, where possible, will assign two or more women to all projects (both federal and non-federal) in the Economic Area during the performance of its contract or subcontract.

g) The contractor shall make specific and constant personal (both written and oral) recruitment efforts directed at all minority and female organizations, schools, minority and female recruitment training organizations with the Dayton Economic Area.

h) The contractor shall make specific efforts to encourage present minority and female employees to recruit other minorities and females.

i) The contractor shall validate all tests and other selection requirements.

j) The contractor should develop on-the-job training opportunities; participate and assist in any association or employer-group training programs relevant to the contractor's employees needs consistent with its obligations under Part I.

k) The contractor shall evaluate all minority and female personnel for promotional opportunities and encourage employees to seek such opportunities.

l) The contractor shall ensure that seniority practices, job classifications, etc., do not have a discriminatory effect.

m) The contractor shall make certain that all facilities and company activities are nonsegregated except that separate or single-user toilet and necessary changing facilities shall be provided to assure privacy between the sexes.

n) The contractor will monitor all personnel activities to ensure that its EEO Policy is being carried out.

o) The successful contractor shall solicit bids for work to be performed on this project under a subcontract from minority and female contractors and other business associations.

3.) Nothing herein is intended to relieve any contractor during the term of this project from compliance with any other local bid requirements. Further, it shall be the responsibility of each contractor to comply with all terms, conditions, and provisions of the Affirmative Action Programs.
Part II: **Contractor's Certification.** A contractor will not be eligible for award of a contract under this Invitation to Bid, unless such contractor has submitted as a part of the bid the following certification, which will be deemed a part of the resulting contract:

**CONTRACTOR'S CERTIFICATION**

a) as to those trades set forth in the preceding paragraph one hereof, it adopts the minimum minority and female utilization goals and the specific Affirmative Action steps contained in this Affirmative Action Program. Compliance is measured in each trade of the contractor's aggregate work force for all construction work (both federal and non-federal) in the four Counties (Greene, Miami, Montgomery and Preble) subject to this Affirmative Action Program; and

b) the successful contractor will obtain from each subcontractor and submit to the contracting or administering agency prior to the award of any subcontract under this contract, the subcontractor certification required by the Affirmative Action Program.

The bidder or offeror must indicate how they intend to comply with 49 USC § 50101 by selecting one on the following certification statements. These statements are mutually exclusive. Bidder must select one or the other (not both) by inserting a checkmark (√) or the letter “X”.

Bidder or offeror hereby certifies that it will comply with 49 USC § 50101 by:

a) Only installing steel and manufactured products produced in the United States, or;
b) Installing manufactured products for which the FAA has issued a waiver as indicated by inclusion on the current FAA Nationwide Buy American Waivers Issued listing, or;
c) Installing products listed as an Excepted Article, Material or Supply in Federal Acquisition Regulation Subpart 25.108.

By selecting this certification statement, the bidder or offeror agrees:

1. To provide to the Owner evidence that documents the source and origin of the steel and manufactured product.
2. To faithfully comply with providing US domestic product
3. To furnish US domestic product for any waiver request that the FAA rejects

The bidder or offeror hereby certifies it cannot comply with the 100% Buy American Preferences of 49 USC § 50101(a) but may qualify for either a Type 3 or Type 4 waiver under 49 USC § 50101(b). By selecting this certification statement, the apparent bidder or offeror with the apparent low bid agrees:

1. To the submit to the Owner within 15 calendar days of the bid opening, a formal waiver request and required documentation that support the type of waiver being requested.
2. That failure to submit the required documentation within the specified timeframe is cause for a non-responsive determination may result in rejection of the proposal.
3. To faithfully comply with providing US domestic products at or above the approved US domestic content percentage as approved by the FAA.
4. To refrain from seeking a waiver request after establishment of the contract, unless extenuating circumstances emerge that the FAA determines justified.

Required Documentation

Type 3 Waiver - The cost of the item components and subcomponents produced in the United States is more that 60% of the cost of all components and subcomponents of the “item”. The required documentation for a type 3 waiver is:

a) Listing of all product components and subcomponents that are not comprised of 100% US domestic content (Excludes products listed on the FAA Nationwide Buy American Waivers Issued listing and products excluded by Federal Acquisition Regulation Subpart 25.108; products of unknown origin must be considered as non-domestic products in their entirety).
b) Cost of non-domestic components and subcomponents, excluding labor costs associated with final assembly at place of manufacture.

c) Percentage of non-domestic component and subcomponent cost as compared to total “item” component and subcomponent costs, excluding labor costs associated with final assembly at place of manufacture.

**Type 4 Waiver** – Total cost of project using US domestic source product exceeds the total project cost using non-domestic product by 25%. The required documentation for a type 4 of waiver is:

a) Detailed cost information for total project using US domestic product

b) Detailed cost information for total project using non-domestic product

WHEREAS, Tate & Lyle has completed construction of its waste water pretreatment facility ("WWT") at its plant to pre-treat its waste and has represented that its contributions to the City’s infrastructure, including the Sewer, after building the WWT will be per the domestic waste characteristics of a City residential customer and will no longer be considered an extra-strength discharge.

WHEREAS, the Second Amendment is set to expire on October 31, 2020, and the Parties would like to extend the Agreement through this Third Amendment through October of 2021 to account for changes in the system as a result of Tate & Lyle’s planned pretreatment facilities and to evaluate pH neutralization for cost controls; and

g. Successful operational control shall be defined as the full operation of the Industrial Pretreatment Facility that results in a minimum of 80% removal of the Aggregate Average COD load each month based on data prepared and supplied by Tate & Lyle on its Pretreatment Performance. Such data shall be provided to the City by the 10th of each month.

B. The City may terminate this Agreement upon giving ten (10) days advance written notice to the other Parties, which shall specify the effective date of termination. Either Cargill or Tate & Lyle may terminate its participation in this Agreement upon giving ten (10) days advance written notice to the other Parties, which shall specify the effective date of termination. SECOND AMENDMENT TO HYDROGEN SULFIDE
CONTROL STUDY AGREEMENT

This Second Amendment to the Hydrogen Sulfide Control Study Agreement (“Agreement”) is entered into this 19th day of July, 2019 between the City of Dayton, Ohio (“City”), Tate & Lyle Ingredients Americas LLC (“Tate & Lyle”) and Cargill, Incorporated (“Cargill”), collectively known herein as the “Parties”.

WHEREAS, On August 8, 2018, the Parties entered into an Agreement to conduct a hydrogen sulfide control study with an expiration date of January 15, 2019; and

WHEREAS, On December 27, 2018, the Parties agreed to the First Amendment to the agreement that extended the hydrogen sulfide control study through July 15, 2019; and

WHEREAS, Tate & Lyle intends to build a waste water pretreatment facility (“WWT”) at its plant to pre-treat its waste and has represented that its contributions to the City’s infrastructure, including the Sewer, after building the WWT will be per the domestic waste characteristics of a City residential customer and will no longer be considered an extra-strength discharge.

WHEREAS, the First Amendment to the hydrogen sulfide control plan agreement is set to expire on July 15, 2019, and the Parties would like to extend the Agreement through this Second Amendment through October of 2020 to account for changes in the system as a result of Tate & Lyle’s planned pretreatment facilities; and

(Rev 4/30/2008)
FIRST AMENDMENT TO HYDROGEN SULFIDE
CONTROL STUDY AGREEMENT

This First Amendment to the Hydrogen Sulfide Control Study Agreement ("Agreement") is entered into this 27th day of November, 2018 between the City of Dayton, Ohio ("City"), Tate & Lyle Ingredients Americas LLC., ("Tate & Lyle") and Cargill, Incorporated ("Cargill"), collectively known herein as the "Parties".

WHEREAS, On August 8, 2018, the Parties entered into an Agreement to conduct a hydrogen sulfide control study; and

WHEREAS, The Agreement is set to expire on January 15, 2019, and the Parties would like to extend the Agreement for an additional six (6) months to form conclusions on the outcome of the study; and

WHEREAS, While the Report on the conclusions of the Hydrogen Sulfide Control Study is due to the Director of the Department of Water by February 2019, if such conclusions are deemed successful or partially successful then an Agreement extension would allow all parties to continue evaluating other alternatives to supplement the original conclusions and to better evaluate the most cost effective alternatives in anticipation of permanent improvements; and

WHEREAS, Tate & Lyle intends to build a waste water pretreatment facility ("WWT") at its plant to pre-treat its waste and has represented that its contributions to the City’s infrastructure, including the Sewer, after building the WWT will be per the domestic waste characteristics of a City residential customer and will no longer be considered an extra-strength discharge. Tate & Lyle is providing formal notice, that upon commissioning of the WWT, it will no longer participate in this Agreement to address the control of hydrogen sulfide nor to contribute to any costs associated therewith, regardless of whether the plan is in the First Period, Second Period or other term.

NOW, THEREFORE, in consideration of the mutual promises and covenants, and the benefits to be derived by each party, the Parties agree to amend the Agreement as follows:

1. Article III, Term and Termination shall be deleted and replaced with the following:

A. This Agreement shall commence on August 8, 2018 and expire on July 15, 2019, unless extended by mutual written agreement between the Parties or earlier terminated as provided herein. The term shall be broken up into two distinct time periods. The first time period shall be from August 8, 2018 until January 15, 2019 ("First Period"). The second time period shall be from January 15, 2019 until and including July 15, 2019 ("Second Period").
B. The City may terminate this Agreement upon giving ten (10) days advance written notice to the other Parties, which shall specify the effective date of termination. Either Cargill or Tate & Lyle may terminate its participation in this Agreement upon giving ten (10) days advance written notice to the other Parties, which shall specify the effective date of termination. If either Cargill or Tate & Lyle terminates its participation in the Agreement, the other two Parties may at their option decide to continue their participation in the Agreement. Upon termination, Cargill and Tate & Lyle shall be required to pay their respective portion of the costs as described above for the First Period and as described below for the Second Period, to the extent they are incurred up to the date of Termination.

2. Article VI, Payment of Costs During the Second Period of the Agreement, is hereby added to the Agreement as follows:

During the Second Period of the Agreement, the Parties agree to pay their Pro-Rata share of costs incurred, as described in Article I, above. The total amount spent during the Second Period of the Agreement shall not exceed Seven Hundred Thousand Dollars and Zero Cents ($700,000.00). The City’s share of the costs incurred during the Second Period shall not exceed One Hundred Twenty Thousand Dollars and Zero Cents ($120,000.00). Cargill’s share of the costs incurred during the Second Period shall not exceed Three Hundred Forty-Eight Thousand Dollars and Zero Cents ($348,000.00). Tate & Lyle’s share of the costs incurred during the Second Period shall not exceed Two Hundred Thirty-Two Thousand Dollars and Zero Cents ($232,000.00). These amounts shall be in addition to the not to exceed amounts described in Article I, above.

3. During the Parties’ technical meetings or at other times, and without further amending this Agreement, the Parties may agree to extend or modify the design or schedule for any of the trials set forth in this Agreement, engage in additional trials, and modify or set new sampling and monitoring requirements for any trial.

4. Article VII, Implementation of Solution, is hereby added to the Agreement as follows:

During the term of the Agreement, the Parties will work together in good faith to determine whether one solution or some combination of the solutions tested under this Agreement are effective for hydrogen sulfide control and to determine whether the solution(s) should be permanently implemented. The Parties agree that they will evaluate the WWT as a potential solution that may be implemented at Tate & Lyle’s direction.

5. Except as amended hereby, all other terms and conditions of the Agreement shall remain unchanged and in full force and effect. This First Amendment may be executed in one or more counterparts, all of which taken together will constitute one
instrument. Capitalized terms used herein shall carry the same definition as ascribed to them under the Agreement.

IN WITNESS WHEREOF, The City, Tate & Lyle and Cargill, each by a duly authorized representative, have executed this First Amendment on the date first set above.

HYDROGEN SULFIDE CONTROL STUDY AND REIMBURSEMENT AGREEMENT
SUPEROXENATION AND REIMBURSEMENT LEASE AGREEMENT

The Department of Water requests permission to enter into a Service Agreement with Cargill, Inc., and Tate & Lyle Ingredients Americas, LLC to conduct a Hydrogen Sulfide Control Study. As a part of this Agreement, it is necessary to obtain a Lease Agreement with Eco Oxygen Technologies, LLC (ECO2). Over the past six months, the Department of Water has been negotiating with Cargill, Inc. and Tate & Lyle on the planned Hydrogen Sulfide Control Plan. This plan is a six month trial on several odor control techniques to control hydrogen sulfide gases formed. Purchase orders have been put in place to cover expenses in the amount of $823,542.53. Reimbursement from Cargill will be $423,368.82 and reimbursement from Tate and Lyle will be $308,438.31.

The Hydrogen Sulfide Control Plan involves the super-saturation of the well water with pure oxygen. This involves the rental of the Eco Oxygen Technologies, LLC (ECO2) Oxygen Supplement System, which consists of a Speece Cone; Oxygen Tank/Vaporizer and controls. A Lease Agreement for required equipment in the amount of $104,544.53 is necessary to complete the study which is included in the total project cost.

The Agreement shall begin upon execution and will terminate on January 15, 2019 when the Hydrogen Sulfide Control Plan expires.

The Reimbursement Agreement and Lease Agreement have been reviewed by the Law Department as to form and correctness.

A Certificate of Revenue, a copy of the Reimbursement Agreement, a copy of the Lease Agreement and copies of the Purchase Orders are attached.

In the event the Parties are unable to agree on an amendment to the cost shares, this trial shall terminate.
B. pH CONTROL TRIAL – Cargill and Tate & Lyle Facilities

The Parties agree to maintain a consistent pH during the Hydrogen Sulfide Control Study.

1. Cargill shall maintain a pH setpoint of 10.8 S.U. at its discharge throughout the term of this Agreement. The City shall not contribute financially to this activity.

2. Tate & Lyle shall maintain a pH setpoint of 8.5 S.U. at its discharge throughout the term of this Agreement. The City shall not contribute financially to this activity.

C. INCREASE OF ALKALINITY TRIAL

The Parties have agreed to conduct a trial to determine the impact of further decreasing the hydrogen sulfide in the Sewer. In addition to the cooling of the interceptor, the Parties have agreed to trial the addition of Magnesium Hydroxide to add alkalinity to the waste stream to provide additional buffering capacity farther downstream past Site 4.

1. City’s Responsibilities
   The City will install a temporary system for adding magnesium hydroxide to the Sewer and will enter into a contract for the provision of magnesium hydroxide. The City will add up to 1,000 gallons of Magnesium Hydroxide per day for 180 days. The City will cover 100% of the mobilization costs and 25% of the magnesium hydroxide costs. The City’s total cost under this Section C.1 shall not exceed NINETY SIX THOUSAND SIXTY DOLLARS AND NO CENT ($96,060.00)

2. Cargill’s Responsibilities:

Should the trial exceed any Parties’ estimated cost share, the Parties shall meet
and confer to amend the cost shares. In the event the Parties are unable to agree on an amendment to the cost shares, this trial shall terminate.

D. SULFATE REDUCTION TRIAL – Cargill Facility

Cargill shall close the boiler flue gas damper thereby reducing the sulfate it discharges into the Sewer by 2,000 to 2,500 lbs. per day. There are no responsibilities for the City for this trial. The damper closing will total 90 days on a cycle of: 30 days open; 30 days closed and continuing this cycle for the 180 day duration or on a schedule modified to ensure meaningful data collection and agreed to by the Parties. The damper closing cycle shall begin within 30 calendar days of the execution of this Agreement. The City shall not contribute financially to this activity.

All Parties shall agree to the Plan for project cycling developed by the Parties consultants and attached at Exhibit B. Project cycling means how each of the trials will be phased and cycled during the Hydrogen Sulfide Control Study. All Parties agree that there will be no changes or modification unless there is a consensus among all Parties. However, if such trials result in hydrogen sulfide being pushed farther downstream in the downtown area, the City of Dayton shall have the authority to make immediate adjustments to the project cycling and convene a meeting with Cargill and Tate & Lyle for follow up discussion; provided, however, that nothing in this section shall modify Article IV.

Sampling and Monitoring

All Parties shall agree to the Sampling and Monitoring Plan for the project attached at Exhibit C and shall contribute both internal and outside testing laboratory work as delineated in Article I Section E. All Parties agree that there will be no changes or modification unless there is a consensus among all Parties.
ARTICLE III

Term and Termination

A. This Agreement shall commence on the Effective Date and expire on January 15, 2019, unless extended by mutual written agreement between the Parties or earlier terminated as provided herein.

