Technical Assistance Workshop Q&A

I. Northwest Library Branch Meeting

1. Can I get funded for a grant greater than 50% of my operating budget?
   A. This requirement is only for the Small Business-Hospitality NOFO. It does not apply in the Community Investments NOFO. The Idea Box does not require to submit this information.

2. Is the City wanting us to collaborate with others for community grants?
   A. Yes, although it is not required, it is the intent of the funding to make robust impact by leveraging community partners to work towards a transformational project. The application will also receive more awarded points for partnering.

3. Do all in-kind funded business partners have to be in Dayton?
   A. No, partners do not have to be in the City of Dayton.

4. Is the city only looking at 2020 taxes or will they accept 2019 for those businesses impacted by COVID-19?
   A. Yes, the City is willing to look at 2019 taxes for businesses impacted in 2020 by COVID-19.

5. Are reimbursement funds part of the scoring rubric?
   A. No, the request to receive the money up front or to go the reimbursement for money spent does not impact the project score. The City just simply needs to know for internal processing purposes.

6. Did the city/state/Fed gov’t set the 50% operating budget limit?
   A. The City set the limit but is given the ability to do so in accordance with US Treasury Interim Rules.

7. If partnering with another company, can their operating budget be included in the total operating budget?
   A. Yes, leveraged partnerships can include their budget as well. The total allowable will be 50% of the combined budgets if applying for the small business-hospitality notice of funding opportunity. Organizations applying for the Community Investments NOFO can also leverage their funding to show partnerships and are not required to adhere to the 50% capacity requirement.

8. Is all funding going to the community?
   A. All of the funding is being used to impact the community. This is being done through a variety of outlets because of the requirements around the facilitation of those purposes. Some of the funding will help keep essential operations running, which is an allowable expenditure through the guidance. There was an internal process similar to the NOFO process with the caveat that projects needed to have community focus. These are still being reviewed. The external projects being requested through the NOFO process as it is currently being facilitated. And the final process, which is more of a compliment to the funding, than a direct use of, is the facilitation of the Stimulus Command Center, where the City is working with community partners to help create citywide projects to make transformational changes by leverage the various funding pools.

9. How many partners can be involved in the idea box submissions and how many submissions are we allowed to have?
   A. There is no limit to how many Ideas can be submitted nor are there limitations on how many partners can be involved in any one project for the Idea box.
10. Can you partner w/another company, and do you include their operating budget as well?
   A. See question 7

11. Is there a financial cap on each project?
   A. There is no financial cap. However, ARPA funding for the SBH-ARPA grant has been limited to 50% of the
      annual operating budget for the small business-hospitality NOFO.

12. My business is in Dayton, but I have a partner in Columbus, does that DQ me from submitting since they are not
    in Dayton?
   A. No, this does not disqualify them. If the submitting company is from Dayton and the project is for Dayton and
      they are applying for the Community Investments. If neither company is in the City proper, they will not be
      eligible for the small business-hospitality NOFO award.

13. Per deadline of 29 Oct 21 5pm, what type of reports must be submitted after initial application is finished?
   A. The required documents are listed in the NOFO and in the application. Additional documentation that may
      be required if awarded will be required in the awarding phase.

14. A business partner of mine started in 2020 but not for the entire year, can I still partner with them?
   A. Yes, as long as you are the grantee and will be receiving the funds and your business has been in operation
      for all of 2020.

15. If my business was shut down in 2020 due to COVID-19, can I still apply?
   A. I say yes since COVID-19 closed a lot of businesses. You should make sure to submit proper documentation
      to show that COVID was the cause of the business shut down.

16. Is there a limit if applications per organization?
   A. One for small business or community. However, you can submit multiple for the idea box.

17. What is the difference between internal and external applications?
   A. Internal is for City recommend Projects for the neighborhoods (i.e., sidewalks, streets, parks, etc.), external
      refers to the Notice of Funding Opportunities for the Community Investments, Small Business-Hospitality and
      Idea Box provided to the City by the organizations and folks in the Dayton communities.

18. What happens to unused funds?
   A. Per the Federal guidelines, which can be found by looking up 2 C.R.F. §200, they will be returned.

19. For internal projects, will that affect the total overall funding being paid out?
   A. See response to question #8.

20. Has the City allocated any specific amount of funding for internal/external projects?
    A. No, there has not been any set amounts for internal/external projects.

