---

The City of Dayton is conducting an online survey about raising chickens in residential areas.

The Department of Planning and Community Development may propose zoning code text amendments that would allow chickens to be kept and raised within the Dayton city limits. Input from residents is sought before any zoning changes are proposed.

The 13-question survey will be available through April 7 and can be completed in less than five minutes. It is located at [surveymonkey.com/r/DaytonChickens](http://surveymonkey.com/r/DaytonChickens).