B. The City may terminate this Agreement upon giving 10 days advance written notice to the other Parties, which shall specify the effective date of termination. Upon termination, Cargill and Tate & Lyle shall be required to pay its portion of the costs expended by the City as described above.

ARTICLE IV

EXHIBIT A

Hydrogen Sulfide Control Proof of Concept Plan
EXHIBIT A

HYDROGEN SULFIDE CONTROL

PROOF OF CONCEPT PLAN

6 MONTH TRIAL

OBJECTIVES
1. Reduction in hydrogen sulfide concentration in headspace of 42" interceptor and prevent the carryover or formation of hydrogen sulfide farther downstream
2. Collect pertinent data to demonstrate permanent design criteria
3. Demonstrate one or a combination of technologies defined below to achieve H2S reduction
4. Actively engage all parties to contribute and provide perspective on the design

GOALS
1. The goal of the well water coolant is to substantially cool the sewer flow in the interceptor to retard the conversion of sulfates to sulfides.
2. To increase alkalinity in the waste stream through the addition of Magnesium Hydroxide as a 2nd Point Application to buffer the pH farther downstream.
3. To partially reduce Sulfates in Cargill’s discharge through dampener closing
4. Better pH control at Tate & Lyle Discharge
5. Ozone Treatment of Head Space at Siphon

OVERALL COST ALLOCATION:
The City, Tate & Lyle and Cargill proposes that the costs of the Proof of Concept (POC) be funded as indicated in the attached Cost Allocation Spreadsheet. Both Cargill and Tate & Lyle have been negotiating their Pro-Rata Share. Both parties have asked the City to front end the costs and bill each entity for their Pro-Rata Share on a Monthly Basis. Both parties have agreed to sign a contract that stipulates the City’s terms.
Plan
The City of Dayton’s Water Supply & Treatment facility has three wells off of Needmore that are being remediated for TCE Contamination. The remediation has been taking place for several years and at this time, the levels of TCE in these wells are low. WS&T has agreed to allow the Managed Sulfate Group to utilize the well water from these wells and redirect to the sanitary sewer for the purpose of cooling. The amount of well water capacity available is 2.5-4.0 MGD. The plan is to redirect the well water via HDPE Pipe towards Wagner Ford Rd and utilize a Speece Cone with supplemental Oxygen to supersaturate the water before discharge into the sanitary sewer. The temperature of the well water is a consistent 58 deg and will lower the wastewater temperature in the interceptor. For every 1 deg decrease in temp, there will be a 7% decrease in hydrogen sulfide formation.

**Cost Allocation**

City: City not charging either entity the sewer volume charges for the discharge of well water into the sanitary sewer for the cooling of the wastewater. This has an equated value of $1,271,000 for 4 MGD during the 6-month trial. The $1,271,550 in lost revenue is the costs to hydraulically handle the water. Actual City Costs: $150,000 for power costs for pumping.

Cargill: 70% of costs of Mobilization and Equipment Rental for the discharge piping and 60% of the costs of the Oxygen supplement. $287,111.52

Tate & Lyle: 30% of costs of Mobilization and Equipment Rental for the discharge piping and 40% of the costs of the Oxygen supplement. $172,181.01

**Justification:** This alternative specifically addresses the cooling of Cargill and Tate & Lyle’s discharge. The costs are pro-rated based on contributing flow. Cargill @ 4 MGD and Tate & Lyle @ 1.0 MGD

**Implementation**

This option can be implemented immediately upon the approval of the Director of the Dayton Water Department and the Ohio EPA. Contractor needs two weeks for mobilization. Cargill to front end the costs while working on cost sharing agreement with Tate & Lyle. It is recommended that we move on this alternative immediately.
#2 INCREASE ALKALINITY

**Plan**
In addition to Cargill’s pH setpoint of 10.8 S.U.’s at their discharge and Tate & Lyle’s pH setpoint of 8.5 S.U.’s at their discharge, due to the high soluble COD and sulfate content, the alkalinity is consumed by the time it reaches Site E. In addition to the cooling of the interceptor, it is the intent to add Magnesium Hydroxide to add alkalinity to the waste stream to provide additional buffering capacity farther downstream past Site 4.

**Cost Allocation**

Cargill: 37.5% of costs: $124,440
Tate & Lyle: 37.5% of costs: $124,440

**Justification:** Approximately 25% of the Sulfate Load at Site E is attributed to the sulfate content in the potable water. Therefore, the City’s cost allocation is 25%. The remaining costs are attributed based on contributing Soluble COD Loading which is about 50% each.

**Implementation**
This option can be implemented immediately upon the approval of the Director of the Dayton Water Department and the Ohio EPA. Chemical Contractor needs two weeks for mobilization. City to front the mobilization costs: $15k to get project moving then costs of chemicals to be allocated per allocation noted above. It is recommended that we move on this alternative immediately.
#3 SULFATE REDUCTION

Plan
Cargill has taken the initiative to investigate internal on-site sources of sulfate that they could target and evaluate if reduction was possible. Cargill has identified the amount of sulfate discharged from their Pre-Drier Scrubbers. It is possible to close the dampener to the Pre-Dryer Scrubber thereby reducing the sulfate by approximately 2,000-2,500 lbs/day. In addition to the cooling of the interceptor and the addition of alkalinity to the waste stream, this trial will include two months of dampener closing to evaluate the overall reduction of hydrogen sulfide in the interceptor. However, since closing of the dampener will result in a heat loss for their drying process, Cargill will need to provide natural gas heat to supplement the loss. The $45,000/month costs if attributed to the additional natural gas.

</tbody>
</table>

Cost Allocation

City: 0% of costs
Cargill: 100% of costs: $235,000
Tate & Lyle: 0% of costs

Justification: During the 6-month trial, Cargill will close the dampener for 1 month and monitor the sulfate reduction; then two more cycles of open for one month and quantify the sulfate production. This will be repeated for another cycle for a total dampener shutdown of three months. The additional operating cost is attributed to the additional natural gas that Cargill will be expected to use to supplement the heat loss from the dampeners.

Implementation
This option can be implemented immediately upon the approval of the Director of the Dayton Water Department and the Ohio EPA. Cargill is prepared and equipped to implement the shutdowns when ready.
Plan
The review of all of the historical data and research by the Managed Sulfate Group has revealed that pH is a major influent in preventing the dissolved sulfides from being released to gaseous hydrogen sulfide. According to the research, a pH of 8.5 at Site E will result in lower hydrogen sulfide readings. Additionally, the data suggests that the pH of Tate & Lyle’s discharge is very erratic. Tate & Lyle is not in violation of its discharge permit, having maintained a pH between 6.0 and 12.0 S.U.s. However, Tate & Lyle has not been maintaining the targeted setpoint of 8.5 S.U.’s. Under this alternative, we will need Tate & Lyle to evaluate their pH monitoring equipment and controls to ascertain what is needed to maintain a consistent pH and at the desired setpoint. Lime is prohibited for pH neutralization.

</table>

Cost Allocation
City: 0% of costs
Cargill: 0% of costs
Tate & Lyle: 100% of costs: $246,000

Justification: During the 6-month trial, Tate & Lyle must control the pH to the 8.5 S.U.’s set point as per previous agreements with the City. The varying pH of 6.0-12.0 S.U.’s is affecting sulfide production. A better control to stabilize the pH to 8.5 will help control the hydrogen sulfide formation.

Implementation
The implementation of this option is dependent on Tate & Lyle evaluating their pH control system. Timing is critical but we need additional information from T&L.
#5 OZONE TREATMENT

Plan
During the recent Sulfate Reducing Bacteria (SRB) Regrowth Study, the hydrogen sulfide content in the sewer above the siphons remain high even through the dissolved sulfides are low. This could suggest that one of the barreled siphons remains stagnant and not in use during normal flows and allows hydrogen sulfide to remain in the headspace and migrate up the interceptor. This could suggest the need for air exchange. The City has been adamant that the air exchange via air scrubber or biofilter is not possible due to the adjacent residential neighborhood. One option suggested was the use of an Ozone generator to treat the headspace. However, research indicates that Ozone may not be effective at the high concentrations of hydrogen sulfide. It may be effective as polishing.

Cost Allocation
City: 33% of costs
Cargill: 33% of costs
Tate & Lyle: 33% of costs:

Justification: The Managed Sulfate Committee agreed to hold off on this due to several reasons including:
- The effectiveness of Ozone at high hydrogen sulfide levels is unknown
- The reduction of hydrogen sulfide with the cooling and the addition of magnesium hydroxide may prove that this alternative is not necessary. Nevertheless, this alternative will remain on the table.

Implementation
The implementation of this option is on hold pending the results of the cooling and magnesium hydroxide alternatives.

### Notes:

- All sampling from Cargill and Tate & Lyte outfalls will be conducted by the two companies as part of their routine compliance monitoring (with the exception of outfall temperature).
- All other monitoring and sampling/analyses will be conducted by City of Dayton and outside laboratories as needed.

1. Cargill will continue to collect daily instantaneous (field) measurements as required by Permit (Monday-Friday) for Oil, temperature, H2S using an Aquachem, and dissolved oxygen using Cargill internal Methods WW 647.1 [2nd Method]. Measurements are generally collected in the 09:00 to 10:00 a.m. timeframe.
2. Dissolved sulfide sample to be field flurorated per Sw. 4000-5.2 G; samples are collected, preserved with pot acid, and returned to lab for analysis.
3. Continuous measurements are not needed. A different type of multi-parameter meter can be used, other than AquaTroll. Sampling from a sample tap downstream of source core, frequency to be determined.
4. One extra probe should be available to swap out with the deployed probes, to allow for extended cleaning and recalibration, and for spot checking data.
5. T&L currently samples monthly for sulfide; will assess voluntary weekly sampling during the trial.
6. Cargill and Tate & Lyte do not routinely monitor for alkalinity; laboratories will conduct sampling as can be done cost effectively on same schedule as sulfide.
7. Based on 1980 well drawings, VODAM0232 has depth of 13.0' ft. (manhole to bottom of pipe), which is comparable to Cargill at 13.25' ft. If manhole overflow or submergence of Cargill probe is a concern, VODAM0232/B could be selected, which has depth of 13.94' ft.

**ECO₂ System Construction**

The ECO₂ system consists of a hollow, stainless steel cone with no internal mixers, baffles or moving parts. The influent and effluent pipes are a minimum of 6” diameter, capable of passing dirty wastewater without clogging. The dish-shaped bottom with the discharge pipe at the low point provides for a self-cleaning device with no need for maintenance.
II. ECO₂ PROPOSAL

Assuming a Hydraulic Retention Time of 2 hours and an oxygen uptake rate of 20 mg/L/hr (most force mains have a maximum of 10 mg/L/hr with municipal wastewater flow), the 5.9 MGD gravity flow would require 2 hr * 20 mg/L/hr * 8.34 lbs/gal * 5.9 MGD = 1968 lbs O₂/day. The proposed system is designed to maximize how much oxygen that can be dissolved in the remediation well flow. The maximum amount of oxygen that can be added is approximately ⅓ of that demand at ~1000 lbs O₂/day. The 4.6 MGD of remediation well water would be raised to 27 mg/L and then discharged into the gravity interceptor. This DO level would be diluted to ~12 mg/L.

Areas of concern:

1. Any air gap between the SuperOxygenated remediation well water and the wastewater flow provides an opportunity for the oxygen dissolved to be forced out of solution due to turbulence.
2. The cone is 22 ft tall and has 10-15 ft of head loss. This head loss is a function of the friction loss and the water fighting its way through the bubble swarm. The available pumps need to be further evaluated to ensure the remediation well water can enter and exit the cone.

Rental Cost

ECO₂ has a 10 ft diameter system available that could be used to SuperOxygenate the remediation well water before it is discharged into the gravity interceptor. We also have an oxygen control panel that would require 120V power and a local oxygen set point could be input into a Mass Flow Controller. In order to use this system, the cone inlet size would need to have the 18” piping reduced to 10” right before entering the cone. The discharge size is 24” but this can be reduced to 18” if chosen to do so. This setup would require that all three-existing remediation well pumps be operated to provide the flow of 3,190 gpm to the cone.

<td>Required ECO₂ Inlet Size (in)</td>
<td>10</td>
</tr>
</tbody>
</table>

Additional Options

ECO₂ recommends maintaining a constant water flowrate through the cone and implement changes in the oxygen feed to see how the sulfide levels in the gravity interceptor change. To reduce the water flow rate through the ECO₂ SuperOxygenation system would require a
reduction in the oxygen feed as well as a reduction in inlet size. For example, if two well remediation pumps were operated at 1,690 gpm, the maximum oxygen feed would be 540 lbs O2/day. The water flow reduction could be accomplished by inserting an orifice plate between the top cone flange and the inlet piping flange. The orifice plate would be ¾" stainless steel with an appropriate sized hole cut in the middle. The pilot could be operated at full flow for a period of time (weeks or months) and then an orifice plate could be installed and then the cone could be operated at the reduced water and oxygen flow rate for a period of time.

III. **ECO₂ GUARANTEE**

**Experience**

ECO₂ has over 15 years of experience in the design, assembly, start-up and operation of SuperOxygenation systems. ECO₂ brought SuperOxygenation technology to the wastewater market for odor and corrosion control with our first three systems installed in 2003. Currently
we have over 70 installations across the U.S. that are all running successfully. We're happy to share our installation list with you and have you talk to any of our clients.

The ECO₂ Approach to Successful Installations

We have gained valuable experience in the design of our systems for various applications. We are confident that the system designed for your application will meet the performance objectives of this project.

ECO₂ Performance Guarantee

ECO₂ will provide a performance guarantee based on the provided data reflected in the basis of design. ECO₂ will provide performance assessment and adjustment during system commissioning to ensure the system is operating according to the design specifications.
IV. COMPETITIVE ADVANTAGES

No Pressurization

The typical ECO$_2$ system is not pressurized, but takes advantage of the existing "free" pressure on the force main instead. This is important because:

- Electricity consumption of a pump increases exponentially when adding pressure.
- Oxygen has to be supplied at higher pressure, increasing the power consumption of the O2 generator.
- There is a risk for effervescence where pressurized systems depressurize in the force main.

No small openings

All openings on every ECO$_2$ system are a minimum of 4" in diameter ensuring the capability of passing dirty wastewater without clogging. This is important because:

- A system with small openings such as nozzles or venturis is prone to clogging and is therefore not a reliable odor control technology
- Small openings will clog and require constant attention and maintenance, raising the O&M costs and wasting valuable man-power.
- Chopper or grinder pumps may alleviate the problem, but they add another piece of equipment to the maintenance cycle and require additional horse power. They are also designed to pass particles through the pump itself, not necessarily small openings downstream of the pump.

No Bubbles

The ECO$_2$ system dissolves the oxygen bubbles outside of the force main in the cone. The bubbles are trapped in the cone until they are dissolved. No gaseous oxygen enters the force main. This is important because:

- Gaseous oxygen is not available to the microorganisms as an oxygen source
- Gaseous oxygen will rise to the crown of the pipe and create a potentially hazardous headspace in the sewer
- Gaseous oxygen is either lost through air release valves or may air lock the pipe or pumps.
V. TERMS & CONDITIONS

ANNUAL MEMBERSHIP DUES
NATIONAL ASSOCIATION OF CLEAN WATER AGENCIES

The Department of Water recommends approval of $18,385.00 to the National Association of Clean Water Agencies (NACWA) for Membership Dues for the period of 10/1/2020 - 9/30/2021.

NACWA is involved in all facets of water quality protection. Viewed as a stakeholder in both the legislative and regulatory arenas, NACWA has built credible, collaborative relationships with members of Congress, Presidential administrations and the Environmental Protection Agency (EPA). Recent years have reflected heightened involvement in a broadening array of environmental laws and regulations that include the entire scope of ecosystem issues encompassed under the “umbrella” of watershed management, among them nonpoint source pollution control and the protection of air quality and endangered species.

The membership dues are calculated based on the most recent service area population.

The City of Dayton Water Department has been a member of this organization for over 10 years.

Such information shall be made available to City monitors or their designees for review upon request.

3. Retention of Records and Documentation

The Subrecipient shall retain all financial records, supporting documents, statistical records, and all other records pertinent to the Agreement for a period of four (4) years. The retention period begins on the date of the submission of the City’s Annual Performance and Evaluation Report to HUD in which the activities assisted under the Agreement are reported on for the final time.

