The City of Dayton (“City”) is seeking bids from experienced, qualified contractor to repair and then certify an existing overhead, Miller Xenon lifeline fall protection system at the City’s Miami Water Treatment Plant. In which includes, providing a system certification record documents in accordance with ANSI Z359.2-2017.

General

These specifications include the general requirements applicable to the repairs outlined resulting from a recertification inspection and assessment of the Miami Treatment Plant fall protection system. The permanent horizontal lifeline (HLL) system is a Miller Xenon System consists of three (3) overhead horizontal lifelines arranged in concentric octagonal configuration. Each system is installed above four (4) open clarifier basins. The system consists of eight overhead supports with pass through devices. Each horizontal lifeline cable is equipped with and inline tensioner with fall indicator. The design allows for a minimum of two users and a maximum of four users to be attached to the system at any one time.

The HLL system on Basin #1 consists of the following: The inner most cable (C) is 70 feet in circumference. The middle cable (B) is 95 feet in circumference. The outer most cable (A) is 115 feet in circumference.

The HLL system on Basin #2-#4 consists of the following: The inner most cable (C) is 95 feet in circumference. The middle cable (B) is 120 feet in circumference. The outer most cable (A) is 140 feet in circumference.

Requirements

The fall protection is located outside, approximately 25’ above the floor of the basin. The Contractor shall provide all labor, material, equipment, and incidentals necessary to complete the work in this specification, unless otherwise noted. All work shall comply with ANSI Z359.2-2017.

Fall Protection Repairs:

1. Basin 1 - From the assessment… “The trolley does not pass through the cable sleeve of the southeast intermediate bracket on the C system. The cable sleeve is bent upward. “Also from the assessment “The C systems were installed with the intermediate brackets oriented 180 degrees opposite of the A and B systems. It appears as though the force of the cable over time has bent many C systems intermediate brackets’ cable sleeve upward. As a result of the bent bracket, the trolley hits the intermediate bracket and cannot pass.”
Contractor shall provide and install all new cable sleeve for system C on Basin 1. The original installation was incorrect, place the new cable sleeve in a similar arrangement as the cable sleeves for A and B.

2. Basin 2 – From the assessment… “All the cable sleeves on the C system are bent upward preventing the trolley from passing freely except for the 1st intermediate bracket on the southeast side. “Also from the assessment “The C systems were installed with the intermediate brackets oriented 180 degrees opposite of the A and B systems. It appears as though the force of the cable over time has bent many C systems intermediate brackets’ cable sleeve upward. As a result of the bent bracket, the trolley hits the intermediate bracket and cannot pass.”
Contractor shall provide and install all new cable sleeves for system C on Basin 2. The original installation was incorrect, place the new cable sleeves in a similar arrangement as cable sleeves for A and B.
3. Basin 3 – From the assessment… “There is a gap between the swag and the slip indicator on system B. There are no system indications of impact to the B system. As a result of this gap (either through impact or poor installation) the B system fails inspection and is not cleared for fall protection use. “

Contractor shall replace the B system’s cable in accordance with the Original Manufacturers recommendations. See attached for more information.
Contractor shall provide and install all new cable sleeves for system C on Basin 3. The original installation was incorrect, place the new cable sleeves in a similar arrangement as cable sleeves for A and B.

4. Basin 4 – From the assessment… “The trolley does not pass through the cable sleeve of the northwest intermediate bracket on the C system. The cable sleeve is bent upward.” Also from the assessment “The C systems were installed with the intermediate brackets oriented 180 degrees opposite of the A and B systems. It appears as though the force of the cable over time has bent many C systems intermediate brackets’ cable sleeve upward. As a result of the bent bracket, the trolley hits the intermediate bracket and cannot pass.”
Contractor shall provide and install all new cable sleeves for system C on Basin 4. The original installation was incorrect, place the new cable sleeves in a similar arrangement as cable sleeves for A and B.

Section 1. Definitions

(a) “Dayton Local Business” hereafter called City Bidder, is a business as defined in Section 35.35 of the Revised Code of General Ordinances (R.C.G.O.) who is a business located within the corporate limits of the City that has filed or paid a payroll or earnings tax in the most recent calendar quarter and is a taxpayer in good standing with the City of Dayton.

(b) “Minority Business Enterprise (MBE)” or “Women Business Enterprise (WBE)” or “Small Business Enterprise (SBE)” as certified through the City’s Human Relations Council and as defined by 35.35 of the R.C.G.O.

(c) “Goods” All things, including specially manufactured goods, which are movable at the time of identification to the contract for sale, other than the money in which the price is to be paid, investment securities and things in action, and excluding land or a permanent interest in land.