21. Can we use other Dayton business partners?
    A. Yes, it is encouraged and will score higher on the grading process versus a submission without partners.
22. If the City (internal projects) is awarded $100M for internal projects, does that mean the external projects will compete for the other $38M?
   A. The total amount of the grant funds will cover all the necessary aspects of facilitating the funds, which include, but is not limited to, the Administrative Costs, Revenue Replacement, community-based projects, economic development, addressing negative impacts from COVID19, assisting small business, and focusing on black and brown owned businesses. The internal/external only references the people putting forth the idea because the funding is all community focused and in accordance with the US Treasury Interim Guidance and will be verified by the final guidance once it has been released.

23. Does zoning need to be in place for projects to apply?
   A. Zoning will need to occur as normal as the projects begin.

24. Are there any issues with pursuing non-traditional projects?
   A. No, not as long as it has a nexus to COVID-19 and it not a one of the ineligible forms of business, then one can apply.

25. Does construction need to be started/completed by 2024 or only funded?
   A. Project needs to be approved and funded and completed within 36 months? All funds must be obligated by 31 Dec 2024 and expended by 31 Dec 2026. However, the City is putting in place the 36 months because there has to be allowable time to do make sure all the administrative work has been completed by both the awarded organization and the City to meet that December 31, 2026, deadline requirement.

26. Can you geographically define the tornado impacted area?
   A. Please see Community Small Business NOFO map.

27. How many board members are on the community advisory board?
   A. There is a total of # people on the official board. They are a mix of representation regarding gender, age, race, and occupation representation. This is a City Manager facilitated board.

28. Who established all the timelines for the ARPA applications? Why did we get so little time to apply?
   A. The City Manager in conjunction with the Mayor and Commissioners set this timeline for the plan to be determined by the end of 2021 so that there will 3 focused and solid years to spend the money. If you are interested in participating, you have a full 6 weeks to submit the application. Awards will not take place until after the first of the year. Details around each project will be worked as those awards are progressed.

29. Can the 29 Oct deadline be extended?
   A. No, it cannot. The City is under strict timelines so current suspense must be met/kept.

30. When did the City decide on the current deadline for the application?
   A. Please see question #28.

31. What is the City’s definition of “Affordable Housing”?  
   A. Mortgage or rent cannot exceed more than 30% of annual gross income for a family. We need to use HUD definition here*****

32. Will there be a prepopulated spreadsheet in the application for members to upload their financial information? Is the whole analysis required by the 29 Oct deadline?
A. Yes, there will be a spreadsheet to populate with the application. Only the operating budget and other required docs are needed by the deadline. The others will be asked for at prescribed times throughout your project’s timeline.

33. How many people are on the Community Advisory Board and how were they selected?
   A. Ten total; 7 of these people represent external organizations, 3 of these folks represent City staff. The decision was made and approved by the CNDAB board.

34. Can you collaborate on more than one project?
   A. Yes, you can collaborate on more than one project, but you can only be funded for one. Your funding should be allocated accordingly since you cannot commit your total operating budget for every project.

35. How are you ensuring inclusive representation on the advisory board committee?
   A. This Board is comprised of individuals that represent a range of gender, age, race, and area of focus.

36. Why weren’t there any pamphlets/handouts (interim guidance booklets) for members to take home and review as needed?
   A. To keep cost down and to make everything available on-line for one-stop shop. You can download everything you need from going to www.daytonohio.gov/arpa. There are public spaces, such as the library, that can help in this action.

37. Has the City identified any internal project areas being looked at already?
   A. No. All projects are currently under review and will not be finalized until all external applications have been received in the efforts of leveraging and layering to create the greatest long-term neighborhood impact.

38. How many points do I lose if my project is not located in a QCT area?
   A. The targeted geography is located within the scoring matrix with the social and economical racial disparities. The 15 points will be spread out between those items.

39. Is there a timeline for when my project should show ROI or synergy with other businesses/community impact?
   A. The City would like to see the ROI looking forward 3 to 5 years.

40. Am I allowed to submit an application with multiple non-profit partners?
   A. Yes. However, all parties must be in good standing and not be considered an ineligible business or involved in illegal matters. If you are partnering, you must disclose on the application so that the funding isn’t misrepresented if multiple awards would be made.