Within thirty (30) days of the expiration or conclusion of the Agreement, the Subrecipient shall provide the City with full and complete copies of all project files and records associated with the Agreement. Additionally, copies of all files and

4. Disclosure

Subrecipient understands that applicant information collected under this Agreement is private and the use or disclosure of such information, when not directly connected with the administration of City's or Subrecipient's responsibilities with respect to work or services to be provided under this Agreement, is prohibited by federal law, unless written consent is obtained from such person receiving service, and in the case of a minor, that of a responsible parent/guardian or otherwise required by law or court order.

By way of further limitations, Subrecipient may use such Program Income during the Agreement term for activities permitted under this Agreement, and shall reduce requests for additional funds by the amount of any such Program Income balance on-hand. All unused Program Income shall be returned to City at the end of the term of this Agreement. Any interest earned on cash advances from the City or from funds maintained in revolving loan accounts are not Program Income and shall be remitted promptly to City.

2. **Indirect Costs**

3. **Payment Procedures**

The City will pay to Subrecipient funds available under this Agreement based upon information submitted by Subrecipient and consistent with any approved budget and City policy concerning payments. With the exception of certain advances, payments will be made for eligible expenses actually incurred by Subrecipient, and not to exceed actual cash requirements. Payments will be adjusted by the City in accordance with advance fund and Program Income balances available in Subrecipient accounts. In addition, the City reserves the right to liquidate funds available under this contract for costs incurred by the City on behalf of Subrecipient.

If Subrecipient fails to use CDBG-assisted real property in a manner that meets a CDBG National Objective for the prescribed period of time, Subrecipient shall pay the City an amount equal to the current fair market value of the property less any portion of the value attributable to expenditures of non-CDBG funds for acquisition of, or improvement to, the property. Such payment shall constitute Program Income to the City. Subrecipient may retain real property acquired or improved under this Agreement after the expiration of the five (5) year period.
3. In all cases in which equipment acquired, in whole or in part, with funds under this Agreement is sold, the proceeds shall be Program Income (prorated to reflect the extent to that funds received under this Agreement were used to acquire the equipment). Equipment not needed by subrecipient for activities under this Agreement shall be (a) transferred to the City for the CDBG program or (b) retained after compensating the City an amount equal to the current fair market value of the equipment less the percentage of non-CDBG funds used to acquire the equipment.

applicants for training and employment positions can see the notice. The notice shall describe the Section 3 preference, shall set forth minimum number and job titles subject to hire, availability of apprenticeship and training positions, the qualifications for each; and the name and location of the person(s) taking applications for each of the positions; and the anticipated date the work shall begin.

Noncompliance with HUD’s regulations in 24 CFR Part 135 may result in sanctions, termination of this contract for default, and debarment or suspension from future HUD assisted contracts.

With respect to work performed in connection with Section 3 covered Indian housing assistance, Section 7(b) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450e) also applies to the work to be performed under this contract. Section 7(b) requires that to the greatest extent feasible (i) preference and opportunities for training and employment shall be given to Indians, and (ii) preference in the award of contracts and subcontracts shall be given to Indian organizations and Indian-owned Economic Enterprises. SCOPE OF SERVICES
REBUILDING TOGETHER DAYTON URGENT HOME REPAIR/NEIGHBORCARE PROGRAM

1. PROGRAM DESCRIPTION

Subrecipient will use all funds granted hereunder to operate the “Urgent Home Repair/NeighborCare Program,” through December 31, 2021. The program will result in the repair of up to 24 households within the City of Dayton corporate limits who are at or below eighty percent (80%) of the Area Median Income (AMI).

Rebuilding Together Dayton (RTD) will provide urgent home repairs and accessibility modifications for homeowners in the City of Dayton. The home repair grants, with a maximum contribution of $7,500.00 per unit, will provide for the repair or replacement of a housing component that poses a threat to the health and safety of the household or structure. The accessibility grants, with a maximum contribution of $7,500.00 per unit, will provide housing modifications that eliminate barriers for an occupant who demonstrates mobility impairments.

Program Definitions
The services offered through the Urgent Home Repair Modification Program will include home repairs and accessibility modifications. The maximum cost per unit will be calculated by the direct costs associated with each unit, including materials, labor, and work by subcontractors, and the administrative costs added together. Below is a description of such repairs.

Home repairs are defined as improvements made to homes necessary to safeguard against danger to human life, health or safety, or to protect property from further structural damage. These repairs will bring the subject items up to local codes and standards. Home repair items include, but are not limited to, such items as: furnace/heating components; air conditioning when medically necessary; damaged or inoperable plumbing; damaged or inoperable hot water heater/tank; severely deteriorated, damaged, or leaking roof; deteriorated drain/waste/vent lines; inoperable or hazardous gas service or distribution lines; damaged or inoperable water service or distribution lines; inoperable or severely damaged windows and doors; hazardous or inoperable electrical systems and components; and damaged or hazardous steps and stairways.

Accessibility modifications are defined as improvements made to homes of persons with disabilities to make the home more accessible. Improvements are designed to remove material and architectural barriers that restrict the mobility and accessibility of elderly and/or disabled persons. Accessibility modification items include, but are not limited to, such items as: installing grab bars/handrails; widening doorways, ramps, and showers; modifying commodes and vanities; and hazardous stairs or ramp replacement/repair.

2. COMMUNITY DEVELOPMENT OBJECTIVES

Subrecipient certifies that the activity (ies) carried out under this Agreement are allowable expenses under HCDA Section 105 (a) (4) and 24 CFR 570.202, and that the activity (ies) are a provision of homeowner rehabilitation, CDBG Matrix Code 14A (Rehab; Single-Unit Residential), benefitting low- and moderate-income (LMI) persons under the National Objective of Low/Mod Housing (LMH) Benefit. The program will maintain the supply and availability of safe, decent, and affordable housing for low- and moderate-income residents, improve the general interior and exterior conditions of the housing stock in the City, provide housing
rehabilitation opportunities for low- and moderate-income residents of the City, increase the percentage of neighborhood residents who rate their neighborhood desirable, reduce the number of homeowners forced from their homes due to deterioration and substandard living conditions, and encourage private neighborhood investment. The provision of homeowner rehabilitation is considered to address the LMH National Objective per 24 CFR 570.208 (a) (3).

3. PROGRAM GUIDELINES

The Subrecipient shall use the City of Dayton CDBG funds for implementation of a Homeowner Rehabilitation Program as articulated below, not to exceed TWO HUNDRED THOUSAND DOLLARS AND ZERO CENTS ($200,000.00). The period will be through December 31, 2021 as contemplated in this agreement.

3. Properties purchased by land contract are ineligible under this program unless the land contract documents are properly recorded by the Montgomery County Recorder’s Office.

Subrecipient will respond to all complaints regarding repairs performed by Subrecipient for one year from date of completion, and client satisfaction survey.

Funds will be used to address code violations, health and safety items, and incipient repair items as identified by Subrecipient. All repairs must be performed in accordance with local building code standards.

Appendix A: Statement of Work

Attachment A: Criteria for Processing

Attachment B: Standards for Timeliness

Attachment C: Payment Amounts for FHAP Complaint Processing

Attachment D: LOCCS Security Procedures (FHAP)
1. **SCOPE OF WORK (FIXED PRICE)**

The Recipient (or Agency) shall furnish all the necessary personnel, materials, services, equipment, facilities (except at otherwise specified herein) and otherwise do all things necessary for or incidental to the performance of the work set forth in the Statement of Work (SOW) and all attachments for the firm fixed price set forth herein.

2. **PERIODS OF PERFORMANCE**

The Recipient shall provide all services hereunder during the periods of performance. For the FY2020 Cooperative Agreement, the periods of performance are as follows:

- **Complaint Processing:** July 1, 2019 – June 30, 2020
- **Administrative Costs, Training:** October 1, 2019 – September 30, 2020

3. **INSPECTION AND ACCEPTANCE**

The Government Technical Monitor (GTM), if so delegated, may accomplish inspection and acceptance of all but the final products. The Government Technical Representative (GTR) shall accomplish acceptance of all final products. The GTR is identified in Block 9 of the HUD-1044.

4. **CONDUCT OF WORK**

During the effective period of this instrument, the GTR or GTM shall be responsible for monitoring the technical effort of the Recipient, unless the Recipient is notified in writing by the Cooperative Agreement Officer (CAO) of a replacement. The CAO is identified in Block 8a of the HUD-1044.

Only the CAO has the power to authorize deviations from this instrument, including deviations from the Statement of Work. In the event the Recipient does deviate without written approval of the CAO, such deviation shall be at the risk of the Recipient, and any costs related thereto shall be borne by the Recipient.

5. **INSTRUMENT AMOUNT AND REQUESTS FOR PAYMENT**

Agencies that have received Capacity Building funds for one year may be eligible for Contributions funds. Contributions funds consist of three categories: Complaint Processing; Administrative Costs; and Training. For FY2020, HUD may also provide Special Enforcement Efforts (SEE) funds as well as Partnership funds.

- **Complaint Processing** – GTRs shall determine payment amounts based upon the FY2020 Payment Amounts for FHAP Complaint Processing, which are found at Attachment C.
- **Administrative Costs** – AC funds are tied to the quantity of a Contributions agency’s caseload. As introduced in FY2018, HUD will continue to provide an increased amount of AC funds to HAP agencies operating in high-cost areas. The enhancement will be provided by applying a locality adjustment developed by HUD’s Office of Policy Development and Research to the HAP agency’s base award. The locality adjustment recognizes and is intended to ameliorate the fact that some HAP agencies operate in areas with higher labor costs and other economic and administrative cost factors. For FY2020, we will apply only those locality adjustments that result in an increase in AC funding. The HAP Division will monitor the effects of this change and refinements may be made in subsequent years.

For FY2020, HAP agencies that acceptably process 100 or more complaints during the Complaint Processing Period will receive 20% of the agency’s total HAP obligation for FY2018, with a locality adjustment where appropriate. For purposes of this calculation, “total HAP obligation” will not include any Partnership funds or SEE funds the agency may have received in FY2018.

- **Special Enforcement Effort (SEE) Funds** – For FY2020, the Department has $145,146 available for Special Enforcement Efforts funding in two categories, as set forth below. **Note** that the categories are separate and distinct, with different application procedures. The total combined amount the Department will provide in SEE funds is $145,146; the funds are available strictly on a first come, first served basis until exhausted. HAP agencies seeking SEE funds under either category must meet the regulatory requirements of 24 C.F.R. § 115.305.

a. **Enforcement Fund**: In order to provide meaningful support for post-cause enforcement — and thereby increase the number of post-cause enforcement actions taken by HAP agencies — the HAP Division is continuing the Enforcement Fund first established in FY2016. Decisions on requests for funds from HAP agencies will be made in headquarters on a case-by-case basis, with the actual fund commitment taking place in the field as with all other HAP funds. Funding for this initiative will come from the existing authority for Special Enforcement Efforts at 24 C.F.R. § 115.305. Detailed guidance on the distribution and use of SEE funds for this category will be provided separately.

b. **Extraordinary Costs Assistance**: Distinct from the Enforcement Fund, HAP agencies will be allowed to submit requests for SEE funds for costs related to investigations and enforcement that are outside the “ordinary” costs of investigation and enforcement. These costs may arise in either the investigation or enforcement phase of complaint processing. Examples include, but are not limited to, costs related to interpreters, testing, and expert witnesses (e.g., design and construction experts, expert testimony related to damages, etc.).

Unlike the application process for the Enforcement Fund, a HAP agency will request these funds in writing directly from their respective GTR/Region Director. Once the
GTR/Region Director has determined that costs are documented and a request is eligible, the Region Director will request a funds assignment from the FHAP Director.

**Partnership Funds** – For FY2020, the Department has $200,000 available for Partnership funds. The purpose of Partnership funds is for a FHAP agency to utilize the services of individuals and/or public, private, for-profit, or not-for-profit organizations that have expertise needed to effectively carry out the provisions of the agency’s fair housing law. Given the relatively low amount of Partnership funds available for FY2020, the FHAP Division intends to invite interested FHAP agencies to submit proposals for their use. These funds are available strictly on a first come, first served basis until exhausted.

The maximum amount for performance under the Articles of this Cooperative Agreement, Appendix, and Attachments, is the total amounts of all categories of Contributions funds (i.e., Complaint Processing, Administrative Costs, and Training as well as SEE and Partnership funds if such funds are made available). Draw-downs are permitted at the discretion of the GTR. Complete draw-downs of the total amount obligated for Complaint Processing funds shall be permitted at any point after June 30, 2020, and before September 30, 2020. Payment is subject to withholding if the CAO determines that the Recipient is not complying with all terms of the Cooperative Agreement, the Appendix, and all Attachments hereto.

6. **NARRATIVE REPORT**

A Narrative Report describing activities undertaken during the periods of performance pursuant to which payment is being requested is required. The Narrative Report shall include a listing of complaints acceptably processed, including the name of complainant, respondent, and date closed, type of closure, date referred to legal for enforcement action, and descriptions of all activities undertaken to justify all administrative closures. This list must demonstrate that the agency receives and processes a reasonable number of complaints cognizable under the Fair Housing Act, as required in 24 C.F.R. § 115.206(e)(7). The Narrative Report shall also include a description of outreach activities undertaken in support of fair housing case processing to educate the public on fair housing rights and responsibilities. The GTR/GTM should verify that the Recipient is undertaking the education and outreach activities identified. If the Recipient meets the requirements outlined in the *FY2020 FHAP Funding Guidance*, remaining funds may be used to undertake the fair housing education and outreach activities.

7. **CRITERIA FOR PROCESSING**

The Criteria for Processing are the standards by which HUD determines whether a complaint, cognizable under the Fair Housing Act and processed by the Recipient, warrants reimbursement with FHAP funds. The Criteria for Processing are incorporated as Attachment A.
8. **2 C.F.R. PART 200**

The Administrative Requirements for Grants and Cooperative Agreements (2 C.F.R. part 200) are hereby incorporated by reference. The Agency must be familiar with these requirements and verify to the GTR/GTM that the Recipient has a copy on file. A copy of Part 200 may be obtained from your GTR/GTM.

9. **USE OF COOPERATIVE AGREEMENT FUNDS AND NO COMINGLING**

The Recipient is entitled to receive the fixed amount identified in Block 14 of the HUD-1044 for satisfactory completion of the work to be performed, regardless of costs incurred. FHAP funds must be used for the purpose that HUD provided the funds including the processing of complaints cognizable under the Fair Housing Act, training under the Fair Housing Act and the state or local fair housing law, administrative costs associated with fair housing complaint processing, creation and maintenance of data and information systems, and the development and maintenance of fair housing education and outreach projects. The Recipient must segregate FHAP funds from the Recipient's and the state or local government's other funds.

10. **MAINTENANCE OF EFFORT**

The Recipient must spend at least 20 percent of its total annual budget on fair housing activities if it enforces antidiscrimination law(s) other than a fair housing law. The term “total annual budget” means the entire budget assigned by the jurisdiction to the agency for enforcing and administering antidiscrimination laws, but does not include FHAP funds.

Maintenance of effort also means that the Recipient shall not unilaterally reduce the level of financial resources currently committed to fair housing. Budget and staff reductions occasioned by legislative action outside the control of the Recipient will not, alone, result in a determination of ineligibility. However, HUD will take such actions into consideration in assessing the ongoing viability of a Recipient's fair housing program.

11. **HUD'S SUBSTANTIAL INVOLVEMENT**

A. HUD intends to have substantial involvement in the review and approval of all aspects of the work to be carried out as a result of an award under this Agreement.

B. Anticipated substantial involvement may include, but is not necessarily limited to, the following:

1. Review and guidance during and upon completion of cases cognizable under the Fair Housing Act;

2. Requests for additional information on cases to provide clarification or for completeness of a case investigation or file;
3. Development and presentation of national and regional office fair housing investigation and conciliation training;

4. Participation in the development and presentation of in-house investigation and conciliation training;

5. Participation and approval of education and outreach programs or materials;

6. Provision of appropriate directives and guidance for case processing;

7. Assistance in the investigation, conciliation, and/or enforcement of fair housing cases cognizable under the Fair Housing Act;

8. Requests for updates on the final status of cause determinations; and

9. Review and analysis of agency’s fair housing law for determinations of continued substantial equivalence to the Fair Housing Act.