(d) “Services” Those services within the scope of the practices included within professional services and general services.

Section 2. Intent

The intent is to expand the City’s ability to provide a revenue neutral program, while allowing flexibility in the award process to include and prefer those companies qualified for the preference. In order to receive the preference, the business must be within the stated percentage and willing to reduce their bid.

Preferences will be given in the following order:

Step 1) 10% preference for a business that is local AND certified, 
Step 2) If no business meets the above criteria, THEN a 5% preference for a non-certified local business may be granted, 
Step 3) If no business meets either of the above criteria, THEN a 5% preference for a non-local certified business may be given.

Section 3. Applying Local & Certified Preference Example

Bid Responses:

Bidder A: Not a certified and not a Dayton local business bids: $100
Bidder B: Certified (MBE, WBE, or SBE) and Dayton Local Business bids: $110
Bidder C: Not certified but is a Dayton Local HUB Zone Business bids: $105
Bidder D: Not certified, but is a Dayton Local Business (non HUB) bids: $105
Bidder E: Certified, but is not a Dayton Local Business bids: $104

In step one, Procurement would first contact Bidder B a Dayton Local & Certified Business (since they are within 10% of the low bid), to determine if they would be willing to match the price of the low bid. If “Yes”, then Bidder B is awarded the contract at $100, if “No”, Procurement would move onto the next criterion.

In step two, we have a tie between two Dayton local businesses (Bidder C and Bidder D), who are both within 5% of the low bid. The tie would be broken in favor of the Dayton Local business that is a qualified Dayton HUB Zone business. Procurement would contact Bidder C to determine if they would be willing to match the price of the low bid. If “Yes”, then Bidder C is awarded the contract at $100, if “No”, Procurement would move onto the other Dayton Local business, Bidder D. Again Procurement would contact Bidder D to determine if they would be willing to match the price of the low bid. If “Yes”, then Bidder D is awarded the contract at $100, if “No”, Procurement would move onto the next Criterion.

For step three, we have Bidder E who is certified through the City of Dayton as an MBE, WBE or SBE and within 5% of the low bidder, but is not a Dayton Local Business. Procurement would contact Bidder E to determine if they would be willing to match the price of the low bid. If “Yes”, then Bidder E is awarded the contract at $100, if “No”, Procurement would have exhausted all possible preferences and would award to Bidder A the low bid of $100.

Section 4. Ties

When ranking qualifying businesses, In the event of a tie between two (2) or more Dayton Local Business bidders that are certified MBE, WBE or SBEs, ties will be broken through a lottery method until the winner remains. In the event the event of a tie between two Dayton Local Businesses, the tie shall be broken in favor of a Dayton Local Business that is also SBA HUBZone Certified. In the event of a tie between two (2) or more certified MBE, WBE or SBE bidders, ties will be broken through a lottery method until the winner remains.

Section 5. City Manager Authorization

The City Manager or designee may promulgate rules and regulations to implement this ordinance provided they are not inconsistent with the expressed provisions of this ordinance.

Section 6. Severability

This ordinance may be subject to the application of the laws of the State of Ohio or the United States of America, which may preempt all, or a portion of this ordinance.

Section 7. Expiration

Pending City Commission approval this ordinance shall expire September 29, 2020.
PRODUCT MANUFACTURE LABOR STANDARDS
VENDOR COMPLIANCE FORM

By informal resolution 301-97, the City of Dayton is prohibited from Procurement, leasing, renting or taking on consignment goods for use or for resale by the City which were produced under sweatshop conditions.

The City of Dayton requests the following information concerning the products you intend to provide to the City as a result of this bid. This information will allow us to determine your products’ compliance with the standards outlined in informal resolutions 301-97.

We require that you make a good faith effort to ascertain the following about the factories which manufacture the products you intend to supply to the City and that you make information available to us for our verification of your claims.

A. **Child Labor.** The factory or producer does not employ anybody younger than the legal age as established by the jurisdiction in which such factory or producer is located for children to work or participate in the production.

B. **Forced Labor.** The factory or producer does not use forced labor of any kind—prison labor, indentured labor or bonded labor. However, goods produced by prisoners and/or patients as part of a formal rehabilitation or treatment program shall not be considered “forced labor” under the terms of this section.

C. **Wages and Benefits.** The factory or producer pays and/or provides at least the minimum wages and/or benefits as required by law in the jurisdiction in which the factory or producer is located.

D. **Hours of Work.** Employees are not required to work more hours than the maximum allowed by law for the jurisdiction in which the factory or producer is located.

E. **Worker Rights.** The factory or producer makes available to its employees such rights and procedures as required by law for the jurisdiction in which the factory or producer is located.
