

OHIO EXISTING BUILDING CODE (OEBC) PATH FOR COMPLIANCE

The 2024 OEBC is intended to provide flexibility to permit the use of alternative approaches to achieve compliance with minimum requirements to provide a reasonable level of safety, health, property protection and general welfare insofar as they are affected by the repair, alteration, change of occupancy, addition and relocation of existing buildings (OEBC Section 101.3).

The information in this OEBC Path for Compliance is intended to assist in producing efficient plan reviews with a reduced number of plan review revisions to the original Building / Zoning application. The State of Ohio Registered Design Professional shall select all boxes that apply to the project (OEBC Sections 106.1 & 106.2.1- Exception #5):