12. ASSURANCES

As a condition for the receipt of FHAP funds, the Recipient assures HUD that it will:

A. Provide a drug-free workplace;

B. Comply with the provision of the Hatch Act (5 U.S.C. Sections 1501-1508 and 7324-7328) which limits the political activities of employees whose principle employment activities are funded in whole or part with Federal funds;

C. Establish safeguards to prohibit employees from using their positions for a purpose that constitutes or presents the appearance of personal or organizational conflict of interest, or personal gain;

D. Comply with the Intergovernmental Personnel Act of 1970 (42 U.S.C. §§ 4728 – 4763) relating to prescribed standards for merit systems for programs funded under one of the nineteen statutes or regulations specified in Appendix A of OPM’s Standards for a Merit System of Personnel Administration (5 C.F.R. 900, Subpart F);

E. Comply with all federal nondiscrimination laws including, but not necessarily limited to: (a) Title VI of the Civil Rights Act of 1964, which prohibits discrimination on the basis of race, color, or national origin by recipients of federal financial assistance (b) Title IX of the Education Amendments of 1972, as amended, which prohibits discrimination on the basis of sex by recipients of federal financial assistance ; (c) Section 504 of the Rehabilitation Act of 1973, which prohibits discrimination on the basis of disability by recipients of federal financial assistance, and (d) the Age Discrimination Act of 1975, as amended, which prohibits discrimination on the basis of age by recipients of federal financial assistance;
F. Comply with all applicable requirements of federal laws, executive orders, regulations, and policies governing this program; and;

G. Comply with the requirements of the Resource Conservation and Recovery Act which mandates that state agencies using federal funds for procurement programs give preference to products containing recycled materials when purchasing specific products identified in guidelines developed by the Environmental Protection Agency (40 C.F.R. §§ 247 – 253).

13. USE OF CONSULTANTS

Salary payments to consultants under this instrument shall not exceed the equivalent of the maximum daily rate paid to level IV of the Executive Schedule, as evidenced by current pay vouchers.

14. PUBLICATIONS AND NEWS RELEASES

A. Definition. For the purpose of this clause, “publication” includes:

(1) Any document containing information for public consumption;

(2) The act of, or any act that may result in, disclosing information to the public; or

(3) Any products resulting from the education and outreach efforts of the Recipient that are planned to be made available to the public through dedication, assignment by the Government, or other such means as HUD shall determine.

B. Government Ownership of Official Products of Work

All interim and final reports and information, data analyses, special methodology, findings, and their related documents and work products, including reports, work sheets, survey instruments, computer tapes, and any other physical materials and products produced directly under the SOW of this instrument are considered Official Products of Work, owned by the U.S. Government and held for the benefit of the public.

C. Publication of Official Products of Work

Official Products of Work, quotations there from, paraphrasing, or disclosures of interim findings may not be published without the approval of the GTR for a period of sixty (60) days after acceptance of the product by the GTR. Thereafter, the Recipient shall be free to publish without HUD approval.

D. Acknowledgement and Disclaimer

All Official Products of Work, or any part thereof, and any Independent Products and Special Products arising out of this instrument, when published by Recipient or other participants in the work, shall contain the following acknowledgment and disclaimer:
"The work that provided the basis for this publication was supported by funding under a Cooperative Agreement with the U.S. Department of Housing and Urban Development. The substance and findings of the work are dedicated to the public. The author and publisher are solely responsible for the accuracy of the statements and interpretations contained in this publication. Such interpretations do not necessarily reflect the views of the Government."

E. Notice of News Release and Public Announcements

Copies of all press releases, formal announcements, and other planned, written issuances containing news or information concerning this instrument that may be made by the Recipient or its staff, or any subcontractor or other person or organization participating in the work of this instrument shall be provided to the GTR at the earliest possible time. News releases and other public announcements may not disclose any interim finding or quote or paraphrase any part of any Official Product of Work without complying with paragraph D above, entitled Acknowledgement and Disclaimer.

The Recipient agrees that no news releases or public announcements involving FHAP funded activities will be released to the public without prior HUD approval. The Recipient further agrees that it will submit any and all press releases/news announcements, studies and/or other products developed with FHAP funds to the GTR for review and approval of at least two weeks prior to its release, unless HUD agrees to waive the two-week submission requirements. Publication flyers, and other routine documents previously approved by the GTR and/or the Department, may be published without further HUD approval.

15. REPRODUCTION OF REPORTS

In accordance with Government Printing and Binding Regulations, reproduction of reports, data or other written materials, if required herein, is authorized, provided that the materials produced do not exceed 5,000 production units of any page and the items consisting of multiple pages do not exceed 25,000 production units in aggregate.

16. FLOW DOWN PROVISIONS

The Recipient shall include provisions of this instrument in all contracts of employment with persons who perform any part of the work under this instrument, and with all subcontractors and other persons or organizations participating in any part of the work under this instrument. There shall be provisions for a further flow down of such requirements to each sub-tier of employees and subcontractors to the extent feasible. If the Recipient subcontracts to a public or private organization any activity for which it receives FHAP funds, it must ensure in writing that the organization is complying with all relevant civil rights laws including: (a) Title VI of the Civil Rights Act of 1964; (b) Title IX of the Education Amendments of 1972, as amended; (c) Section 504 of the Rehabilitation Act of 1973; and (d) the Age Discrimination Act of 1975.
17. **DISPUTES**

During performance of the instrument, disagreements may arise between the Recipient and the GTR on various issues, such as the acceptability of complaints forwarded for reimbursement. If a dispute arises, the CAO shall be the final authority on the matter and shall prepare a final decision, taking into account all facts and documentation presented. The CAO’s decision shall be mailed, emailed, faxed, or telephonically provided to the Recipient.

18. **MAINTENANCE OF RECORDS**

The GTR and CAO are to maintain all appropriate records relating to the implementation of this cooperative agreement for a period of 5 years for the GTR files and a period of 7 years for the CAO files. The files for the CAO are to be kept in a secure place and should be accessible to others only with the CAO’s permission. After 7 and 5 years respectively, the records may be archived at the records center.

The Recipient agrees to maintain records demonstrating its financial administration of FHAP funds. The Recipient also agrees to maintain records of its performance under FHAP, including all past performance assessment reports, performance improvement plans, and other documents relative to the Recipient’s performance.

The Recipient agrees to permit reasonable public access to its records as required at 24 C.F.R. § 115.308(c) (i.e., records are made available at the agency’s office during normal working hours for public review). The Recipient agrees to permit the Secretary of HUD, Inspector General of HUD, Comptroller General of the United States, and any of their authorized representatives, access to all the pertinent books, accounts, reports, files, and other payments for surveys, audits, examinations, excerpts and transcripts as they relate to the agency’s participation in the FHAP. The Recipient agrees to keep files in such a fashion as to permit the audits under applicable Office of Management and Budget circulars, procurement regulations and guidelines, and the Single Audit requirements for state and local agencies.

19. **CUSTOMER SERVICE STANDARDS**

The Recipient agrees to ensure that any and all individuals associated with fair housing complaints, including aggrieved persons, complainants, respondents, and representatives, are treated with dignity and respect. The Recipient agrees to maintain regular contact with parties to a complaint, including not allowing more than 30 business days to pass without some form of contact with parties. The Recipient agrees that its staff will not communicate disinterest or distrust in the complaint process to any of the parties to the complaint. Complaints to HUD from individuals associated with FHAP fair housing complaints will be reviewed by the GTR. The GTR will work with the Recipient and the individual to resolve the matter. In addition, customer satisfaction issues identified that may impact the timely and effective processing of fair housing complaints will be considered when HUD conducts performance assessments of the Recipient in accordance with 24 C.F.R. § 115.206.
20. REPORTING REQUIREMENTS

The Recipient agrees to provide the GTR timely information on all fair housing complaints cognizable under the Fair Housing Act, from receipt to closure, regardless of whether payment has been received by the Recipient.

The Recipient agrees to fully utilize the HUD Enforcement Management Systems (HEMS) and input information in HEMS in a timely manner. Failure to meet this requirement shall result in HUD identifying such failure as a deficiency in the FHAP agency's performance assessment, thereby authorizing HUD to proceed with performance deficiency procedures enumerated in the FHAP regulation at 24 C.F.R. § 115.210.

21. TRAINING

The Recipient agrees to send staff to mandatory training sponsored by HUD, including, but not necessarily limited to, the National Fair Housing Training Academy and the National Fair Housing Policy Conference.

22. INITIAL CONTACT DATE

The Recipient must use the Initial Contact Date field in HEMS to record the actual date on which a complainant first contacts the Recipient or FHEO to inquire about filing a housing discrimination complaint, or to report an alleged discriminatory housing practice. The Recipient will be required to comply with the following procedures with respect to documenting a complainant's initial contact.

For cases initially filed with the Recipient, the Recipient must:

A) Maintain records of each complainant's initial contact with the Recipient, including records of all telephone, e-mail, letters, and in-person contacts;

B) Place the original record of a complainant's initial contact, or a copy of that record, in the case file under the complainant's evidence section of the file, consistent with the requirements of Chapter 10 of the Title VIII Manual; and

C) Ensure that the Initial Contact Date field in HEMS reflects the earliest date of contact referenced in the case file.

For cases initially filed with FHEO, the Recipient:

A) Must ensure that the Initial Contact Date filed in HEMS reflects the earliest date of contact referenced in the case file referred to the Recipient by FHEO;
B) Must not change the date that FHEO entered in the Initial Contact Date field in HEMS even if records contained in the case file received from FHEO reflect a later date of contact by the complainant. If FHEO has entered an initial date of contact in HEMS that is earlier than any contact date referenced in the case file, the Recipient must contact the FHEO regional office to obtain any records of contact that may have been omitted from the case file.

23. **CHANGES LIMITING EFFECTIVENESS OF RECIPIENT’S LAW**

Pursuant to 24 C.F.R. § 115.211(a), if a state or local fair housing law that a Recipient enforces is amended, or rules or procedures concerning the fair housing law are adopted, or judicial or other authoritative interpretations of the fair housing law are issued, the Recipient must notify HUD’s Fair Housing Assistance Program Division within 60 days of its discovery. This requirement also applies to the amendment, adoption, or interpretation of any related law that bears on any aspect of the effectiveness of the FHAP agency's fair housing law. Send correspondence to:

Director, Fair Housing Assistance Program Division  
Office of Fair Housing and Equal Opportunity  
U.S. Department of Housing and Urban Development  
451 Seventh Street, SW, Room 5206  
Washington, DC 20410

24. **FHAP AND THE FIRST AMENDMENT**

None of the funding made available under the FHAP may be used to investigate or prosecute any activity engaged in by one or more persons that may be protected by the First Amendment of the United States Constitution.

25. **TESTING**

The following requirements apply to testing activities funded under the FHAP:

A) Testing must be done in accordance with a HUD-approved testing methodology;

B) Testers must not have prior felony convictions or convictions of any crimes involving fraud or perjury;

C) Testers must receive training or be experienced in testing procedures and techniques;

D) Testers and the organizations conducting tests, and the employees and agents of these organizations, may not: 1) have an economic interest in the outcome of the test, without prejudice to the right of any person or entity to recover damages for any cognizable injury; 2) be a relative or acquaintance of any party in a case; 3) have had any employment or other affiliation, within five years, with the person or organization; or 4) or be a competitor of the person or organization to be tested in the listing, rental, sale or financing of real estate.
26. RELEASE OF INFORMATION WHILE COMPLAINT IS OPEN

As a general rule, the Recipient will not release information collected during the course of the investigation while the complaint is open. There are three exceptions. First, the Recipient will provide information to HUD, consistent with Section 11 of this document. Second, a party to a complaint being investigated by the Recipient is entitled to receive a copy of any document it submitted during the investigation of the complaint. Third, during conciliation, a conciliator may opt to use the strategy of revealing portions of the evidentiary section of the investigative file to the parties. This type of disclosure may also occur during an investigation when a Recipient investigator questions a party or a witness about a document or a statement in a document.

27. SEXUAL ORIENTATION, GENDER IDENTITY, MARITAL STATUS, AND SOURCE OF INCOME CAUSE DETERMINATIONS

Recipient must submit to the Fair Housing Assistance Program (FHAP) Division copies of sexual orientation, gender identity, marital status, and source of income cause determinations. The General Section of HUD’s Notice of Funding Availability (NOFA) deems ineligible applicants that have not satisfactorily resolved a cause determination from a FHAP agency for a systemic violation of a state or local prohibition of sexual orientation, gender identity, and source of income housing discrimination. Additionally, on February 3, 2012, HUD issued a final rule entitled Equal Access to Housing in HUD Programs Regardless of Sexual Orientation and Gender Identity, which mandates recipients of HUD funds, FHA-insured lenders, and FHA-mortgagors to provide access to HUD programs without regard to sexual orientation, gender identity, and marital status. Receipt of cause determinations from FHAP agencies on these issues will assist HUD in determining whether an applicant is ineligible for funding under the NOFA and/or has violated the Equal Access Rule. FHAP agencies should submit such determinations electronically to LGBTFairhousing@hud.gov, or send hardcopies to:

Director, Fair Housing Assistance Program Division  
Office of Fair Housing and Equal Opportunity  
U.S. Department of Housing and Urban Development  
451 Seventh Street, SW, Room 5206  
Washington, DC 20410

ATTACHMENT A

FY2020 Criteria for Processing

The Criteria for Processing (Criteria) are the standards by which HUD determines whether a complaint, cognizable under the federal Fair Housing Act and processed by a substantially equivalent state or local agency, meets the minimum requirements for quality and timeliness, and identify the documents that must be submitted to HUD in order to receive reimbursement. The Criteria are designed to assure the uniform, timely, and quality processing of housing discrimination complaints processed under substantially equivalent fair housing laws.

The Criteria are enumerated under major subheadings, most of which describe the type of closure, (e.g., cause, no cause, conciliation). Subheadings I through III set out criteria that apply to most complaints. Subheadings IV through VII set forth additional criteria specific to particular types of complaint closure. For example, to meet the criteria for an administrative closure, criteria under subheadings I (Complaint Filing), II (Notification), III (Cause and No Cause Determinations), VII (Administrative Closures) may need to be met.

An agency must meet the Criteria for each complaint processed and provide all complaint-related documentation identified in the Criteria to HUD within 30 days of completion of complaint processing. Such documentation must be submitted to HUD via the HUD Enforcement Management System (HEMS). An agency’s failure to input all required information in HEMS in a timely manner will negatively impact an agency’s performance rating. HUD will address a failure to meet the Criteria through performance deficiency procedures including, but not limited to, technical assistance, performance improvement plans, and suspension from FHAP participation. See 24 C.F.R. § 115.307(a)(3) and 24 C.F.R. § 115.210.

HUD utilizes complaint closure review forms which combine the Criteria for Processing and the Standards for Timeliness into checklists for each type of complaint closure. These forms are available to FHAP agencies as an additional technical assistance tool to support high quality case processing.
I. COMPLAINT FILING

A. Quality Requirements:

1. All complaints must be timely filed in accordance with the substantially equivalent state or local fair housing law.

2. All complaints must be in writing, signed by the complainant, and contain the following information:
   
   a. The name and address of complainant;
   
   b. The name and address of each respondent;
   
   c. If a specific property is involved, the property’s address and physical description, such as apartment, condominium, house or vacant lot; and
   
   d. A concise statement of the facts, including pertinent dates, constituting the alleged discriminatory housing practice.

3. Where the agency determines that there is insufficient information in the complaint to commence an investigation, the agency must notify the complainant in writing by no later than the 5th day after receipt of the complaint and inform the complainant what information he or she must provide in order to commence an investigation and identify a reasonable timeframe for submitting such information. The agency must notify the complainant that unless he or she provides the required information within the specified timeframe, the agency may dismiss the complaint.

4. The FHAP agency must permit complaints to be filed with the assistance of an authorized representative or organization of the complainant.

5. The FHAP agency must permit complaints to be reasonably and fairly amended at any time. Such amendments may include, but are not limited to: a) amendments to cure technical defects or omissions; b) clarification, amplifications, or amendments of allegations in a complaint; or c) joinder of additional or substitute respondents. The FHAP agency should consider amended complaints as having been filed on the date the original complaint was filed.

6. If a FHAP agency requires complaints to be notarized, HUD will not reimburse the agency for a complaint not filed because the complainant did not get the complaint notarized. To preserve the rights of aggrieved persons, a FHAP agency must refer such complaints to HUD for investigation under the federal Fair Housing Act as soon as practicable and, where necessary, consent to their reactivation.
7. Pursuant to 24 CFR § 115.210, and the March 7, 2001 memorandum entitled “Limitations on Accepting as Dual-Filings FHAP Cases That Implicate First Amendment,” HUD will not reimburse FHAP agencies for complaints that implicate the First Amendment of the U.S. Constitution. The FHAP agency must alert HUD to complaints that it receives that may implicate the First Amendment so that HUD may analyze the complaint and determine if reimbursement is appropriate.