II. Business Solutions Center Technical Workshop Questions (West Meeting)

41. What counts as active operations for the entire calendar year?
   A. An active calendar year 2020 means your business was operating from January through December 2020. However, if your business was impacted by COVID-19 then show proof of operation for previous calendar year.

42. What counts as City of Dayton city limits?
   A. See attached map.
43. Can these applications have competing organizations from outside of the Dayton area? Taking funding away from City organizations.
   A. The SBH-ARPA requires the businesses to be located within the City. The C-ARPA requires that the project be specifically geared to City residents but allows the company to be outside the City limits. However, the City highly encourages the use and support of City businesses.

44. Will be there any type of formula that will benefit local organizations?
   A. There is a scoring rubric that will be used to evaluate each application. Please use the rubric as a guide when developing your plan and submitting your application.

45. Will someone be looking for similarities in projects between the various NOFOs?
   A. Yes. The Guidehouse team along with review board will categorize “like” projects with potential partnerships and possible leveraging opportunities.

46. As consultants, is there a database to partner with other businesses or see other projects?
   A. See question 45. The sign in sheets from each workshop is also available for interested parties to make connections as well.

47. What do you mean by side gig or hobby businesses?
   A. “Side Gig” is defined as any work/business performed that is not your primary source of earned income. “Hobby Business” is any activity one partakes in that does not generate income.

48. Does the definition include side gigs that they are interested in making that their main income?
   A. If you are just making some extra income on the side the chances are good your gig isn't something you are looking to grow into. It just is what it is: a gig, and it is serving its purpose of providing you with a bit of extra income whether that is to boost your savings, pay off some debt, or enjoy some vacation time.

49. This is direct access to funding?
   A. Once approved, funding will be granted either upfront or through reimbursements

50. Is there a way to protect intellectual property with the ideas?
    A. The City has every intent to ensure the original idea provider be credited with the work. However, if there is a concern on the behalf of the idea provider, there are two ways to help secure your copyright are to place a copyright notice on all copies of the work, and to register your copyright. Registration is not required, but if someone illegally copies your work, you may have a more difficult time proving your copyright in court if it is not registered. Copyrights may be registered with the United States Copyright Office.

51. Would the city make an effort to engage with the person or organization with the intellectual property?
    A. Yes, please also see response to question 50.

52. What are the measures in place to ensure fairness and equity with these applications?
    A. The City has made it imperative to ensure fairness and equity. Additionally, they have diversity inclusion SME, Crystal Waters, who is dedicated to leading the charge for this effort.

53. If you are partnering with another agency for the small business/hospitality NOFO... Does the 50% of an organization’s annual operating budget apply still - Does that include if you are working with another agency?
A. The total ask cannot exceed half of the total combined budget of the inputting organizations. If an organization is partnering on multiple projects, the organization should only include the budget for consideration that is going to be dedicated to that project and not their total budget.

54. If you have a project and pieces of it fit within the various NOFOs- should you submit an application in both or in one space or the other?
   A. It is the City’s opinion that the organization should choose one NOFO area to make their request.

55. What is the definition of affordable housing?
   A. See question 31.

56. Can ARPA be used to match other federal funding pots?
   A. No. Recovery funds are subject to pre-existing limitations in other federal statutes and regulations may not be used as non-federal match for other federal programs whose statute or regulations bar the use of federal funds to meet matching requirements.

57. In terms of onetime expense definition – Does that include investments in technology, equipment, soft cost, consultants, marketing, and project management?
   A. Yes, these items, if related to the project, could be included. However, the organization would have to demonstrate how they would absorb all ongoing costs associated with these requests.

58. Is the City vendor compliance form and application requirement for qualification?
   A. The city vendor compliance form is a required document to submit a complete package. Please review the NOFO to ensure you submit all the required supporting documents with your application.

59. Will we get to see the scoring rubric for each NOFO?
   A. They are attached with each NOFO. Please view them on the City of Dayton website.

60. Are there any other relevant documents that you would recommend submitting with application?
   A. Please review the NOFO for required documents. Additionally, be aware that if your project is funded you will be asked to provide further documentation at prescribed times.

61. Is there a preference for the city where the project is reimbursable or if you need money up front and is that part of the scoring process?
   A. There is no preference and no, your application score is not affected by either preference. See response to question

62. Development to access to innovate space – is that a potential project?
   A. Specific project considerations should be submitted through the application process and will not be answered in the general FAQ format.

