	Wayne Ave	Johnson St - Lathrop Ave

FAQs

Q: Can I park on the street?

A: Yes, but you must be available to move your vehicle when paving operations begin. The contractor will post "NO PARKING" signs no more than 72 hours in advance of any work. The contractor will attempt to identify and alert the owners of vehicles in the way of the paving operation prior to commencement. If these vehicles are not moved in a timely manner or the owner cannot be located the vehicles will be towed at the owner's expense.

Q: How long will it be before my street is paved?

A: Once the street has been milled (old asphalt removed) the contractor has 7 days (weather permitting) to place the new surface course of asphalt.

Q: When can I drive on it?

A: Once the paving operation and traffic control devices are out of the vicinity the pavement will be open to traffic. This process can take up to 3 hours.

Q: Will speed humps/bumps be replaced?

A: Yes, although they will not be replaced with the initial paving operation separate crews will return and replace any traffic calming measures that were removed as a result of the removal of the old asphalt.

Q: Will my curb and sidewalk be replaced?

A: No, curb and sidewalk is the responsibility of the adjacent property owner and should be maintained in a safe and nuisance free condition.

Q: Where can I find a list of alleys to be resurfaced this year?

A: A list of alleys to be resurfaced, along with a map of the proposed residential streets to be resurfaced over the next five years, can be found at the City of Dayton's Website. Under the "Government" tab, select the Public Works Department. Toggle through the Public Works page to find this information located under the "Quick Links" Section.