8. Pursuant to a Memorandum of Understanding between HUD and the Internal Revenue Service, the FHAP agency must identify in HEMS whether the property named in a complaint receives Low Income Housing Tax Credits. This is required for every complaint.

9. The FHAP agency must refer complaints to HUD when the agency receives allegations involving a practice that is not prohibited by the substantially equivalent State or local law, but which is prohibited by the federal Fair Housing Act.

10. If a housing discrimination complaint is filed against a recipient of federal financial assistance and therefore implicates civil rights laws that FHEO enforces other than the federal Fair Housing Act (multi-jurisdictional), the FHAP agency shall notify FHEO so that FHEO may process that portion of the complaint. Other civil rights laws enforced by FHEO include:

   a. Title VI of the Civil Rights Act of 1964, 42 U.S.C. § 2000(d) (prohibiting discrimination on the basis of race, color or national origin in programs or activities receiving federal financial assistance);

   b. Section 504 of the Rehabilitation Act of 1973, 29 U.S.C. § 794 (prohibiting discrimination based on disability in programs or activities receiving federal financial assistance);

   c. Section 109 of the Housing and Community Development Act of 1974, 42 U.S.C. § 5309 (prohibiting discrimination on the basis of race, color, national origin, religion or sex in any program or activity funded in whole or in part by the community development block grant programs);

   d. Title II of the Americans with Disabilities Act, 42 U.S.C. § 12101 et seq. (prohibiting discrimination based on disability in programs, services and activities made available by public entities);

   e. Architectural Barriers Act, 42 U.S.C. § 4151 et seq. (providing that buildings, including publicly owned residences, designed constructed, leased or altered with certain federal funds must be accessible to persons with disabilities); and

B. **Required Documents:** A signed, dated copy of the complaint, any requests for amendment(s) to the complaint, and evidence of compliance with the timeframes and requirements identified above.

C. **Complaint Filing with Multiple Complainants or Respondents:** FHAP agencies will be reimbursed only for complaints that involve separate, distinct discriminatory actions that require a separate investigation. Where allegations may be made against two or more respondents, separate complaints should be filed against each respondent only when each respondent’s conduct stands alone as a separate violation of the Act. Furthermore, if complainants are married and both are aggrieved persons, a single, joint complaint should be filed. If there are children under age 18 who reside in the household who may have been injured by the alleged discriminatory housing practice(s), they should be listed as “Other Aggrieved Persons” on that same complaint. FHAP agencies should not typically file separate complaints for spouses or children under 18 residing in the household.

II. **NOTIFICATION**

A. **Quality Requirements:** The FHAP agency must notify HUD within 5 days of receiving complaints that are cognizable under the federal Fair Housing Act. In addition, the FHAP agency must serve notice of the complaint to each complainant and respondent in accordance with the timeframes identified in the substantially equivalent law and the following requirements.

1. The notification letter to the complainant must consist of an acknowledgement of receipt of the complaint for filing, the designation of a complaint number, information related to the agency’s processing procedures including the name and telephone number of a FHAP agency contact, and the complainant’s rights and obligations under the substantially equivalent law, including time limits and choice of forums.

2. The notification letter to each of the respondents must consist of a description of the alleged housing discrimination practice upon which the complaint is based, include a copy of the complaint, and identify the name and telephone number of a FHAP agency contact. The notice to each respondent must advise respondent of his or her procedural rights and obligations, including the right to file an answer within the timeframe identified in the substantially equivalent law.

3. A person who is not named as a respondent in a complaint, but who is identified as a respondent in the course of the investigation, may be joined as an additional or substitute respondent by service of a written notice. The notice must explain the basis for the agency's belief that the joined person is properly joined as a respondent and include information identified in paragraph 2 above.
B. **Required Documents:** For complaints that are filed directly with the FHAP agency, the agency must enter information in HEMS regarding the complaint within five days of receiving the complaint, sufficiently notifying HUD of the complaint. In addition, the agency must provide HUD with a copy of the notification letters sent to the parties and must update HEMS to indicate when the agency sent the notification letters.

III. **CRITERIA FOR CAUSE AND NO CAUSE DETERMINATION**

Every cause or no cause determination must be based on an investigation that includes sufficient consideration of the complainant’s and respondent’s evidence, and a sufficient evaluation of any and all conflicting evidence. A cause or no cause determination must be based on a review of all relevant evidence the agency obtained during the investigation. The agency shall not act as an advocate for either the complainant or respondent and shall weigh the evidence objectively in light of the relevant substantially equivalent law. The basis for the cause or no cause determination must be well-documented.

A. **Quality Requirements:**

In addition to the criteria set forth in subheadings I and II above:

1. Before the end of the 30th day after the complaint is filed, the FHAP agency must initiate a comprehensive investigation of issues raised in the complaint. Respondent’s defenses, relevant policies and practices, as well as all other relevant data, must be identified and analyzed and the complainant, respondent, and all relevant witnesses must be interviewed. Contradictions between complainant’s allegations and respondent’s response must be investigated and when applicable, comparative data must be obtained. Information must be independently corroborated. Simply obtaining respondents’ statements rebutting complainant’s allegations is insufficient to resolve disputed issues of fact.

2. HUD recommends that FHAP agencies develop investigative plans for every complaint processed that is cognizable under the Fair Housing Act. For guidance on developing an investigative plan, FHAP agencies should refer to Chapter 7 of HUD Handbook 8024.01 REV-2 (Title VIII Complaint Intake, Investigation, and Conciliation Handbook).

3. In planning the investigation, the investigator and his or her supervisor must determine, on a complaint-by-complaint basis, whether on-site inspections and/or interviews are required. For most complaints, on-site inspections and/or interviews are the most thorough way to conduct an investigation. Some cases, e.g., where the complaint does not involve factual disputes or where evidence clearly demonstrates the allegations do not have merit, may not require an onsite visit.
4. During the period beginning with the filing of a complaint and ending with the FHAP agency's determination or charge of discrimination, the agency, to the extent feasible, must attempt to conciliate the complaint (see more detail on criteria for conciliation in Section IV of this document).

5. If the agency does not complete the investigative activities with respect to a complaint within 100 days from the date of receipt, it must notify the parties in writing of the reason(s) for the delay. Such notification letters must be sent within 110 days of the filing of the complaint.

6. At the end of each investigation, the agency shall prepare a Final Investigative Report (FIR). A FIR shall be dated and signed by at least one supervisor. The FIR shall contain:
   a. The names and dates of contacts with the parties and witnesses, except that the report will not disclose the names of witnesses who request anonymity;
   b. A summary of correspondence and other contacts with the complainant and the respondent;
   c. A summary description identifying other pertinent records examined;
   d. A summary of statements by witnesses, if applicable; and/or
   e. Interrogatories and answers provided, if applicable.

7. Each Determination shall be signed and dated by an authorized FHAP official.

8. The FHAP agency shall send the closure package to HUD within 30 days of closure. (See B below).

9. The FHAP agency will cooperate with HUD by providing information at regular intervals or upon request related to individual complaint investigations. Upon request, the FHAP agency shall provide status reports for each complaint that is over 100 days old.

B. Required Documents: The case file shall include all evidence indicating that a comprehensive investigation was commenced and completed in accordance with the above requirements including, but not limited to: a copy of a signed, dated complaint; a copy of a FHAP agency determination, dated and signed by an authorized FHAP official; proof that a FHAP agency sent its determination letter to all parties; an FIR that meets the above listed requirements; an investigative plan (when such plan exists); a copy of the 100-day letters and evidence that they were sent; and all other information pertinent to the investigation, including but not limited to interview notes, documentation of conciliation attempts and, when necessary, independent evidence corroborating respondent’s defense(s).
IV. CRITERIA FOR POST-CAUSE COMPLAINTS HEARD IN AN ADMINISTRATIVE HEARING, CIVIL ACTION, OR THROUGH JUDICIAL REVIEW

In addition to the appropriate criteria set forth in subheadings I, II, and III above:

A. Quality Requirements: After a cause determination and a charge of discrimination, or its equivalent, has been issued, and assuming the conciliation was attempted and failed, the complaint must be referred to appropriate counsel to prosecute the charge on behalf of the complainant, at government expense, before an administrative hearing body or civil court.

B. Documents Required: HUD will accept such a complaint for reimbursement if the agency provides documentation of such a referral in, for example, correspondence, logs or pleadings. Additionally, the FHAP agency shall provide any final administrative hearing decision, consent decree, or settlement agreement entered to HUD within 30 days of such action. If the agency does not provide this information, HUD may request, and the agency will be required to return, up to 50% of the reimbursement previously paid to the agency for the complaint.

Special Note: While the agency may obtain reimbursement on these complaints prior to final disposition by an administrative hearing body or a civil court, the agency must subsequently report to HUD the final status of such complaints. See 24 C.F.R. § 115.206(e)(8). FHAP agencies must input final status information directly in HEMS within 30 days of the administrative or judicial determination.

C. Post-Cause Administrative Hearings or Judicial Filings: An agency may receive additional funds for engaging in certain post-cause enforcement actions. If, pursuant to the substantially equivalent law, an agency either conducts an administrative hearing or files a civil action upon election to enforce a finding of reasonable cause, HUD may provide additional payment.

Where the triggering event (i.e., conduct of administrative hearing or filing of civil action) for the supplemental payment does not occur, an agreement reached after a cause finding will not qualify as an enforcement action for purposes of this supplemental payment. Such cases will be reimbursed as any other cause case unless the disposition is a conciliation agreement (i.e., an agreement signed by the parties and the FHAP agency), in which case it will be reimbursed as any other case closed with a conciliation agreement. Where the triggering event has occurred, a FHAP agency will receive the supplemental payment even where the case is resolved by a subsequent agreement, e.g., through a consent decree.

Agencies will receive this increased supplemental payment when the agency has engaged in post-cause enforcement actions and has documented its actions in HEMS. This documentation must occur in order for the GTR/GTM to authorize payment.
V. CRITERIA FOR CONCILIATION

During the period beginning with the filing of a complaint and ending with the agency's no cause determination or charge of discrimination, the agency, to the extent feasible, must attempt to conciliate the complaint. In conciliating a complaint, agencies must attempt to achieve a just resolution of the complaint and obtain assurances that the respondent will satisfactorily remedy any violations of the rights of the complainant and take actions to ensure the elimination of alleged discriminatory housing practices and the prevention of their occurrences in the future. These standards for conciliation remain in effect even if conciliation/settlement takes place after the agency's cause determination.

In addition to the appropriate criteria set forth in subheadings I, II, and III above:

A. Quality Requirements/Required Documents: The FHAP agency must provide HUD with a signed and dated complaint, a chronology of actions taken up to the conciliation, copies of closure letters sent to the parties indicating that the complaint was closed due to a successful conciliation, together with a copy of the executed conciliation agreement.

The conciliation agreement must be in writing, dated and signed by complainant, respondent, and the authorized FHAP agency representative, and include:

1. HUD and FHAP complaint numbers

2. Names of the parties;

3. Address and description of the subject property;

4. An effective date and the term in which the agreement remains in effect;

5. Relief that remedies the discrimination alleged in the complaint or is otherwise agreed upon by the parties and appropriate based on evidence obtained in the investigation of the matter;

6. As appropriate, relief that adequately vindicates the public interest, and prohibits future discriminatory housing practices by respondent;

7. A statement that the agreement constitutes closure of the complaint at HUD and the FHAP agency;

8. A statement that the agreement shall be made public unless the complainant and respondent otherwise agree, and an authorized representative of the agency determines that disclosure is not required to further the purposes of the substantially equivalent law. Circumstances that may result in partial or complete nondisclosure of a conciliation agreement may include, but are not limited to:

   • Sexual harassment claims;
- A complainant’s physical or mental condition, or medical diagnoses; or
- The fact that a complainant is a resident in a domestic violence shelter or other protected residence which complainant believes may, if disclosed, be a safety risk.

9. Provisions that allow the FHAP agency to effectively monitor compliance with the agreement.

10. A statement that violations of other civil rights laws have been alleged (if applicable).

NOTE: A conciliation agreement does not prohibit HUD from taking action against respondent under other civil rights laws. When a complaint is subject to concurrent processing by HUD under other civil rights laws, the FHAP agency may not execute an agreement that resolves matters in regard to these laws without HUD’s consent.

VI. CRITERIA FOR CLOSURES BY SETTLEMENT WITHOUT FHAP AGENCY INVOLVEMENT (A.K.A., WITHDRAWALS WITH RESOLUTION)

If complainant and respondent resolve the complaint without the FHAP agency’s involvement, the complainant may withdraw the complaint by submitting a withdrawal request to the FHAP agency.

In addition to the appropriate criteria set forth in subheadings I, II, and III above:

A. **Quality Requirements.** The withdrawal request must be written; it must be signed and dated by complainant or complainant’s authorized representative; identify the respondent(s) to whom the withdrawal applies; contain the HUD and FHAP agency complaint numbers; state the reason(s) complainant seeks to withdraw the complaint; contain a statement that the withdrawal was not obtained by coercion or threat of retaliation from any person, including but not limited to the respondent; and identify the terms of the resolution.

B. **Required Documents:** The FHAP agency must provide FHEO with: a signed and dated complaint; a chronology of the FHAP agency actions prior to the withdrawal request; a copy of the signed and dated withdrawal request; documentation showing that the agency notified the complainant and respondent that the investigation would be terminated as a result of the withdrawal, and that the complainant could re-file the complaint if the terms of the resolution are not satisfied and the re-filing is received within the time limit for filing a complaint under the substantially equivalent law; and a copy of the closure letter.

NOTE: The FHAP agency must not encourage or facilitate resolution without its involvement in lieu of proceeding with conciliation. If HUD discovers that such occurred, it will be addressed through performance deficiency procedures.
VII. CRITERIA FOR ADMINISTRATIVE CLOSURES

Performance Standard 2 in the FHAP regulations, at 24 C.F.R. § 115.206(e)(2), requires that administrative closures only be utilized in limited and appropriate circumstances. It is critical that FHAP agencies not close complaints administratively except under the specific circumstances set forth below.

A. Withdrawals without Resolution. If complainant decides to withdraw a complaint, even though the complaint has not been resolved, complainant must submit a withdrawal request.

In addition to the appropriate criteria set forth in subheadings I, II, and III above:

1. Quality Requirements: The withdrawal request must: be written; signed and dated by complainant or complainant’s authorized representative; identify the respondent(s) to whom the withdrawal applies; contain the HUD and FHAP agency complaint numbers; state the reason(s) complainant seeks to withdraw the complaint; contain a statement that complainant is aware that the withdrawal terminates the FHAP agency’s investigation; contain a statement that the withdrawal was not obtained by coercion or threat of retaliation from any person, including but not limited to the respondent.

2. Required Documents: The FHAP agency must provide FHEO: a signed and dated complaint; a chronology of FHAP agency actions prior to receipt of the withdrawal request; a copy of the signed and dated withdrawal request that meets the Quality Requirements set out above; and a copy of the closure letter provided to all parties indicating closure due to withdrawal by complainant without resolution.

NOTE: If the withdrawal request indicates that there was coercion or threat of retaliation FHAP payment may be denied.

B. Inability to Locate Complainant. The FHAP agency may administratively close a complaint when additional information is needed from complainant and he or she cannot be located.

In addition to the appropriate criteria set forth in subheadings I, II, and III above:

1. Quality Requirements: If correspondence sent by the agency is returned with an indication that the complainant moved and left no forwarding address, the agency must take the following progressive steps to locate the complainant before administratively closing the complaint:

a. Place at least four telephone calls to complainant’s residence, cell phone number, and place of employment, two during normal business hours to work number and two during non-business hours to a residential/cell
number. If an email address is available, the agency must attempt to email the complainant at least two times.

b. Attempt to contact persons identified by complainant at intake to inquire as to complainant’s whereabouts.

c. Check other sources in an effort to obtain complainant’s current contact information (e.g., telephone directory, Internet searches, postal service, 411 information, utility company, or witnesses previously identified by complainant).

d. Send a letter to the complainant’s last known address by certified mail, advising complainant of the agency’s intent to close the case unless complainant contacts the agency within ten days. If the tenth day elapses without a response, the case may be closed administratively by means of a written notice sent to all parties, including complainant at complainant’s last known address.

NOTE: If the FIR shows that the complaint was closed due to the inability to contact complainant without following the steps outlined above, the FHAP agency will not be reimbursed for processing the complaint.