63. If the organization needs transportation... can organizations apply for the purchase of those vans?
   A. Again, specific project questions will not be answered in the general FAQ format. Any requested must show the original cost and how the on-going costs will be covered to maintain and operate that service.

64. Do we have to submit state or federal business tax returns?
   A. Federal tax returns for 2020 year or 2019 if impacted by COVID-19.
65. Are the deadlines set by State or Federal level or Guidehouse?
A. Application process is set by the city.

66. Will a second round of NOFO’s happen when the second tranche of money is received?
A. No, the NOFO process for this particular funding is being done on the front end, knowing that the money was to be provided in two tranches and the City would not receive the second half of funds until spring 2022.

67. Does it matter who would be holding the deeds on properties. For example, a tech company ion California partnering with my company in Dayton. They are holding the deed. Are we able to apply for funding to renovate/construct affordable housing projects?
A. It doesn’t matter. If 100% of funding is benefitting the Dayton community and no funding is benefitting California partner. Yes, you should be eligible to apply as long as you satisfy all the eligibility requirements.

III. CHRIST EVANGELICAL LUTHERAN CHURCH

68. Are folks able to see the survey on the website?
A. Yes, the survey summary results can be found on the website. The actual survey is not posted because the results are a combination of in person and online results.

69. Can you see the demographics of who completed the survey?
A. No, these are not posted because they were not forced to answer the questions and do not provide measurable data.

70. How did you capture the comments for the survey?
A. They were written in and provided verbatim to the link. If any were missed, it was unintentional.

71. Definition of a side gig or hobby business.
A. Please see question 47.

72. Did Dayton get a fair share of the Billions of dollars of the ARPA funding?
A. Yes. It is based on population.

73. For the for-profit businesses that are eligible can they receive funding for their business to receive a profit or boost?
A. No. The Community and Small Business NOFOs are designed in mind of funding those projects that have a profound positive impact on the communities they serve. These funds are not intended to recover revenue losses but to improve future capital gains for small businesses while supporting the communities.

74. Has ARPA funding been spread out equally?
A. Yes. For cities $65 billion was divided between jurisdictions that are Community Development Block Grant (CDGB) entitlement jurisdictions and those that are not. $45 billion of the $65 billion will be allocated to metropolitan cities utilizing a modified CDBG formula.

75. Are you going to limit the number of applications an organization can apply?
A. Yes. 1 application per organization between the C-ARPA and the SBH-ARPA. Submitting to either of these does not preclude you from submitting to the idea box as well.
76. Do you have a cap on the amount of funding an applicant can receive?
   A. For Community/hospitality there is no cap. For Small business the cap is set at 50 percent of the total submitted operating annual budget.

77. Are you going to incentivize projects that try to leverage other partners?
   A. There are no incentives for partnering with other organizations. However, the city highly recommends and encourages leveraging partnerships.

78. Is broadband not an option to submit for these NOFOs?
   A. Yes, this is an allowable option to submit.

79. Under these categories if you hit multiple categories make sure you have the appropriate administration to do the reporting of the backend...
   A. This was a general statement made during the conversation that needs to be taken in earnest account for all applying for funds, as the funding will be governed by the Federal 2 CFR §200 guidelines.

80. How would you know if there is anyone on the community board who will receive money?
   A. The people are not receiving money- it is businesses and organizations. The project requests are what is being funded and they are required to be geared towards the community.

81. Is the process open to the public on how it will work for the NOFO including grading/scoring?
   A. Currently this process will follow the City’s RFP and CDBG guidelines for public procurement.

82. New idea box sounds like an afterthought, mini grant...
   A. It’s a separate category gathering ideas of certain projects that may not quite be able to qualify alone but may be grouped with like partners to apply together later.

83. How does the idea box application differ from the other NOFO applications?
   A. See previous questions. Additionally, the Community and Small Business NOFOs are designated for small businesses and non-profit organizations that if awarded will receive funding for projects that improve their respective communities and/or their future capital gains.

84. Does the city have the final guidelines? Not from treasury but are the City of Dayton guidelines final.
   A. Yes, please see the Community/Hospitality NOFO, the Small Business NOFO, and the Idea Box NOFO for current guidelines and information. Please note that these guidelines are subject to change depending on new updates and requirements from the Treasury Department.

85. Where does the City stand on demolition of properties?
   A. Although demolition was a high priority on the survey, the current interim final guidance deems this an ineligible funding request. However, the city has elevated the concern to a higher authority and is awaiting a response.

