Boil advisory canceled for all City of Dayton customers

Release Date: Wednesday, Aug. 5, 2020
Contact: Toni Bankston, Public Affairs toni.bankston@daytonohio.gov

The water boil advisory for ALL City of Dayton water customers is canceled. City of Dayton water customers do not need to boil water prior to consumption.

As of 4:45 PM today, all water samples collected by the City of Dayton were absent of bacteria.

City customers are advised of the following before using tap water:

- If water has not been used for several hours, run the tap until there is a noticeable temperature drop.

- Then, run water for 30 seconds to 3 minutes before using it for drinking and cooking. This helps flush water that may have contained lead that may have leached from plumbing.

- Clean your faucet aerator. Flushing water lines includes interior and exterior faucets, showers, water and ice dispensers.