2. **Required Documents:** The FHAP agency must provide the following documentation to FHCEO: a signed and dated complaint; evidence that the above progressive steps were taken to locate complainant; evidence that the certified letter was returned unclaimed, and a copy of the closure letter sent to the parties indicating closure due to inability to locate complainant.

C. **Inability to Locate Respondent**

In addition to the appropriate criteria set forth in subheadings I, II, and III above:

1. **Quality Requirements:** A FHAP agency must make every effort to identify the correct name and address of each respondent in a complaint. However, there may be circumstances where a respondent cannot be identified or located. If the complaint identifies multiple respondents and only one cannot be adequately identified, the agency must not close the complaint administratively. Rather, the investigation must proceed and further efforts must be made during the investigation to identify the respondent whose correct name or address remains unknown. The complaint may be amended to remove those respondents who could not be located.

If a sole respondent or all respondents cannot be identified or located, the complaint may be closed administratively if the agency first takes the following steps:
a. The FHAP agency must attempt to obtain additional information from available sources that could result in identifying or locating the respondent, including Internet searches, cell phone numbers, cross reference directories, or property tax records that may identify the owner or prior residents of the property in question and provide enough information to identify or locate the respondent, serve the complainant, and begin the formal investigation.

b. If a source appears to know the identity or location of a respondent that the FHAP agency seeks, but that source refuses to provide the information voluntarily, the FHAP agency must subpoena the information.

c. As appropriate, the FHAP agency should attempt an on-site visit, which may help locate and identify the respondent.

d. If the above efforts to locate or identify the respondent are unsuccessful, a letter must be sent to the complainant giving him or her 10 days to provide information needed to locate or identify respondents.

NOTE: In the absence of sufficient information, the case may be closed administratively, and written notice by regular and certified mail should be sent to the parties.

Required Documents: The FHAP agency must provide the following documentation to FHEO: a signed and dated complaint; evidence that the above progressive steps were taken to locate the respondent, including the signed letters identified in 1(d) above giving notice to complainant or complainant’s representative, evidence that certified letters were returned unclaimed, and closure letters to complainant or complainant’s representative indicating inability to locate respondent(s).

D. Failure of Complainant to Cooperate with the Investigation. A complaint may be administratively closed when complainant fails to respond to reasonable requests for information that is needed in order for the FHAP agency to make a determination.

In addition to the appropriate criteria set forth in subheadings I, II, and III above:

Quality Requirements:

a. The FHAP agency must inform the complainants and their representatives of their duty to cooperate with the investigation and the risk of the agency administratively closing the complaint if they fail to cooperate.
b. The FHAP agency must make repeated attempts to contact complainants and their representatives by telephone and mail requesting the needed information. If these efforts are fruitless, the FHAP agency must send a letter to the complainant by certified mail return receipt giving complainant at least ten days from receipt of letter to provide the needed information to the agency.

c. If the complainant’s cooperation cannot be obtained using the above procedures, and the letter is not returned by the post office (i.e., marked addressee unknown, moved, left no forwarding address, etc.), the complaint should then be closed for failure to cooperate.

d. If the complaint is closed for failure of complainant to cooperate with the investigation, a closure letter must be sent to the complainant.

1. Required Documents: The following documents must be provided to FHEO: a signed and dated complaint; evidence that the above progressive steps were taken to obtain complainant’s cooperation, including the signed letter identified in 1(b) above giving notice to the complainant or the complainant’s representative; and a copy of closure letter to the parties indicating closure because of failure of complainant to cooperate with the investigation.

E. Lack of Jurisdiction

In addition to the appropriate criteria set forth in subheadings I, II, and III above:

1. Quality Requirements: In order to qualify for reimbursement, the lack of jurisdiction must not have been apparent on the face of the complaint at the time of filing, and must have become known only after further investigation. The following are examples of facts uncovered during an investigation that may justify reimbursement for an administrative closure for lack of jurisdiction: a) the complainant has not suffered the alleged harm needed to establish standing; b) the subject property qualifies for an exemption to coverage of both the Fair Housing Act and the substantially equivalent law. Note that if HUD, but not the agency, has jurisdiction over the complaint, the complaint must be referred to HUD for processing.

2. Required Documentation: The FHAP agency must provide the following documentation to FHEO: reason(s) for closing the complaint for lack of jurisdiction that demonstrates why HUD does not have jurisdiction, and that the lack of jurisdiction could not have been determined at intake; copies of closure letter sent to the parties that indicate reason for lack of jurisdiction closure, identify FHAP and HUD complaint numbers, and are signed by authorized FHAP agency official.
F. **Trial has Begun** A complaint must not be closed merely because an aggrieved party has filed a civil action with respect to the same alleged discriminatory housing practice(s).

In addition to the appropriate criteria set forth in subheadings I, II, and III above:

1. **Quality Requirements:** No additional criteria.

2. **Required Documents:** To receive reimbursement for an administrative closure due to the commencement of a judicial trial the FHAP agency must produce: a document from the clerk of the court in the jurisdiction that hears the complaint or other sufficient documentation demonstrating that a trial has begun.

ATTACHMENT C

FY2020 Payment Amounts for FHAP Complaint Processing

Effective Conciliation*: $3,200
Cause or no cause: $3,000
Post-cause enforcement action supplemental payments:

- Administrative Hearing held: $5,000
- Civil Action filed: $8,000
Administrative Closures: $1,500
Withdrawals with Resolution: $1,500

*Effective Conciliation – an “effective” conciliation is one that provides both substantive individual relief for the complainants(s) and meaningful public interest relief. Substantive individual relief includes both monetary relief and other affirmative relief required to make the complainant(s) whole (e.g., approval or restoration of a housing opportunity, approval of a reasonable accommodation or reasonable modification request). The monetary relief afforded to the complainant should not be de minimis; it should compensate the complainant(s) for the harm alleged and be commensurate with relief obtained in other similar cases.

For purposes of determining whether a conciliation warrants the higher payment, public interest relief can take a variety of forms depending on the circumstances of a given complaint. Generally, it means the conciliation agreement contains certain requirements such as implementation of nondiscriminatory policies; changes to existing policies and practices; attendance at fair housing training; and/or other action that provides remediation or relief for individuals other than a complainant(s). Public interest relief may also encompass prospective relief such as agreeing to ongoing testing to assure compliance; relief for additional victims not identified in complaints; agreeing to make changes in policies at all of a respondent’s properties (not just the subject property); participation in education and outreach activities; and/or other affirmative relief that protects the public interest.

A pattern of requiring only fair housing training is not meaningful public interest relief. In deciding whether the higher payment is warranted, HUD monitors will consider in every case whether other reasonable, appropriate forms of public interest should have been considered. Additionally, public interest relief cannot be meaningful or effective unless reporting and recordkeeping provisions are included to ensure that all required actions are completed. A conciliation that fails to provide substantive individual relief and public interest relief will be reimbursed at the Full Investigation amount of $3,000.00.

LOCCS Security Procedures (FHAP)

The Line of Credit Control System (LOCCS) is the primary grant disbursement system for HUD programs, including the Fair Housing Assistance Program (FHAP). Grant disbursements are facilitated via the internet through the eLOCCS system. As participants in the FHAP, substantially equivalent state or local agencies are permitted access to LOCCS and eLOCCS.

The Department’s Rules of Behavior and security guidelines require that the Approving Official for LOCCS transactions be the CEO, Board Officer, or Agency Director of an organization. An “Approving Official” is a LOCCS administrator who manages “users” in LOCCS. The Approving Official cannot be an individual serving in an interim or acting position and must have decision-making authority for the organization. The Approving Official is the only individual permitted to be the Secure Connection Coordinator, and those duties may not be delegated.

To comply with IT Security guidelines, each individual with access to LOCCS must safeguard his/her User ID and Password. User IDs and Passwords must NOT be shared with others. Only authorized users should access LOCCS. Please note: there is a requirement for a separate LOCCS User ID and password from Secure Systems access for both users and approving officials.

In the event the authorized user leaves the organization, the HUD Government Technical Representative (GTR) assigned to the current grant must be notified and a form HUD-27054 must be submitted to the GTR to terminate the employee who has left the organization and to authorize a new user, to be identified by the FHAP agency.

HUD embraces a “Zero Tolerance Philosophy” for failure to secure important financial information. Failure to abide by conditions above or the general Rules of Behavior below applicable to all HUD computer systems will result in the following consequences: access for the individual will be terminated and will not be reinstated. The FHAP agency will be required to identify another individual to assume the role of the disqualified individual (i.e., as the approving official or authorized user).

Rules of Behavior for HUD Systems

The U.S. Department of Housing and Urban Development has granted access to the FHAP agency to utilize the Department’s automated information resources (e.g., HEMS). As a condition of receiving this access the Agency is required to be aware of the Department's system security policies and to abide by these policies. Security policy emphasizes awareness practices for the purpose of safeguarding the Department's valuable information resources.

The system user identification (USERID) and password issued to users are the FHAP agency’s means to access these resources. They are to be used solely in connection with the performance of the responsibilities as set forth in the job description, contract or agreement(s) with the Department. Use by anyone other than authorized users is expressly prohibited. You agree to be responsible for the confidentiality of the assigned information and accountable for all activity
with your user identification (USERID). Further, you agree that you will not provide this confidential USERID/password to another user nor will you sign on to HUD systems so that another person may access or operate the workstation in your absence or on your behalf. **Actions of this type constitute a breach of system security and will result in immediate termination of your assigned USERID/password from the system.**

**In addition, authorized users agree to:**

(a) Log-off the system when leaving the system/workstation area;
(b) Refrain from leaving written passwords in the workstation area;
(c) Avoid creating a personal password that can be easily associated with you;
(d) Avoid posting printouts of sensitive output data on bulletin boards;
(e) Avoid leaving system output reports unattended or unsecured;
(f) Control input documents by returning them to files or forwarding them to the appropriate contact person in your office;
(g) Avoid violation of the Privacy Act which requires confidentiality of personal data contained in government and contractor data files;
(h) Immediately contact the HUD Inspector General's Office, as appropriate, regarding any suspected violation or breach of system security;
(i) Cooperate in providing personal background information to be used in conducting security background checks to the extent required by Federal regulations;
(j) Respond to any inquiries and requests for information you may receive from either the HUD Headquarters or management officials regarding system security practices.
(k) Protect all electronic/optical media and hardcopy documentation containing sensitive information and properly dispose of it by shredding hardcopy documentation, or by contacting the HITS Help Desk to dispose of electronic/optical media.
(l) Avoid saving sensitive HUD information on the local drive of a laptop, personally owned computer, or other mobile or portable technology ("flash drives", removable/external hard drives, etc.).

(m) If sensitive data must be stored on any type of HUD-approved mobile/portable technology (laptops, removable hard drives, "flash drives", etc.), ensure that it is protected via encryption.
(n) Individuals who telework or remotely access HUD information should do so only through approved remote access solutions (such as hudmobile.hud.gov), and should safeguard all sensitive information accessed in this manner

Terms and Conditions for All Grants

The following terms and conditions must be met in order to obtain and conduct a federally-funded traffic safety program. Upon approval of this grant award, these terms and conditions will become a part of the executed agreement. The term “sub-recipient” refers to the Administering Agency of the project.

1.) **Agreement**

   Any inconsistencies between agreements and any attached documents shall be resolved in favor of the most current revised agreement on the online system, which shall be the controlling document. All activities conducted under this grant program must address problem ID as shown in the county profile and be data driven and evidence-based. “Countermeasures That Work” must be used to determine the work plan activities to achieve the goals of the grant.

2.) **Legislative Authority**

   The Authorizing Official shall obtain the legal legislative authority necessary to implement the activity, to make expenditures and to receive funds, as set forth by this agreement.

3.) **Nondiscrimination**

   The sub-recipient will comply with all Federal statutes and implementing regulations relating to nondiscrimination (“Federal Nondiscrimination Authorities”). These include but are not limited to:

   - **Title VI of the Civil Rights Act of 1964** *(42 U.S.C. 2000d et seq., 78 stat. 252)*, (prohibits discrimination on the basis of race, color, national origin) and 49 CFR part 21;

   - **The Uniform Relocation Assistance and Real Property Acquisition Policies Act** of 1970, *(42 U.S.C. 4601)*, (prohibits unfair treatment of persons displaced or whose property has been acquired because of Federal or Federal-aid programs and projects);

     **Section 504 of the Rehabilitation Act of 1973**, *(29 U.S.C. 794 et seq.)*, as amended, (prohibits discrimination on the basis of disability) and 49 CFR part 27;

   - **The Age Discrimination Act of 1975**, as amended, *(42 U.S.C. 6101 et seq.)*, (prohibits discrimination on the basis of age);

   - **The Civil Rights Restoration Act of 1987**, *(Pub. L. 100-209)*, (broadens scope, coverage and applicability of Title VI of the Civil Rights Act of 1964, The Age Discrimination Act of 1975 and Section 504 of the Rehabilitation Act of 1973, by expanding the definition of the terms "programs or activities" to include all of the programs or activities of the Federal aid recipients, sub-recipients and contractors, whether such programs or activities are Federally-funded or not);
• **Titles II and III of the Americans with Disabilities Act** (42 U.S.C. 12131-12189) (prohibits discrimination on the basis of disability in the operation of public entities, public and private transportation systems, places of public accommodation, and certain testing) and 49 CFR parts 37 and 38;

• **Executive Order 12898, Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations** (prevents discrimination against minority populations by discouraging programs, policies, and activities with disproportionately high and adverse human health or environmental effects on minority and low-income populations); and

• **Executive Order 13166, Improving Access to Services for Persons with Limited English Proficiency** (guards against Title VI national origin discrimination/discrimination because of limited English proficiency (LEP) by ensuring that funding recipients take reasonable steps to ensure that LEP persons have meaningful access to programs (70 FR at 74087 to 74100).

The sub-recipient —

• Will take all measures necessary to ensure that no person in the United States shall, on the grounds of race, color, national origin, disability, sex, age, limited English proficiency, or membership in any other class protected by Federal Nondiscrimination Authorities, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any of its programs or activities, so long as any portion of the program is Federally-assisted.

• Will administer the program in a manner that reasonably ensures that any of its subrecipients, contractors, subcontractors, and consultants receiving Federal financial assistance under this program will comply with all requirements of the Non-Discrimination Authorities identified in this Assurance;

• Agrees to comply (and require any of its subrecipients, contractors, subcontractors, and consultants to comply) with all applicable provisions of law or regulation governing US DOT’s or NHTSA’s access to records, accounts, documents, information, facilities, and staff, and to cooperate and comply with any program or compliance reviews, and/or complaint investigations conducted by US DOT or NHTSA under any Federal Nondiscrimination Authority;

• Acknowledges that the United States has a right to seek judicial enforcement with regard to any matter arising under these Non-Discrimination Authorities and this Assurance;

• Insert in all contracts and funding agreements with other State or private entities the following clause:

c. To permit access to its books, records, accounts, other sources of information, and its facilities as required by the State highway safety office, US DOT or NHTSA;

d. That, in event a contractor/funding recipient fails to comply with any nondiscrimination provisions in this contract/funding agreement, the State highway safety agency will have the right to impose such contract/agreement sanctions as it or NHTSA determine are appropriate, including but not limited to withholding payments to the contractor/funding recipient under the contract/agreement until the contractor/funding recipient complies; and/or cancelling, terminating, or suspending a contract or funding agreement, in whole or in part; and

e. To insert this clause, including paragraphs a through e, in every subcontract and subagreement and in every solicitation for a subcontract or sub-agreement, that receives Federal funds under this program.

The sub-recipient will provide a drug-free workplace by:

a. Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession or use of a controlled substance is prohibited in the grantee's workplace and specifying the actions that will be taken against employees for violation of such prohibition;

b. Establishing a drug-free awareness program to inform employees about:
   - The dangers of drug abuse in the workplace.
   - The grantee's policy of maintaining a drug-free workplace.
   - Any available drug counseling, rehabilitation, and employee assistance programs.
   - The penalties that may be imposed upon employees for drug violations occurring in the workplace.
   - Making it a requirement that each employee engaged in the performance of the grant be given a copy of the statement required by paragraph (a).

f. Making a good faith effort to continue to maintain a drug-free workplace through implementation of all the paragraphs above.

5.) **Buy America Act**

The State and each subrecipient will comply with the Buy America requirement (23 U.S.C. 313) when purchasing items using Federal funds. Buy America requires a State, or subrecipient, to purchase only steel, iron and manufactured products produced in the
United States with Federal funds, unless the Secretary of Transportation determines that such domestically produced items would be inconsistent with the public interest, that such materials are not reasonably available and of a satisfactory quality, or that inclusion of domestic materials will increase the cost of the overall project contract by more than 25 percent. In order to use Federal funds to purchase foreign produced items, the State must submit a waiver request that provides an adequate basis and justification to and approved by the Secretary of Transportation.