86. Can a sole proprietorship LLC business apply even though their business taxes are reported through their personal taxes?
   A. Please see the list of definitions to make the determination. The definitions are directly from the state of Ohio guidelines.
IV. BUSINESS SOLUTION CENTER

87. Do we have regular monthly where we have to input information to if I receive funding?
   A. Yes - regular reporting that will have to be done on the backend to ensure funding is being used in the right manner.

88. If two non-profits apply who have similar projects will they automatically be put together and have the funding split?
   A. No, if they are grouped together, only one will be responsible for receiving and distributing the funds as necessary. They will also be responsible for submitting all required documents throughout the execution of the project.

89. If there are 3 organizations already grouped together, how should they go about it?
   A. Have the lead organization apply, and they will note in the application that you are partnering together. The lead organization will control the funds and will also be responsible for all reporting requirements needed to validate proper usage of funds.

90. Do we have to request 50% of our annual budget?
   A. You can only request 50% of your annual budget for the ARPA-SBH (Small Business/Hospitality) NOFO. There is no limit for the APRA-C (Community Improvement) NOFO, but there is no guarantee that you will receive the full amount you requested. This funding is not intended to be the only source of funding for the project, but rather a compliment to other collaborations.

91. How do you find out if someone is already applying for the same type of project you are submitting?
   A. The Dayton plan will compile like projects together and make recommendations on possible partnerships with the organizations with similar projects before formal awards are made.

92. How does demolition tie into covid related?
   A. Many of the blight areas are in the QCT (Quality Census Tract) locations. These areas are considered historically underserved and have faced inequalities for decades. Although demolition may not be directly tied to COVID-19, replacing blighted areas with community centers, parks, outreach clinics will better serve those communities and have a positive impact on members living in those regions who were impacted by the pandemic. This ties back to COVID-19 and also improving the under-served communities, which is eligible for consideration.

93. How do we make sure that these issues from the public survey are priorities?
   A. The items listed on the survey were taken from the public. However, they were not ranked but these were the responses from the people of Dayton. The city has shared this information publicly to give everyone a chance to view what the people want. The city hopes that as members apply, they align their projects with that in mind.

94. Will the funds be used for what they will be used for and not be diverted like they have been in the past?
   A. The City has made a very public and intentional effort to include the community in this process and has no intentions of diverting funds awarded to this process. Additionally, there is a Checks and Balance system in place to provide oversight and guidance for approved projects. Organizations will have to provide accurate details throughout the project timelines. Projects will be audited, and those individuals will be held legally responsible for maintaining their project’s funding requirements.
95. Can you incorporate other homes in the neighborhood around the properties someone who wants to apply owns?
   A. This funding is meant to have a positive, layered, and long-lasting community impact. There is not intended focus on land purchases. Requester would need to demonstrate the requests Nexis to COVID19 and community benefit. Applications just requesting to purchase land without these factors will not be considered.

96. Do you think the grants can support services for those seeking asylum or do not speak English?
   A. Yes, this would fall under the Public Health Crisis Response. The pandemic affected everyone including those members seeking asylum from other countries. Your project must meet all the requirements outlined the ARPA-C or APRP-SBH NOFO guidelines and will require a thorough plan for approval just like any other application being submitted.

97. How simple is the process to apply?
   A. The City and its partners created an on-line application which pretty much is a step-by-step process to apply. Additionally, there are built-drop down boxes and preloaded spreadsheets that tell you what to place into them for your required budget details. We made a conscious effort to simplify the process as much as possible for the applicants.

98. What are the pages in the guidelines to make sure the projects they are submitting are in alignment to ARPA eligibility?
   A. You can read the eligibility requirements in the Community Investment and Small Business Hospitality NOFOs (Notice of Funding Opportunity).

99. Can a not-for-profit organization apply to the community award and small business/hospitality grants?
   A. Eligible to apply to both grants but organizations can only submit 1 project. An organization cannot submit 2 projects, including 1 for community award and 1 under the small business/hospitality.

100. Will it be posted at some point who was awarded the ARPA grant funding?
    A. Yes, all formal contracts will be awarded through the City’s process, which is finalized by formal Commission approval.

101. Can multi-national companies apply and how will it be vetted to make sure they do not receive funding?
    A. The ARPA-SBH is focused on businesses located and operating in the City of Dayton corporation boundaries and the ARPA-C NOFOs are intended for projects focused within the City of Dayton city limits. If a multi-national company located in or has a project focused on the Dayton city limits that benefits the community, they are eligible to apply.

102. If you apply for a capital item, do you have to show how you will sustain that capital investment?
    A. Yes. In your application you will asked to provide details on how you will maintain and sustain operations after project is completed and ARPA funds have been exhausted. If you cannot show strong evidence that you can successfully sustain operations, your project will most likely NOT be approved.

103. Is there a way to make sure that the underserved community is aware of the NOFOs?
    A. Yes. The City has recruited the Guidehouse team to assist in the execution of whole NOFO process. In the early planning stages, we have added a team member who specializes in diversity inclusion and is currently reaching out to ensure we get as much diversity and underserved community inclusion as possible.

104. Can the funds just to go into the program instead of purchasing tangible items?
    A. Yes, but it depends. Remember in the NOFOs, one cannot use ARPA funds for paying salaries, utilities, etc. Your request must meet one of the three criteria: support the public health response, respond to negative
economic impacts, or serve the hardest hit communities or families outlined in the QCTs (Qualified Census Tracts).

105. Is the City able or willing to work on trying to facilitate the execution of the project?
   A. The city will make suggestion and support partnering opportunities for those organizations with similar projects in mind. Furthermore, the city is trying to reduce barriers or remove barriers (provide exemptions) for the project to be successful. However, we must legally satisfy all requirements as outlined by the U.S Treasury Department.

106. What strings are attached with the funding if you are awarded a grant?
   A. There will be additional required documentation to show proof that your spending is in line with the ARPA (America Rescue Plan Act) requirements throughout the entire process. However, the city will work with each organization to maintain transparency and provide advance notice when possible.

107. Is the budget different submitted in the beginning of the application the same as the detailed budget submitted in the documentation requirements?
   A. Each budget section requests different types of budget information. The form will walk you through what is requested and needed to satisfy the answer.

108. Would you have to re-justify if you only receive partial funding instead of the full amount of funding?
   A. Yes, for example if you said you needed $100K initially but then only got approved for $75K, you will have to explain in your project how you could still execute it with the reduced funded amount.

109. When is the announcement of awards?
   A. Currently the city is projecting to make announcements on the awards in early first quarter of 2022.

110. Is purchasing a building to have space to do the proposed project eligible in the City of Dayton NOFOs?
   A. This could be an eligible cost; however, the requestor would have to demonstrate how they are going to maintain all the associated costs for this purchase and that it is directly related to Community impact or COVID19.

111. Which (if any) of the following startup costs would be eligible for the City of Dayton NOFOs – CRM, software development, marketing, scheduling software, and building a website?
   A. This funding is not designed for start-up business or costs. All these purchases require ongoing funding and are more operating in nature and not likely to score well.

112. Is there a published amendment that that shows the changes to section 2.2.1 that states the organization no longer has to be physically located within the City of Dayton limits?
   A. Yes, please see www.daytonohio.gov/arpa
Terms and Definitions

- Affordable Housing – HUD generally defines as: housing on which the occupant is paying no more than 30 percent of gross income for housing costs, including utilities.

- ARPA – American Rescue Plan

- NOFO – Notice of Funding Opportunity

- CRF – Coronavirus Relief Fund

- Real Estate Holding Co. - a legal entity designed to protect business owners from the risks that come with owning investment properties. Real estate holding companies, also known as limited liability companies (or LLCs), do not participate in business operations themselves but own different assets.

- Landlord – ORC 5321 : "Landlord" means the owner, lessor, or sublessor of residential premises, the agent of the owner, lessor, or sublessor, or any person authorized by the owner, lessor, or sublessor to manage the premises or to receive rent from a tenant under a rental agreement.

- CNDAB – Community Neighborhood Development Advisory Board

- IBROC – Inclusive Business Recovery Center- specific for black/brown businesses

- ORC – Ohio Revised Code

- Partner- This term is used when multiple organizations submit together on a project or application request.

- Business vs. Nonbusiness (side-gig) - [https://tax.ohio.gov/static/forms/ohio_individual/individual/2020/pit-it1040-booklet.pdf#page=10](https://tax.ohio.gov/static/forms/ohio_individual/individual/2020/pit-it1040-booklet.pdf#page=10)