6.) Political Activity (Hatch Act)
The sub-recipient will comply with provisions of the Hatch Act (5 U.S.C. 1501-1508), which limits the political activities of employees whose principal employment activities are funded in whole or in part with Federal funds.

7.) Certification Regarding Federal Lobbying

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

3. The undersigned shall require that the language of this certification be included in the award documents for all sub-award at all tiers (including subcontracts, subgrants, and contracts under grant, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

8.) Restriction on State Lobbying
None of the funds under this program will be used for any activity specifically designed to urge or influence a State or local legislator to favor or oppose the adoption of any specific legislative proposal pending before any State or local legislative body. Such activities include both direct and indirect (e.g., "grassroots") lobbying activities, with one exception. This does not preclude a State official whose salary is supported with NHTSA funds from
engaging in direct communications with State or local legislative officials, in accordance with customary State practice, even if such communications urge legislative officials to favor or oppose the adoption of a specific pending legislative proposal.

9.) **Certification Regarding Debarment and Suspension**

**Instructions for Primary Certification (States)**

1. By signing and submitting this proposal, the prospective primary participant is providing the certification set out below and agrees to comply with the requirements of 2 CFR Parts 180 and 1300.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. The prospective participant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the department or agency’s determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when the department or agency determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default or may pursue suspension or debarment.

4. The prospective primary participant shall provide immediate written notice to the department or agency to which this proposal is submitted if at any time the prospective primary participant learns its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

5. The terms **covered transaction, debarment, suspension, ineligible, lower tier, participant, person, primary tier, principal, and voluntarily excluded**, as used in this clause, have the meaning set out in the Definitions and coverage sections of 2 CFR Part 180. You may contact the department or agency to which this proposal is being submitted for assistance in obtaining a copy of those regulations.

6. The prospective primary participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is proposed for debarment under 48 CFR part 9, subpart 9.4, debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by NHTSA.

7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled “Instructions for Lower Tier Certification” including the "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion—Lower Tier Covered Transaction," provided by the department or agency entering into this covered transaction, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions and will require lower tier participants to comply with 2 CFR Parts 180 and 1300.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not proposed for debarment under 48 CFR part 9, subpart 9.4, debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the list of Parties Excluded from Federal Procurement and Non-procurement Programs.

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is proposed for debarment under 48 CFR part 9, subpart 9.4, suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, the department or agency may disallow costs, annul or terminate the transaction, issue a stop work order, debar or suspend you, or take other remedies as appropriate.

   c) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State or Local) with commission of any of the offenses enumerated in paragraph (1)(b) of this certification; and
   d) Have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State, or local) terminated for cause or default.

(2) Where the prospective primary participant is unable to certify to any of the Statements in this certification, such prospective participant shall attach an explanation to this proposal.

Instructions for Lower Tier Certification
1. By signing and submitting this proposal, the prospective lower tier participant is providing the certification set out below and agrees to comply with the requirements of 2 CFR Parts 180 and 1300.

2. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

3. The prospective lower tier participant shall provide immediate written notice to the person to which this proposal is submitted if at any time the prospective lower tier participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

4. The terms covered transaction, debarment, suspension, ineligible, lower tier, participant, person, primary tier, principal, and voluntarily excluded, as used in this clause, have the meanings set out in the Definition and Coverage sections of 2 CFR Part 180. You may contact the person to whom this proposal is submitted for assistance in obtaining a copy of those regulations.

5. The prospective lower tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is proposed for debarment under 48 CFR part 9, subpart 9.4, debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by NHTSA.

6. The prospective lower tier participant further agrees by submitting this proposal that it will include the clause titled “Instructions for Lower Tier Certification” including the "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion – Lower Tier Covered Transaction," without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions and will require lower tier participants to comply with 2 CFR Parts 180 and 1300.

7. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not proposed for debarment under 48 CFR part 9, subpart 9.4, debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the List of Parties Excluded from Federal Procurement and Non-procurement Programs.

8. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

9. Except for transactions authorized under paragraph 5 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is proposed for debarment under 48 CFR part 9, subpart 9.4, suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, the department or agency with which this transaction originated may disallow costs, annul or
terminate the transaction, issue a stop work order, debar or suspend you, or take other remedies as appropriate.

Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion Lower Tier Covered Transactions:

1. The prospective lower tier participant certifies, by submission of this proposal, that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any Federal department or agency.

2. Where the prospective lower tier participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.

10.) Prohibition On Using Grant Funds To Check For Helmet Usage
The State and each subrecipient will not use 23 U.S.C. Chapter 4 grant funds for programs to check helmet usage or to create checkpoints that specifically target motorcyclists.

11.) Policy on Seat Belt Use
In accordance with Executive Order 13043, Increasing Seat Belt Use in the United States, dated April 16, 1997, the Grantee is encouraged to adopt and enforce on-the-job seat belt use policies and programs for its employees when operating company-owned, rented, or personally-owned vehicles. The National Highway Traffic Safety Administration (NHTSA) is responsible for providing leadership and guidance in support of this Presidential initiative. For information on how to implement such a program, or statistics on the potential benefits and cost-savings to your company or organization, please visit the Buckle Up America section on NHTSA's website at www.nhtsa.dot.gov. Additional resources are available from the Network of Employers for Traffic Safety (NETS), a public-private partnership headquartered in the Washington, D.C. metropolitan area, and dedicated to improving the traffic safety practices of employers and employees. NETS is prepared to provide technical assistance, a simple, user-friendly program kit, and an award for achieving the President’s goal of 90 percent seat belt use. NETS can be contacted at 1 (888) 221-0045 or visit its website at www.trafficsafety.org.

The Administering Agency certifies that an “employee seat belt usage policy” is in place that requires employees to wear seat belts while working on agency business. This policy will be made available for review by OTSO representatives upon request.

12.) Policy to Ban Text Messaging While Driving
In accordance with Executive Order 13513, Federal Leadership On Reducing Text Messaging While Driving, and DOT Order 3902.10, Text Messaging While Driving, States are encouraged to adopt and enforce workplace safety policies to decrease crashes caused by distracted driving, including policies to ban text messaging while driving company-owned or -rented vehicles, Government-owned, leased or rented vehicles, or privately-owned when on official Government business or when performing any work on or behalf of the Government. States are also encouraged to conduct workplace safety initiatives in a manner commensurate with the size of the business, such as establishment of new rules and programs or re-evaluation of existing programs to prohibit
text messaging while driving, and education, awareness, and other outreach to employees about the safety risks associated with texting while driving.

13.) **Limitations**
This agreement is a commitment to perform the work identified herein and this authorization is limited to:

A.) The scope of work performed after the “Authorized to Proceed” and before the “Agreement Termination” dates, as specified in the transmittal letter.
B.) The scope of work, rates of participations, federal funds, special conditions, and cost category amounts as defined by the online GRANTS Plus System;
C.) Actual costs that are incurred in accordance with OMB Circulars 2 CFR Part 200, Part 215, Part 220, Part 225, Part 230 and 45 CFR Part 74 Appendix E limited to the approved activity.

14.) **Supplanting**
Grant funds must not be used to supplant state or local funds, meaning that grant funds must not be used to replace routine or local expenditures for costs of activities that constitute general expenses required to carry out the overall responsibilities of the sub-recipient and/or its sub-recipients.

15.) **Food**
Costs relating to food for meetings, award banquets, etc. are not allowable.

16.) **Pre-Activity**
A grant pre-activity is required before any costs can be eligible for reimbursement. The pre-activity must be reviewed by, but not limited to, the designated project director and fiscal officer. The Pre-Activity must be reviewed, certified (check the box), and submitted to OTSO through GRANTS Plus. If there are changes to the Project Director and/or Fiscal Officer, the Pre-Activity must be reviewed by the new personnel.

17.) **OTS0/Sub-recipient Meetings**
Sub-recipients must attend all scheduled OTSO/Sub-recipient meetings to coordinate and review activity including current crash data to achieve high visibility enforcement, education and awareness.

18.) **Press Release**

agreement (either programmatic or fiscal), must be submitted online prior to September 1, 2021. Any requests for revisions after this date will not be approved.

The employer’s share of certain fringe benefits (i.e., retirement, Medicare, etc.) are eligible for reimbursement. Documentation verifying fringe percentages must be available to OTSO upon request.

23.) **Personnel Activity Reports**
Personnel activity reports may be required for any individual working on this federal grant program. These reports, at a minimum, must document date worked, detailed explanation of activity performed and the number of hours per day to be charged to this agreement. 24.) **Sub-Contracts**
All sub-contracts and all purchases made under a sub-contract with any one vendor in excess of a combined total of $5,000 must be submitted to OTSO for review prior to their execution and are subject to the same laws, regulations, and policies that govern this agreement. Contracts and procurements must include a copy of these Terms and Conditions. Do not include a specific contractor’s name/vendor’s name in the proposal/grant.

The following terms and conditions must be met in order to obtain and conduct a federally-funded traffic safety program. Upon approval of this grant award, these terms and conditions will become a part of the executed agreement. The term “sub-recipient” refers to the Administering Agency of the project.

3.) Nondiscrimination
The sub-recipient will comply with all Federal statutes and implementing regulations relating to nondiscrimination (“Federal Nondiscrimination Authorities”). These include but are not limited to:

- **Title VI of the Civil Rights Act of 1964** (42 U.S.C. 2000d et seq., 78 stat. 252), (prohibits discrimination on the basis of race, color, national origin) and 49 CFR part 21;

- **The Civil Rights Restoration Act of 1987**, (Pub. L. 100-209), (broadens scope, coverage and applicability of Title VI of the Civil Rights Act of 1964, The Age Discrimination Act of 1975 and Section 504 of the Rehabilitation Act of 1973, by expanding the definition of the terms "programs or activities" to include all of the programs or activities of the Federal aid recipients, sub-recipients and contractors, whether such programs or activities are Federally-funded or not);
• **Titles II and III of the Americans with Disabilities Act** (42 U.S.C. 12131-12189) (prohibits discrimination on the basis of disability in the operation of public entities, public and private transportation systems, places of public accommodation, and certain testing) and 49 CFR parts 37 and 38;

• **Executive Order 12898, Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations** (prevents discrimination against minority populations by discouraging programs, policies, and activities with disproportionately high and adverse human health or environmental effects on minority and low-income populations); and

• **Executive Order 13166, Improving Access to Services for Persons with Limited English Proficiency** (guards against Title VI national origin discrimination/discrimination because of limited English proficiency (LEP) by ensuring that funding recipients take reasonable steps to ensure that LEP persons have meaningful access to programs (70 FR at 74087 to 74100).

The sub-recipient —

• Will take all measures necessary to ensure that no person in the United States shall, on the grounds of race, color, national origin, disability, sex, age, limited English proficiency, or membership in any other class protected by Federal Nondiscrimination Authorities, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any of its programs or activities, so long as any portion of the program is Federally-assisted.

• Will administer the program in a manner that reasonably ensures that any of its subrecipients, contractors, subcontractors, and consultants receiving Federal financial assistance under this program will comply with all requirements of the Non-Discrimination Authorities identified in this Assurance;

• Agrees to comply (and require any of its subrecipients, contractors, subcontractors, and consultants to comply) with all applicable provisions of law or regulation governing US DOT’s or NHTSA’s access to records, accounts, documents, information, facilities, and staff, and to cooperate and comply with any program or compliance reviews, and/or complaint investigations conducted by US DOT or NHTSA under any Federal Nondiscrimination Authority;

• Acknowledges that the United States has a right to seek judicial enforcement with regard to any matter arising under these Non-Discrimination Authorities and this Assurance;

• Insert in all contracts and funding agreements with other State or private entities the following clause:

During the performance of this contract/funding agreement, the contractor/funding recipient agrees—

a. To comply with all Federal nondiscrimination laws and regulations, as may be amended from time to time;

b. Not to participate directly or indirectly in the discrimination prohibited by any Federal non-discrimination law or regulation, as set forth in Appendix B of 49 CFR part 21 and herein;
c. To permit access to its books, records, accounts, other sources of information, and its facilities as required by the State highway safety office, US DOT or NHTSA;

d. That, in event a contractor/funding recipient fails to comply with any nondiscrimination provisions in this contract/funding agreement, the State highway safety agency will have the right to impose such contract/agreement sanctions as it or NHTSA determine are appropriate, including but not limited to withholding payments to the contractor/funding recipient under the contract/agreement until the contractor/funding recipient complies; and/or cancelling, terminating, or suspending a contract or funding agreement, in whole or in part; and

e. To insert this clause, including paragraphs a through e, in every subcontract and subagreement and in every solicitation for a subcontract or sub-agreement, that receives Federal funds under this program.

The sub-recipient will provide a drug-free workplace by:

   a. Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession or use of a controlled substance is prohibited in the grantee's workplace and specifying the actions that will be taken against employees for violation of such prohibition;

       o The grantee's policy of maintaining a drug-free workplace.
       o Any available drug counseling, rehabilitation, and employee assistance programs.

The State and each subrecipient will comply with the Buy America requirement (23 U.S.C. 313) when purchasing items using Federal funds. Buy America requires a State, or subrecipient, to purchase only steel, iron and manufactured products produced in the
United States with Federal funds, unless the Secretary of Transportation determines that such domestically produced items would be inconsistent with the public interest, that such materials are not reasonably available and of a satisfactory quality, or that inclusion of domestic materials will increase the cost of the overall project contract by more than 25 percent. In order to use Federal funds to purchase foreign produced items, the State must submit a waiver request that provides an adequate basis and justification to and approved by the Secretary of Transportation.

6.) **Political Activity (Hatch Act)**
The sub-recipient will comply with provisions of the Hatch Act (5 U.S.C. 1501-1508), which limits the political activities of employees whose principal employment activities are funded in whole or in part with Federal funds.

The undersigned shall require that the language of this certification be included in the award documents for all sub-award at all tiers (including subcontracts, subgrants, and contracts under grant, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Such activities include both direct and indirect (e.g., "grassroots") lobbying activities, with one exception. This does not preclude a State official whose salary is supported with NHTSA funds from
engaging in direct communications with State or local legislative officials, in accordance with customary State practice, even if such communications urge legislative officials to favor or oppose the adoption of a specific pending legislative proposal.

1. By signing and submitting this proposal, the prospective primary participant is providing the certification set out below and agrees to comply with the requirements of 2 CFR Parts 180 and 1300.

The prospective participant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the department or agency's determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

57.) **Press Releases**
In addition to the grant award press release, OVI Task Forces are required to conduct three press conference events (one in coordination with the Drive Sober or Get Pulled Over alcohol crackdown), promote the task force through press releases and publicize checkpoints as required by law. OTSO will provide media toolkits for the blitzes and enforcement campaigns to assist with these efforts.

58.) **Enforcement Hours Eligibility**
Direct labor hours expended in traffic safety enforcement programs must be over and above the normal active pay status workweek as defined in the sub-recipient’s current labor agreement or departmental policy. Part-time permanent staff members are eligible for funding, with prior approval by OTSO. Only one officer per patrol car will be funded as part of traffic enforcement grants. All full time officers working on OTSO grant must be paid their actual overtime hourly rate.

59.) **Transportation Costs**
OTSO will reimburse a maximum of five percent of direct labor costs (saturation patrol and checkpoint hours for both the lead and participating agencies) for the agency to put towards fuel/transportation costs. Do not include coordination or education costs in the labor costs. Mileage logs, receipts, etc. are not required to be submitted with reimbursement claims, but must be maintained by the agency for auditing purposes.

60.) **Education Efforts**
OTSO will reimburse for hours/costs spent towards education efforts for OVITF grants. These efforts can be used towards educating students, the general public at events, or officers and must be consistent with traffic safety problem identification (no interview techniques or other courses not related to traffic safety). Education efforts must be submitted to and approved by OTSO on a Request to Purchase form prior to incurring
any costs. A total of five percent of direct labor costs (do not include coordination costs) will be allowed towards education efforts.

61.) **Participating Law Enforcement Agencies**
Participating law enforcement agencies performing activity under this grant must be paid for activity performed before reimbursement will be paid to the lead agency.

62.) **Documentation for Overtime Activity with Participating Agencies**
Documentation (check numbers, EFT, or DD) that the lead agency paid participating agencies working under the grant must be provided. Additional information may be requested.

63.) **Personnel Activity Reports**
Personnel Activity Reports are required for all coordination hours on this federal grant program. These reports, at a minimum, must document date worked, detailed explanation of activity performed and the number of hours per day to be charged to this agreement. Individuals working on more than one grant, must also include start and end times in the description. This document must be signed and dated by the individual and their immediate supervisor. It must be included as a part of the expenditure report documentation.

**Safe Communities**

64.) **Coalition Meetings**
Safe Communities programs must conduct a minimum of four coalition meetings during the grant period. Copies of signature rosters and the coalition meeting agenda must be kept on file and made available during an OTSO grant monitoring visit. Notice of meetings must be sent to the assigned planner and LEL.

64.) **Kick-Off Events**
Each Safe Communities program is required to conduct a “Click It or Ticket” and a “Drive Sober or Get Pulled Over” kick-off event. Each Safe Communities must conduct their own event in their own county. The CIOT event must be no earlier than May 17, 2021 and no later than May 28, 2021. The DSOGPO event must be no earlier than August 13, 2021 and no later than August 27, 2021. These events must include participation, at a minimum, by your coalition members, local law enforcement, community leaders, and the media. Each Safe Communities must complete and submit a Kick-off Event Form by the required deadline. Each form will be reviewed for content. Additional participation in an adjacent county’s event will be considered on a case by case basis.

65.) **Fatal Crash Data Review Committee**
A Fatal Data Review Committee will meet in any quarter that a fatality has been reported in the county to review fatal crash reports to identify patterns or trends that could increase impact of traffic safety countermeasures. Notice of meetings must be sent to the assigned planner and LEL.

66.) **Reporting of Fatality Information**
In order for communities to be kept informed on fatal crashes occurring in their areas, each Safe Communities program is required to report to their local media, at least quarterly, on the fatal crashes occurring in the communities. This notification will be
structured similar to a template developed by OTSO. Notification shall be sent to the media no later than the 15th of the month following the ending quarter. For example: Fatalities occurring in October, November and December must be reported by January 15th. Media can include: television, radio, newspapers, etc. Copies of these releases must be kept in file and will be subject to review by OTSO.

Terms and Conditions for All Grants

The following terms and conditions must be met in order to obtain and conduct a federally-funded traffic safety program. Upon approval of this grant award, these terms and conditions will become a part of the executed agreement. The term “sub-recipient” refers to the Administering Agency of the project.

1.) **Agreement**
   Any inconsistencies between agreements and any attached documents shall be resolved in favor of the most current revised agreement on the online system, which shall be the controlling document. All activities conducted under this grant program must address problem ID as shown in the county profile and be data driven and evidence-based. “Countermeasures That Work” must be used to determine the work plan activities to achieve the goals of the grant.

2.) **Legislative Authority**
   The Authorizing Official shall obtain the legal legislative authority necessary to implement the activity, to make expenditures and to receive funds, as set forth by this agreement.

3.) **Nondiscrimination**
   The sub-recipient will comply with all Federal statutes and implementing regulations relating to nondiscrimination (“Federal Nondiscrimination Authorities”). These include but are not limited to:

   - **Title VI of the Civil Rights Act of 1964** (42 U.S.C. 2000d *et seq.*, 78 stat. 252), (prohibits discrimination on the basis of race, color, national origin) and 49 CFR part 21;

   - **The Uniform Relocation Assistance and Real Property Acquisition Policies Act** of 1970, (42 U.S.C. 4601), (prohibits unfair treatment of persons displaced or whose property has been acquired because of Federal or Federal-aid programs and projects);

     **Section 504 of the Rehabilitation Act of 1973**, (29 U.S.C. 794 *et seq.*), as amended, (prohibits discrimination on the basis of disability) and 49 CFR part 27;

   - **The Age Discrimination Act of 1975**, as amended, (42 U.S.C. 6101 *et seq.*), (prohibits discrimination on the basis of age);

   - **The Civil Rights Restoration Act of 1987**, (Pub. L. 100-209), (broadens scope, coverage and applicability of Title VI of the Civil Rights Act of 1964, The Age Discrimination Act of 1975 and Section 504 of the Rehabilitation Act of 1973, by expanding the definition of the terms "programs or activities" to include all of the programs or activities of the Federal aid recipients, sub-recipients and contractors, whether such programs or activities are Federally-funded or not);
• Titles II and III of the Americans with Disabilities Act (42 U.S.C. 12131-12189) (prohibits discrimination on the basis of disability in the operation of public entities, public and private transportation systems, places of public accommodation, and certain testing) and 49 CFR parts 37 and 38;

• Executive Order 12898, Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations (prevents discrimination against minority populations by discouraging programs, policies, and activities with disproportionately high and adverse human health or environmental effects on minority and low-income populations); and

• Executive Order 13166, Improving Access to Services for Persons with Limited English Proficiency (guards against Title VI national origin discrimination/discrimination because of limited English proficiency (LEP) by ensuring that funding recipients take reasonable steps to ensure that LEP persons have meaningful access to programs (70 FR at 74087 to 74100).

The sub-recipient —

• Will take all measures necessary to ensure that no person in the United States shall, on the grounds of race, color, national origin, disability, sex, age, limited English proficiency, or membership in any other class protected by Federal Nondiscrimination Authorities, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any of its programs or activities, so long as any portion of the program is Federally-assisted.

• Will administer the program in a manner that reasonably ensures that any of its subrecipients, contractors, subcontracts, and consultants receiving Federal financial assistance under this program will comply with all requirements of the Non-Discrimination Authorities identified in this Assurance;

• Agrees to comply (and require any of its subrecipients, contractors, subcontracts, and consultants to comply) with all applicable provisions of law or regulation governing US DOT's or NHTSA's access to records, accounts, documents, information, facilities, and staff, and to cooperate and comply with any program or compliance reviews, and/or complaint investigations conducted by US DOT or NHTSA under any Federal Nondiscrimination Authority;

• Acknowledges that the United States has a right to seek judicial enforcement with regard to any matter arising under these Non-Discrimination Authorities and this Assurance;

• Insert in all contracts and funding agreements with other State or private entities the following clause:

c. To permit access to its books, records, accounts, other sources of information, and its facilities as required by the State highway safety office, US DOT or NHTSA;

d. That, in event a contractor/funding recipient fails to comply with any nondiscrimination provisions in this contract/funding agreement, the State highway safety agency will have the right to impose such contract/agreement sanctions as it or NHTSA determine are appropriate, including but not limited to withholding payments to the contractor/funding recipient under the contract/agreement until the contractor/funding recipient complies; and/or cancelling, terminating, or suspending a contract or funding agreement, in whole or in part; and

e. To insert this clause, including paragraphs a through e, in every subcontract and subagreement and in every solicitation for a subcontract or sub-agreement, that receives Federal funds under this program.

The sub-recipient will provide a drug-free workplace by:

a. Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession or use of a controlled substance is prohibited in the grantee's workplace and specifying the actions that will be taken against employees for violation of such prohibition;

b. Establishing a drug-free awareness program to inform employees about:
   - The dangers of drug abuse in the workplace.
   - The grantee's policy of maintaining a drug-free workplace.
   - Any available drug counseling, rehabilitation, and employee assistance programs.
   - The penalties that may be imposed upon employees for drug violations occurring in the workplace.
   - Making it a requirement that each employee engaged in the performance of the grant be given a copy of the statement required by paragraph (a).

c. Notifying the employee in the statement required by paragraph (a) that, as a condition of employment under the grant, the employee will –
   - Abide by the terms of the statement.

   - Requiring such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency.

f. Making a good faith effort to continue to maintain a drug-free workplace through implementation of all the paragraphs above.

5.) **Buy America Act**

The State and each subrecipient will comply with the Buy America requirement (23 U.S.C. 313) when purchasing items using Federal funds. Buy America requires a State, or subrecipient, to purchase only steel, iron and manufactured products produced in the
United States with Federal funds, unless the Secretary of Transportation determines that such domestically produced items would be inconsistent with the public interest, that such materials are not reasonably available and of a satisfactory quality, or that inclusion of domestic materials will increase the cost of the overall project contract by more than 25 percent. In order to use Federal funds to purchase foreign produced items, the State must submit a waiver request that provides an adequate basis and justification to and approved by the Secretary of Transportation.

6.) Political Activity (Hatch Act)
The sub-recipient will comply with provisions of the Hatch Act (5 U.S.C. 1501-1508), which limits the political activities of employees whose principal employment activities are funded in whole or in part with Federal funds.

7.) Certification Regarding Federal Lobbying

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

3. The undersigned shall require that the language of this certification be included in the award documents for all sub-award at all tiers (including subcontracts, subgrants, and contracts under grant, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

8.) Restriction on State Lobbying
None of the funds under this program will be used for any activity specifically designed to urge or influence a State or local legislator to favor or oppose the adoption of any specific legislative proposal pending before any State or local legislative body. Such activities include both direct and indirect (e.g., "grassroots") lobbying activities, with one exception. This does not preclude a State official whose salary is supported with NHTSA funds from
engaging in direct communications with State or local legislative officials, in accordance with customary State practice, even if such communications urge legislative officials to favor or oppose the adoption of a specific pending legislative proposal.

9.) Certification Regarding Debarment and Suspension

Instructions for Primary Certification (States)

1. By signing and submitting this proposal, the prospective primary participant is providing the certification set out below and agrees to comply with the requirements of 2 CFR Parts 180 and 1300.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. The prospective participant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the department or agency's determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when the department or agency determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default or may pursue suspension or debarment.

4. The prospective primary participant shall provide immediate written notice to the department or agency to which this proposal is submitted if at any time the prospective primary participant learns its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

5. The terms covered transaction, debarment, suspension, ineligible, lower tier, participant, person, primary tier, principal, and voluntarily excluded, as used in this clause, have the meaning set out in the Definitions and coverage sections of 2 CFR Part 180. You may contact the department or agency to which this proposal is being submitted for assistance in obtaining a copy of those regulations.

6. The prospective primary participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is proposed for debarment under 48 CFR part 9, subpart 9.4, debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by NHTSA.

7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Instructions for Lower Tier Certification" including the "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion—Lower Tier Covered Transaction," provided by the department or agency entering into this covered transaction, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions and will require lower tier participants to comply with 2 CFR Parts 180 and 1300.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not proposed for debarment under 48 CFR part 9, subpart 9.4, debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the list of Parties Excluded from Federal Procurement and Non-procurement Programs.

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is proposed for debarment under 48 CFR part 9, subpart 9.4, suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, the department or agency may disallow costs, annul or terminate the transaction, issue a stop work order, debar or suspend you, or take other remedies as appropriate.

(2) Where the prospective primary participant is unable to certify to any of the Statements in this certification, such prospective participant shall attach an explanation to this proposal.

Instructions for Lower Tier Certification
1. By signing and submitting this proposal, the prospective lower tier participant is providing the certification set out below and agrees to comply with the requirements of 2 CFR Parts 180 and 1300.

2. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

3. The prospective lower tier participant shall provide immediate written notice to the person to which this proposal is submitted if at any time the prospective lower tier participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

4. The terms *covered transaction*, *debarment*, *suspension*, *ineligible*, *lower tier*, *participant*, *person*, *primary tier*, *principal*, and *voluntarily excluded*, as used in this clause, have the meanings set out in the Definition and Coverage sections of 2 CFR Part 180. 6. The prospective lower tier participant further agrees by submitting this proposal that it will include the clause titled "Instructions for Lower Tier Certification" including the "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion – Lower Tier Covered Transaction," without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions and will require lower tier participants to comply with 2 CFR Parts 180 and 1300.

7. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not proposed for debarment under 48 CFR part 9, subpart 9.4, debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the List of Parties Excluded from Federal Procurement and Non-procurement Programs.

8. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

9. Except for transactions authorized under paragraph 5 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is proposed for debarment under 48 CFR part 9, subpart 9.4, suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, the department or agency with which this transaction originated may disallow costs, annul or
terminate the transaction, issue a stop work order, debar or suspend you, or take other remedies as appropriate.

Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion Lower Tier Covered Transactions:

2. Where the prospective lower tier participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.

10.) **Prohibition On Using Grant Funds To Check For Helmet Usage**
The State and each subrecipient will not use 23 U.S.C. Chapter 4 grant funds for programs to check helmet usage or to create checkpoints that specifically target motorcyclists.

11.) **Policy on Seat Belt Use**
In accordance with Executive Order 13043, Increasing Seat Belt Use in the United States, dated April 16, 1997, the Grantee is encouraged to adopt and enforce on-the-job seat belt use policies and programs for its employees when operating company-owned, rented, or personally-owned vehicles. The National Highway Traffic Safety Administration (NHTSA) is responsible for providing leadership and guidance in support of this Presidential initiative. For information on how to implement such a program, or statistics on the potential benefits and cost-savings to your company or organization, please visit the Buckle Up America section on NHTSA's website at www.nhtsa.dot.gov. Additional resources are available from the Network of Employers for Traffic Safety (NETS), a public-private partnership headquartered in the Washington, D.C. metropolitan area, and dedicated to improving the traffic safety practices of employers and employees. NETS is prepared to provide technical assistance, a simple, user-friendly program kit, and an award for achieving the President's goal of 90 percent seat belt use. NETS can be contacted at 1 (888) 221-0045 or visit its website at www.trafficsafety.org.

The Administering Agency certifies that an "employee seat belt usage policy" is in place that requires employees to wear seat belts while working on agency business. This policy will be made available for review by OTSO representatives upon request.

12.) **Policy to Ban Text Messaging While Driving**
In accordance with Executive Order 13513, Federal Leadership On Reducing Text Messaging While Driving, and DOT Order 3902.10, Text Messaging While Driving, States are encouraged to adopt and enforce workplace safety policies to decrease crashes caused by distracted driving, including policies to ban text messaging while driving company-owned or -rented vehicles, Government-owned, leased or rented vehicles, or privately-owned when on official Government business or when performing any work on or behalf of the Government. States are also encouraged to conduct workplace safety initiatives in a manner commensurate with the size of the business, such as establishment of new rules and programs or re-evaluation of existing programs to prohibit
text messaging while driving, and education, awareness, and other outreach to employees about the safety risks associated with texting while driving.

13.) **Limitations**
This agreement is a commitment to perform the work identified herein and this authorization is limited to:

A.) The scope of work performed after the “Authorized to Proceed” and before the “Agreement Termination” dates, as specified in the transmittal letter.

Brief Description of Project:
The Montgomery County OVI Task Force is an initiative to conduct sobriety checkpoints, impaired driving saturation patrols, public awareness and education. The top alcohol-related fatal crash counties must have an average of 6+ fatal crashes in the past three years. The grant requests a minimum of 16 checkpoints be conducted. Other activities are focused on saturation patrols and enforcement. There are more than 16 jurisdictions who participate in the task force. The City will receive $224,997.26 under the grant program for 2021. The grant will only reimburse the City for hourly rate, pension and Medicare benefits, so we will transfer the unreimbursed amount of $2,349.18 into the future grant fund.

The OVI grant application is submitted electronically and the City Manager agrees for Police Department staff to submit this grant on her behalf.

iv. All remaining assets and other intangibles shall be equally divided among all members after all liabilities, if any, have been satisfied.

X. Severability. In the event any part of portion of this Agreement is found to be contrary to law and thereby held to be null and void, all other provisions of the Agreement shall remain in full force and effect, and shall not be otherwise effected by an such ruling, finding or decision.

XI. Amendment. This Agreement may be amended by concurrent action by the legislative authorities of all member political subdivisions which are parties hereto.
IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be executed by their duly authorized representatives as of the date written.

SUBJECT: Emergency Resolution approving Wright-Patterson Council of Governments Formation

Attached for your review and placement on the October 7, 2020, City Commission Calendar is an Emergency Resolution and accompanying Agreement for Participation in the Wright Patterson Regional Council of Governments (COG). Please read the Resolution twice at one meeting.

After several Dayton Development Coalition meetings with jurisdictions surrounding Wright-Patterson, creation of a COG was arrived upon as the most effective method to obtain a grant from the Office of Economic Adjustment (OEA) for a Compatible Use Program (CUP). Though it could eventually evolve over time, the sole purpose of establishing this COG is to be more competitive in obtaining a CUP grant.

A CUP provides technical and financial assistance to state and local governments to plan and carry out civilian actions necessary to alleviate and/ or prevent incompatible civilian development and other civilian activities that are likely to impair the continued operational utility of a Department of Defense facility.

The Department of Law has reviewed both the Resolution and the Agreement for Participation as to form and correctness.

If you have any questions or require additional information, please contact me at extension 4209

Please let me know if you have additional questions.

Thank you.
